Passages To Power Legislative Recruitment In Advanced Democracies:

Passages to Power Pippa Norris, 1997-10-09 Recruitment to legislative office is one of the core functions of political systems yet we know little about how the process varies from one country to another *Passages to Power* provides a comparative account of legislative recruitment which applies a common analytical framework and new survey data to nineteen advanced democracies Legislative recruitment refers to the critical step as people move from lower levels of politics into parliamentary careers Who succeeds in becoming a politician Who fails And why Based on original research which adopts a new institutionalist perspective this 1997 book compares these issues in a wide range of countries This important study brings together an outstanding group of international scholars to look at recruitment around the world The countries examined in depth include Australia Canada Finland Germany Japan the Netherlands New Zealand the United Kingdom and the United States along with a comparison of all member states in the European Union Democracy Within Parties Reuven Y. Hazan, Gideon Rahat, 2010-07 This text presents a new approach to understanding political parties It sheds light on the inner dynamics of party politics and offers a comprehensive analysis of one of the most important processes any party undertakes its process of candidate selection *The Oxford Handbook of Electoral Persuasion* Elizabeth Suhay, Bernard Grofman, Alexander H. Trechsel, 2020 Electoral persuasion is central to democratic politics It includes strategic communication not only by candidates and parties but also by interest groups media and citizens This volume surveys the vast literature on this topic emphasizing contemporary research and topics and complementing deep coverage of U S politics with international perspectives The Informal Powers of Western European Presidents Selena Grimaldi, 2023-08-14 The book explores how weak presidents directly or indirectly elected can still play a crucial role in the political arena Weak presidents have been distinguished from strong ones by relying on the evaluation of the powers they display according to the constitution Six Western European countries are analysed Germany and Italy which present a consistent constitutional design as weak presidents are elected indirectly and Austria Ireland Finland and Portugal that present inconsistent constitutional design as weak presidents are elected directly In contrast to much of the existing comparative works on presidential powers and activism the book emphasises the role and the use of informal powers beyond that of formal ones In particular a definition and a typology of informal powers are provided as well as an empirical investigation on informal presidential activism The positive outcome of presidential informal interventions are studied by relying on an interactionist approach which combines presidency centred as well as president centred explanations The book argues that when dealing with informal presidential activism the opportunity structure matters but presidential public support matters even more

Parliamentary Elites in Transition Manina Kakepaki, Fani Kountouri, 2022-11-21 This edited volume contributes to a better understanding of parliamentary changes in times of political transition and specifically the composition of the Greek Parliament before and after the debt crisis It discusses the profiles of Greek MPs through the lens of continuity and renewal

starting with the first major political crisis after the Metapolitefsi in 1989 and ending with the last legislative elections of 2019 Greece attracted scholarly and international interest due to the transformations that the sovereign debt crisis provoked to its political and partisan system It is one of the countries of the European periphery most severely hit during the great recession However no work so far has been devoted exclusively to the study of Greek parliamentary elites their cultural and political characteristics and the factors that shape their selection and election The book is a multifaceted source of information for all those interested in understanding forms of political representation during normal times and times of crisis Its distinctive advantage is that it offers an up to date and complete elite study in Greece comparable to similar European studies Moreover it is a useful tool for students scholars and researchers interested in the study of political representation across Europe

Women and Leadership in the European Union Henriette Müller, Ingeborg Tömmel, 2022 This volume is the first comprehensive analysis of women's ascendance to leadership positions in the European Union as well as their performance in such positions It provides a new theoretical and analytical framework capturing both positional and behavioural leadership and the specific hurdles that women encounter on their path to and when exercising leadership The volume encompasses a detailed set of single and comparative case studies analyzing women's representation and performance in the core EU institutions and their individual pathways to and exercise of power in top level functions as well as comparative analyses regarding the position and behaviour of women in relation to men Based on these individual studies the volume draws overarching conclusions about women's leadership in the EU Regarding positional leadership women continue to be underrepresented in leadership positions they more often hold less prestigious portfolios in such positions and manifold structural hurdles hamper their access to power Furthermore huge variations exist across EU institutions with the intergovernmental bodies being the hardest to access Regarding behavioural leadership women acting in powerful EU positions generally perform excellently They successfully exercise a combined leadership style that integrates attributes of leadership considered to be masculine and feminine This is not to argue that women per se are the better leaders Yet more often than men they are exposed to stronger selection processes and their prevalent practice of a combined leadership style tends to best meet the requirements of modern democratic systems and particularly those of the highly fragmented EU

