Passionate Discontent Creativity Gender And French Symbolist Art:

Passionate Discontent Patricia Mathews, 1999 Art historian Patricia Mathews examines the artistic social and scientific discourses of fin de siècle France Along the way she illuminates the Symbolist construction of a feminized aesthetic that nonetheless excluded female artists from its realm She analyzes contemporary cultural assumptions as well as theories such as social Darwinism biological determinism and degeneracy **BOOK JACKET** **Symbolist Art in Context** Michelle Facos, 2009-03-31 The Symbolist art movement of the late 19th century forms an important bridge between Impressionism and Modernism But because Symbolism emphasizes ideas over objects and events it has suffered from conflicting definitions In this book Michelle Facos offers a comprehensive description of this challenging subject *Women Artists in Interwar France* Paula J. Birnbaum, 2017-07-05 *Women Artists in Interwar France Framing Femininities* illuminates the importance of the Soci des Femmes Artists Modernes more commonly known as FAM and returns this group to its proper place in the history of modern art In particular this volume explores how FAM and its most famous members Suzanne Valadon Marie Laurencin and Tamara de Lempicka brought a new approach to the most prominent themes of female embodiment the self portrait motherhood and the female nude These women reimagined art s conventions and changed the direction of both art history and the politics of their contemporary art world FAM has been excluded from histories of modern art despite its prominence during the interwar years Paula Birnbaum s study redresses this omission contextualizing the group s legacy in light of the conservative politics of 1930s France The group s artistic response to the reactionary views and images of women at the time is shown to be a key element in the narrative of modernist formalism Although many FAM works are missing one reason for the lack of attention paid to their efforts Birnbaum s extensive research through archives press clippings and first hand interviews with artists families reclaims FAM as an important chapter in the history of art from the interwar years

Composing the Citizen Jann Pasler, 2009-07-06 In a book that challenges modernist ideas about the value and role of music in Western society *Composing the Citizen* demonstrates how music can help forge a nation Deftly exploring the history of Third Republic France Jann Pasler shows how French people from all classes and political persuasions looked to music to revitalize the country after the turbulent crises of 1871 Embraced not as a luxury but for its public utility music became an object of public policy as integral to modern life as power and water a way to teach critical judgment and inspire national pride It helped people to forget the past voice conflicting aspirations and imagine a shared future Based on a dazzling survey of archival material Pasler s rich interdisciplinary work looks beyond elites and the histories their agendas have dominated to open new windows onto the musical tastes and practices of amateurs as well as professionals A fascinating history of the period emerges one rooted in political realities and the productive tensions between the political and the aesthetic Highly evocative and deeply humanistic *Composing the Citizen* ignites broad debates about music s role in democracy and its meaning in our lives **The Routledge History of the Devil in the Western Tradition** Richard Raiswell, Michelle D.

Nature's Experiments and the Search for Symbolist Form Allison Morehead, 2017-02-27 This provocative study argues that some of the most inventive artwork of the 1890s was strongly influenced by the methods of experimental science and ultimately foreshadowed twentieth century modernist practices Looking at avant garde figures such as Maurice Denis douard Vuillard August Strindberg and Edvard Munch Allison Morehead considers the conjunction of art making and experimentalism to illuminate how artists echoed the spirit of an increasingly explorative scientific culture in their work and processes She shows how the concept of nature's experiments the belief that the study of pathologies led to an understanding of scientific truths above all about the human mind and body extended from the scientific realm into the world of art underpinned artists solutions to the problem of symbolist form and provided a ready made methodology for fin de si cle truth seekers By using experimental methods to transform symbolist theories into visual form these artists broke from naturalist modes and interrogated concepts such as deformation automatism the arabesque and madness to create modern works that were radically and usefully strange Focusing on the scientific psychological and experimental tactics of symbolism Nature's Experiments and the Search for Symbolist Form demystifies the avant garde value of experimentation and reveals new and important insights into a foundational period for the development of European modernism The Oxford Handbook of Decadence Jane Desmarais, David Weir, 2022 The Oxford Handbook of Decadence provides the most thorough examination of decadence to date by exploring the ramifications of this culture in different times and places from ancient Rome to contemporary America Thirty five wide ranging chapters address decadence not only in literature but also in film fashion architecture and more as well as in such fields as theology science psychoanalysis philosophy and politics **A Forest of Symbols** Andrei Pop, 2019-10-18 In this groundbreaking book Andrei Pop presents a lucid reassessment of those writers and artists in the late nineteenth century whose work merits the adjective symbolist For Pop this term denotes an art that is self conscious about its modes of making meaning and he argues that these symbolist practices which sought to provide more

