Marshall, 2017-07-05 *Sculpture and the Museum* is the first in depth examination of the varying roles and meanings assigned to sculpture in museums and galleries during the modern period from neo classical to contemporary art practice It considers a rich array of curatorial strategies and settings in order to examine the many reasons why sculpture has enjoyed a position of such considerable

importance and complexity within the institutional framework of the museum and how changes to the museum have altered in turn the ways that we perceive the sculpture within it In particular the contributors consider the complex issue of how best to display sculpture across different periods and according to varying curatorial philosophies Sculptors discussed include Canova Rodin Henry Moore Flaxman and contemporary artists such as Rebecca Horn Rachel Whiteread Mark Dion and Olafur Eliasson with a variety of museums in America Canada and Europe presented as case studies Underlying all of these discussions is a concern to chart the critical importance of the acquisition placement and display of sculpture in museums and to explore the importance of sculptures as a forum for the expression of programmatic statements of power prestige and the museum's own sense of itself in relation to its audiences and its broader institutional aspirations *The Routledge Companion to Aesthetics* Berys Gaut, Dominic Lopes, 2005-07-25 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company *Art* Jonathan Vickery, Diarmuid Costello, 2007-01-01 The last few decades have witnessed an explosion in ideas and theories on art Art itself has never been so topical but much recent thinking remains inaccessible and difficult to use This book assesses the work of those thinkers including artists who have had a major impact on making criticizing and interpreting art since the 1960s With entries by leading international experts this book presents a concise critical appraisal of thinkers and their ideas about art and its place in the wider cultural context A guide to the key thinkers who shape today's world of art this book is a vital reference for anyone interested in modern and contemporary art its history philosophy and practice Theodor ADORNO Roland BARTHES Georges BATAILLE Jean BAUDRILLARD Walter BENJAMIN JM BERNSTEIN Pierre BOURDIEU Nicolas BOURRIAUD Benjamin BUCHLOH Daniel BUREN Judith BUTLER No l CARROLL Stanley CAVELL TJ CLARK Arthur C DANTO Gilles DELEUZE Jacques DERRIDA George DICKIE Thierry DE DUVE James ELKINS Hal FOSTER Michel FOUCAULT Michael FRIED Dan GRAHAM Clement GREENBERG Fredric JAMESON Mike KELLEY Mary KELLY Melanie KLEIN Joseph KOSUTH Rosalind KRAUSS Julia KRISTEVA Barbara KRUGER Niklas LUHMANN Jean Fran ois LYOTARD Maurice MERLEAU PONTY WJT MITCHELL Robert MORRIS Linda NOCHLIN Adrian PIPER Griselda POLLOCK Robert SMITHSON Jeff WALL Albrecht WELLMER Richard WOLLHEIM *Slow Art* Arden Reed, 2017-06-27 Introduction marking time What is slow art when images swell into events and events condense into images Living pictures Before slow art Slow art emerges in modernity I secularization from Diderot to Wilde Slow art emerges in modernity II the great age of speed Slow fiction film video performance 1960 to 2010 Slow photography painting installation art sculpture 1960 to 2010 Angel and devil of slow art **Sculptural Materiality in the Age of Conceptualism** MarinR. Sullivan, 2017-07-05 Sculptural Materiality in the Age of Conceptualism is structured around four distinct but interrelated projects initially realized in Italy between 1966 and 1972 Yayoi Kusama's Narcissus Garden Michelangelo Pistoletto's Newspaper Sphere Sfera di giornali Robert Smithson's Asphalt Rundown and Joseph Beuys's Arena These works all utilized non traditional materials collaborative patronage models and alternative modes of display to create a spatially and temporally

dispersed arena of matter and action with photography serving as a connective material thread within the sculpture it reflects While created by major artists of the postwar period these particular projects have yet to receive substantive art historical analysis especially from a sculptural perspective Here they anchor a transnational narrative in which sculpture emerged as a node a center of transaction comprising multiple material phenomenon including objects images and actors When seen as entangled polymorphous entities these works suggest that the charge of sculpture in the late postwar period came from its concurrent existence as both three dimensional phenomena and photographic image in the interchanges among the materials that continue to activate and alter the constitution of sculpture within the contemporary sphere

