The Passion of Charles Péguy Glenn H. Roe, 2014-10-16 In many ways the development of twentieth century literary criticism and theory can be seen as a prolonged struggle against the pervading influence of nineteenth

century positivist historicism Anglo American New Criticism and later French Post structuralism and Deconstruction are the best known instances of this conflict Less widely known but no less important to contemporary literary studies are Charles P guy s earlier debates with French academic historicism in the years leading up to World War One First examined by Antoine Compagnon in his ground breaking work *La Troisième République des lettres* in 1983 it is a period in French literary and cultural history that remains some thirty years later largely untreated in English This book thus addresses an important albeit relatively unexplored moment in the development of twentieth century literary history and theory By way of P guy s foundational polemics with modernity and his role in the related crisis of historicism we gain a better understanding of the critical basis from which similar anti positivist and anti historicist critiques were later enacted on both sides of the Atlantic In situating P guy s passions and polemics within the larger cultural and historical context Glenn H Roe invites us to reconsider and re evaluate P guy s place among twentieth century literary figures Beyond its literary critical aspects *The Passion of Charles P guy* provides a general view of early twentieth century debates related to the role of literary studies in modern society the reform of the French educational system and the formation of literary history as an academic discipline in both France and abroad **Choice** ,1990