direct access to the viewer by constant revision of its material means of meaning making brushstrokes on a canvas words on a page are crucial to understanding the genesis of modern art The symbolists saw art not as a social revolution but a revolution in sense and in how we conceptualize the world At the same time the concerns of symbolist painters and poets were shared to a remarkable degree by theoretical scientists of the period especially by mathematicians and logicians who were dissatisfied with the strict empiricism dominant in their disciplines and which made shared knowledge seem unattainable A crisis of sense made art and science look for conceptual foundations underlying the diverging subjective responses and perceptions of individuals Unlike other studies of this period Pop s focus is not on how individual artists may have absorbed bits of scientific theories but rather on the philosophical questions that were relevant to both domains The problem of subjectivity in particular of what in one s experience can and cannot be shared was crucial to the possibility of collaboration within science and to the communication of artistic innovation Pop s brilliant close readings of the literary and visual practices of Manet and Mallarmé of drawings by Ernst Mach William James and Wittgenstein of experiments with color by Bracquemond and Van Gogh and of the philosophical systems of Frege and Russell add up to a startling but coherent picture of the symbolist heritage of modernity and its consequences Alchemy in Contemporary Art Urszula Szulakowska,2017-07-05 Alchemy in Contemporary Art analyzes the manner in which twentieth century artists beginning with French Surrealists of the 1920s have appropriated concepts and imagery from the western alchemical tradition This study examines artistic production from c 1920 to the present with an emphasis on the 1970s to 2000 discussing familiar names such as Andre Breton Salvador Dali Yves Klein Joseph Beuys and Anselm Kiefer as well as many little known artists of the later twentieth century It provides a critical overview of the alchemical tradition in twentieth century art and of the use of occultist imagery as a code for political discourse and polemical engagement The study is the first to examine the influence of alchemy and the Surrealist tradition on Australian as well as on Eastern European and Mexican art In addition the text considers the manner in which women artists such as Leonora Carrington Remedios Varo and Rebecca Horn have critically revised the traditional sexist imagery of alchemy and occultism for their own feminist purposes Spirituality, Feminism, and Pre-Raphaelitism in Modern British Art and Culture Alice Eden,2024-04-17 This book proposes new understandings of modern life in Britain by bringing constructs of female spirituality centre stage and examining three forgotten artists identified with the Pre Raphaelites and Victorianism Thomas Cooper Gotch Robert Anning Bell and Frederick Cayley Robinson are resituated squarely within the tumultuous social and cultural changes of the period Becoming visible again in more inclusive histories allows such artists not only to re inhabit but to reshape narratives of modernism reanimating the scholarly discourse and creating a dynamic cultural history of modern Britain expressed through their striking visions of womanhood This book will be of interest to scholars in art history gender studies and British studies *The Nabis and Intimate Modernism* Katherine M. Kuenzli,2017-07-05 Providing a fresh perspective on an important but underappreciated

group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sier and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres The Nabis and Intimate Modernism is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism s development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority

