mirror to the unifying braided futures underlying so called Western and Muslim feminism that are both undermined by the power of capital the world trade order and cynical geopolitics 2023 Association for Asian Studies Coomaraswamy Book Prize A crystal clear account of the entangled history of Western and Muslim feminisms Western feminists pundits and policymakers tend to portray the Muslim world as the last and most difficult frontier of global feminism Challenging this view Elora Shehabuddin presents a unique and engaging history of feminism as a story of colonial and postcolonial interactions between Western and Muslim societies Muslim women like other women around the world have been engaged in their own struggles for generations as individuals and in groups that include but also extend beyond their religious identity and religious practices The modern and globally enmeshed Muslim world they navigate has often been at the weaker end of disparities of wealth and power of processes of colonization and policies of war economic sanctions and Western feminist outreach Importantly Muslims have long constructed their own ideas about women s and men s lives in the West with implications for how they articulate their feminist dreams for their own societies Stretching from the eighteenth century Enlightenment era to the War on Terror present Sisters in the Mirror shows how changes in women s lives and feminist strategies have consistently reflected wider changes in national and global politics and economics Muslim women like non Muslim women in various colonized societies and non white and poor women in the West have found themselves having to negotiate their demands for rights within other forms of struggle for national independence or against occupation racism and economic inequality Through stories of both well known and relatively unknown figures Shehabuddin recounts instances of conflict alongside those of empathy collaboration and solidarity across this extended period Sisters in the Mirror is organized around stories of encounters between women and men from South Asia Britain and the United States that led them as if they were looking in a mirror to pause and reconsider norms in their own society including cherished ideas about women s roles and rights These intertwined stories confirm that nowhere in either Western or Muslim societies has material change in girls and women s lives come easily or without protracted struggle Feminist Theory Wendy K. Families and Friends of Lesbians and Gays and the AIDS crisis of the 1980s and 1990s Ending her story with an examination of contemporary coming out rituals Murray shows how the personal that was once private became political and finally public In exploring the intimate reciprocal relationship of gay children and their parents Not in This Family also chronicles larger cultural shifts in privacy discretion and public revelation and the very purpose of family relations Murray shows that private bedrooms and consumer culture social movements and psychological fashions all had a part to play in transforming the modern family The Archaeology of Household Activities Penelope Allison,2013-05-13 This pioneering collection engages with recent research in different areas of the archaeological discipline to bring together case studies of the household material culture from later prehistoric and classical periods The book provides a comprehensive and accessible study for students into the material records of past households aiding wider understanding of our own domestic development **The Religious Left in Modern America** Leilah Danielson,Marian Mollin,Doug Rossinow,2018-05-15 This edited collection of exciting new scholarship provides comprehensive coverage of the broad sweep of twentieth century religious activism on the American left The volume covers a diversity of perspectives including Protestant Catholic and Jewish history and important essays on African American Latino and women s spirituality Taken together these essays offer a comparative and long term perspective on religious groups and social movements often studied in isolation and fully integrate faith based action into the history of progressive social movements and politics in the modern United States It becomes clear that throughout the twentieth century religious faith has served as a powerful motivator and generator for activism not just as on the right where observers regularly link religion and politics but on the left This volume will appeal to historians of modern American politics religion and social movements religious studies scholars and contemporary activists Feminist Writers ,1996 Concise discussions of the lives and principal works of feminist writers from all time periods written by subject experts