*Retracing the Expanded Field* Spyros Papapetros, Julian Rose, 2014-10-24 Scholars and artists revisit a hugely influential essay by Rosalind Krauss and map the interactions between art and architecture over the last thirty five years Expansion convergence adjacency projection rapport and intersection are a few of the terms used to redraw the boundaries between art and architecture during the last thirty five years If modernists invented the model of an ostensible synthesis of the arts their postmodern progeny promoted the semblance of pluralist fusion In 1979 reacting against contemporary art s transformation of modernist medium specificity into postmodernist medium multiplicity the art historian Rosalind Krauss published an essay *Sculpture in the Expanded Field* that laid out in a precise diagram the structural parameters of sculpture architecture and landscape art Krauss tried to clarify what these art practices were what they were not and what they could become if logically combined The essay soon assumed a canonical status and affected subsequent developments in all three fields *Retracing the Expanded Field* revisits Krauss s hugely influential text and maps the ensuing interactions between art and architecture Responding to Krauss and revisiting the milieu from which her text emerged artists architects and art historians of different generations offer their perspectives on the legacy of *Sculpture in the Expanded Field* Krauss herself takes part in a roundtable discussion moderated by Hal Foster A selection of historical documents including Krauss s essay presented as it appeared in October accompany the main text Neither eulogy nor hagiography *Retracing the Expanded Field* documents the groundbreaking nature of Krauss s authoritative text and reveals the complex interchanges between art and architecture that increasingly shape both fields Contributors Stan Allen George Baker Yve Alain Bois Benjamin Buchloh Beatriz Colomina Penelope Curtis Sam Durant Edward Eigen Kurt W Forster Hal Foster Kenneth Frampton Branden W Joseph Rosalind Krauss Miwon Kwon Sylvia Lavin Sandro Marpillero Josiah McElheny Eve Meltzer Michael Meredith Mary Miss Sarah Oppenheimer Matthew Ritchie Julia Robinson Joe Scanlan Emily Eliza Scott Irene Small Philip Ursprung Anthony Vidler *Theatre, Exhibition, and Curation* Georgina Guy, 2016-04-20 Examining the artistic intellectual and social life of performance this book interrogates Theatre and Performance Studies through the lens of display and modern visual art Moving beyond the exhibition of immaterial art and its documents as well as re enactment in gallery contexts Guy s book articulates an emerging field of arts practice distinct from but related to increasing curatorial provision for live performance Drawing on a recent

proliferation of object centric events of display that interconnect with theatre the book approaches artworks in terms of their curation together and re theorizes the exhibition as a dynamic context in which established traditions of display and performance interact By examining the current traffic of ideas and aesthetics moving between theatricality and curatorial practice the study reveals how the reception of a specific form is often mediated via the ontological expectations of another It asks how contemporary visual arts and exhibition practices display performance and what it means to generalize the theatrical as the optic or directive of a curatorial concept Proposing a symbiotic relation between theatricality and display Guy presents cases from international arts institutions which are both displayed and performed including the Tate Modern and the Guggenheim and assesses their significance to the enduring relation between theatre and the visual arts The book progresses from the conventional alignment of theatricality and ephemerality within performance research and teases out a new temporality for performance with which contemporary exhibitions implicitly experiment thereby identifying supplementary modes of performance which other discourses exclude This important study joins the fields of Theatre and Performance Studies with exciting new directions in curation aesthetics sociology of the arts visual arts the creative industries the digital humanities cultural heritage and reception and audience theories Fluxus Forms Natilee Harren, 2020-03-20 PURGE the world of dead art imitation artificial art Promote living art anti art promote NON ART REALITY to be grasped by all peoples writes artist George Maciunas in his Fluxus manifesto of 1963 Reacting against an elitist art world enthralled by modernist aesthetics Fluxus encouraged playfulness chance irreverence and viewer participation The diverse collective including George Brecht Robert Filliou Dick Higgins Alison Knowles George Maciunas Yoko Ono Nam June Paik Benjamin Patterson Takako Saito Mieko Shiomi Ben Vautier and Robert Watts embraced humble objects and everyday gestures as critical means of finding freedom and excitement beyond traditional forms of art making While today the Fluxus collective is recognized for its radical neo avant garde works of performance publishing and relational art and its experimental interdisciplinary approach it was not taken seriously in its own time With Fluxus Forms Natilee Harren captures the magnetic energy of Fluxus activities and collaborations that emerged at the intersections of art music performance and literature The book offers insight into the nature of art in the 1960s as it traces the international development of the collective s unique intermedia works including event scores and Fluxbox multiples that irreversibly expanded the boundaries of contemporary art