Photojournalism and the Origins of the French Writer House Museum (1881-1914) Elizabeth Emery, 2017-07-05 Why did writers private homes become so linked to their work that contemporaries began preserving them as museums Photojournalism and the Origins of the French Writer House Museum addresses this and other questions by providing an overview of the social forces that brought writers homes to the forefront of the French imagination at the end of the nineteenth century and the beginning of the twentieth This study analyzes representations of the apartments and houses of Corneille Hugo Balzac Dumas Sand Zola Loti Montesquiou Mallarm and Proust among others arguing that the writer s home became a contested space and an important part of the French patrimony at this time This is the first book to emphasize the house museum as an essentially modern construct and to trace the history of ideas leading to its institutionalization in twentieth century France The interdisciplinary study also brings new attention to the importance of photojournalism for fin de si e France and brings to light fascinating and forgotten examples of at home photography by Dornac and Henri Mairret Elizabeth Emery provides a fresh and compelling perspective on conjunctions between visual literary and material cultures

The Liberation of Painting Patricia Leighton, 2013-11-08 The years before World War I were a time of social and political ferment in Europe which profoundly affected the art world A major center of this creative tumult was Paris where many avant garde artists sought to transform modern art through their engagement with radical politics In this provocative study of art and anarchism in prewar France Patricia Leighton argues that anarchist aesthetics and a related politics of form played crucial roles in the development of modern art only to be suppressed by war fever and then forgotten Leighton examines the circle of artists Pablo Picasso Juan Gris Franti ek Kupka Maurice de Vlaminck Kees Van Dongen and others for whom anarchist politics drove the idea of avant garde art exploring how their aesthetic choices negotiated the myriad artistic languages operating in the decade before World War I Whether they worked on large scale salon paintings political cartoons or avant garde abstractions these artists she shows were preoccupied with social criticism Each sought an appropriate subject medium style and audience based on different conceptions of how art influences society and their choices constantly shifted as they responded to the dilemmas posed by contradictory anarchist ideas According to anarchist theorists art should expose the follies and iniquities of the present to the masses but it should also be the untrammelled expression of the emancipated individual and open a path to a new social order Revealing how these ideas generated some of modernism s most telling contradictions among the prewar Parisian avant garde The Liberation of Painting restores revolutionary activism to the broader history of modern art

Tradition Richard Warren, 2017-12-14 Art Nouveau was a style for a new age but it was also one that continued to look back to the past This new study shows how in expressing many of their most essential concerns sexuality death and the nature of art its artists drew heavily upon classical literature and the iconography of classical art It challenges the conventional view that Art Nouveau s adherents turned their backs on Classicism in their quest for new forms Across Europe and North America artists continued to turn back to the ancient world and in particular to Greece for the vitality with which they sought to infuse their creations The works of many well known artists are considered through this prism including those of Gustav Klimt Aubrey Beardsley and Louis Comfort Tiffany But breaking new ground in its comparative approach this study also considers some of the movement s less well known painters sculptors jewellers and architects including in central and eastern Europe and their use of classical iconography to express new ideas of nationhood Across the world while Art Nouveau was a plural style drawing on multiple influences the Classics remained a key artistic vocabulary for its artists whether blended with Orientalist and other iconographies or preserving the purity of classical form **Dialectical**

Conversions David Craven, Brian Winkenweder, 2013-08-15 Few art critics in Western art history have ever had the broad ranging impact over several decades of Donald Kuspit a philosopher and psychoanalyst who from 1970 until the present has been a commanding figure on the international stage A student of German thinker Theodor Adorno under whom he earned the first of his three doctorates Kuspit introduced a new type of philosophical art criticism into the art world He drew on both phenomenology and Critical Theory before he then increasingly adopted psychoanalysis Since Kuspit himself has always measured his own place in the history of art criticism by how rigorously he engages with competing approaches this book is a searching survey of Kuspit s role in triggering several historic shifts within art criticism beginning with his now legendary 1974 article in Artforum A Phenomenological Approach to Artistic Intention Dense and demanding yet deft and incisive Kuspit s multi faceted art criticism has become world famous for reasons that artists critics art historians and philosophers from at least ten different nations explain from various points of view Divided into three parts and introduced by a lengthy introduction the book features comments by recognized artists like Rudolf Baranik Anselm Kiefer and April Gornik as well as critical commentaries by many scholars and critics from around the world on the richness of Kuspit s insights into art