Crafting Parliament in Myanmar's Disciplined Democracy (2011-2021) Renaud Egretteau, 2022 This volume offers the most significant analysis of how parliament re-emerged in Myanmar in the span of a post junta decade 2011-2021

ideology the functioning of parliamentary groups and perceptions about the EU The case of Spain is used to demonstrate how MPs values opinions and attitudes conflict and complement with those of the citizens they are supposed to represent Through a systematic comparison between MPs and citizens the contributions deal with topics that are key to understanding how democracies work and the role played by MPs Party Systems in Post-Soviet Countries A. Women's Representation in Democratic Brazil Kristin N. Wylie,2018-08-02 Brazil s quality of democracy remains limited by enduring obstacles including the weakness of parties and underrepresentation of marginalized groups Party Institutionalization and Women s Representation in Democratic Brazil theorizes the connections across those problems explaining how weakly institutionalized and male dominant parties interact to undermine descriptive representation in Brazil This book draws on an original multilevel database of 27 653 legislative candidacies spanning six election cycles over 100 interviews and field observations from throughout Brazil Wylie demonstrates that more inclusive participation in candidate centered elections amidst raced gendered structural inequities relies on institutionalized parties with the capacity to support women and the will heralded by party leadership to do so The book illustrates how women leaders in Brazil s more institutionalized parties enable white and Afro descendant female aspirants to navigate the masculinized terrain of formal politics It enhances our understanding of how parties mediate electoral rules as well as institutional and party change in the context of weak but robustly gendered institutions **Candidates, Parties and Voters in the Belgian Partitocracy**

Audrey Vandeleene,Lieven De Winter,Pierre Baudewyns,2018-11-03 This book focuses on the triadic relationship between electoral candidates and the two other poles of the delegation and accountability triangle political parties and voters The chapters rely mostly on the Belgian Candidate Survey CCS project gathering about 2000 candidates belonging to 15 parties represented in Parliament and running for the 2014 federal and regional elections and the authors conclusions serve at answering broad political science questions linked with elite recruitment party and candidate electoral strategies personalisation party cohesion and descriptive and substantive representation Its multilevel semi open electoral system atypical federal structure extreme party system fragmentation and volatility make Belgium an exceptionally rich but complex case that offers findings highly relevant to research on candidates in other democracies Parliamentary Candidates

Between Voters and Parties Lieven De Winter,Rune Karlsen,Hermann Schmitt,2020-10-27 This book offers the first comprehensive comparative and coherent perspective on parliamentary candidates in contemporary representative democracy Based on the unique database of the Comparative Candidate Survey project which interrogated parliamentary candidates in more than 30 countries it fills a significant lacuna by focusing on the thousands of ordinary candidates that

participate in national elections It examines who the candidates are in terms of their socio demographic background and political career patterns how they were selected by their parties what their policy preference are and whether these are congruent to those held by their voters who they seek to represent and how they intend to do so once elected and what their visions are on representative democracy and party government Last but not least it investigates how they go about reaching out to their potential voters during the election campaign This book will be of key interest to scholars and students of political parties and party politics political elites political communication political participation elections theories of democracy and representation legislative studies voting behaviour and more broadly to European politics as well as to political and policy professionals throughout Europe

