Germany **Why Can't Philosophers Laugh?** Katrin Froese, 2017-06-15 This book analyzes Western and Chinese
philosophical texts to determine why laughter and the comic have not been a major part of philosophical discourse Katrin
Froese maintains that many philosophical accounts of laughter try to unearth laughter's purpose thereby rendering it
secondary to the intentional and purposive aspects of human nature that impel us to philosophize Froese also considers texts

that take laughter and the comic as starting points attempting to philosophize out of laughter rather than merely trying to unearth reasons for laughter The book proposes that continuously unraveling philosophical assumptions through the comic and laughter may be necessary to live well *A Short Media History of English Literature* Ingo Berensmeyer, 2022-08-01

This book explores the history of literature as a history of changing media and modes of communication from manuscript to print from the codex to the computer and from paper to digital platforms It argues that literature has evolved and continues to evolve in sync with material forms and formats that engage our senses in multiple ways Because literary experiences are embedded in and enabled by media the book focuses on literature as a changing combination of material and immaterial features The principal agents of this history are no longer genres authors and texts but configurations of media and technologies In telling the story of these combinations from prehistory to the present Ingo Berensmeyer distinguishes between three successive dominants of media usage that have shaped literary history performance representation and connection Using English literature as a test case for a long view of media history this book combines an unusual bird s eye view across periods with illuminating readings of key texts It will prove an invaluable resource for teaching and for independent study in English or comparative literature and media studies