The Challenges of Intra-Party Democracy William P. Cross, Richard S. Katz, 2013-02-28 The Challenges of Intra Party Democracy provides a comprehensive examination of both the concept and the practice of intra party democracy IPD Acknowledging that IPD is now widely viewed among both democratic practitioners and scholars as a normative good this volume suggests that there is no single or uniformly preferred form of IPD Rather each party s version of IPD results from a series of choices they make relating to the organization and division of power internally These decisions reflect many variables including a party s democratic ethos its electoral context state regulation and whether or not it is in government Individual chapters examine the relationship between party models and IPD the decline in party membership and activism the role of the state in regulating party democracy issues relating to gender and party organization norms of candidate and leadership recruitment and selection party policy development and party finance The analysis considers the principal issues that parties and the state must consider relating to IPD in each area of party activity the range of options open to them current trends in terms of paths chosen what these choices tell us about parties and most importantly what the implications of these choices are In doing so we offer a common language and set of questions relating to IPD that enhance the ability for consistent evaluation of the state of internal party democracy Through thorough analysis of associated costs and benefits we also provide a framework to assist with considerations of IPD reforms particularly in terms of their scope the range of options available and their implications Comparative Politics is a series for students teachers and researchers of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The Comparative Politics series is edited by Professor David M Farrell School of Politics and International Relations University College Dublin and Kenneth Carty Professor of Political Science University of British Columbia

The Oxford Handbook of Political Executives Rudy B. Andeweg, Robert Elgie, Ludger Helms, Juliet Kaarbo, Ferdinand Müller-Rommel, 2020-07-30 Political executives have been at the centre of public and scholarly attention long before the inception of modern political science In the contemporary world political executives have come to dominate the political stage in many democratic and

autocratic regimes The Oxford Handbook of Political Executives marks the definitive reference work in this field Edited and written by a team of world class scholars it combines substantive stocktaking with setting new agendas for the next generation of political executive research *Political Careers in Europe* Michael Edinger, Stefan Jahr, 2016-10-20 European integration not only has changed career opportunities for politicians it has expanded them This book is dedicated to the study of political career patterns It focuses on parliamentary careers in select European countries but the U S is also included as a long standing system with multi level politics The chapters from an impressive range of scholars represent a systematic investigation into level hopping practices in Europe While discussing the logic of moves across political levels special attention is given to the impact of institutional reforms The results indicate that the traditional model of career mobility with the national level as the apex of a career is still of importance in most countries however a clear trend towards multi directional political careers is found **Inside European Parliament Politics** Laura Landorff, 2019-02-18 The study of the informal dimension of EU politics is more important than ever in order to understand how the EU system works This book presents an innovative and original study on informal cross party cross committee groupings in the European Parliament so called Intergroups Building on extensive fieldwork including semi structured interviews and observations this study shows how parliamentarians of the seventh European Parliament 2009 2014 gain a variety of social resources such as social informational and political capital in Intergroups which they subsequently mobilise to foster opinion formation across political groups and parliamentary committees and to shape the EP's agenda and policy outcomes Drawing on an interdisciplinary Bourdieusian inspired framework this book makes a valuable contribution to sociological approaches in European integration studies Shedding new light on the informal dimension of parliamentary practices and politics this book appeals to EPs as well as EU scholars to students and practitioners of EU politics and civil society Federalism and Second Chambers Wilfried Swenden, 2004 The theory of comparative federalism asserts that federations require a second chamber for the representation of regional interests in central law making Yet there has been little systematic analysis of the contribution of second chambers in parliamentary federations to this task The main purpose of this book is to demonstrate to what extent the two strongest parliamentary second chambers the Australian Senate and the German Bundesrat are linked to the federal structures in which they are embedded The study analyzes the contribution of the members of these second chambers in advancing interests that are linked to the regional constituents whom they represent or to the collective fiscal or administrative interests of a regional government with whom they are associated The analysis underscores the largely executive character of intergovernmental relations in parliamentary federations a feature that corresponds with the composition of the German Bundesrat but not of the Australian Senate In the concluding chapter some preliminary observations are made as to whether our findings also generate interesting insights for the larger group of parliamentary second chambers in federal or quasi federal states such as the Belgian Spanish and Canadian Senates the UK House of Lords
