Past Event And Present Salvation:

Past Event and Present Salvation Paul S. Fiddes, 1989-01-01 How can an event that has taken place in the past have an effect upon the human experience of salvation in the present In examining one of the essential questions of the Christian faith Paul S Fiddes explores the limits as well as the gains to be made in speaking about crucifixion as a historical event and considers the relationship of the crucifixion to the continuing process of God's saving activity He considers the relevance of a past act of atonement to such areas of practical experience as forgiveness liberation and suffering **James Baldwin and**

the Short Story Benedict Ushedo, 2018-03-21 This book examines the range of issues that echo in James Baldwin's short stories It articulates and defends the claim that the stories in the collection *Going to Meet the Man* are driven by the autobiographical memory of the author To support this line of thought and the related proposition that the stories feed into themes relevant to self knowledge vicarious suffering love and forgiveness their effectiveness as transformative and revelatory texts is highlighted By drawing on contemporary studies and challenging the view that short stories are no more than miniature pieces merely echoing major works of their authors this book demonstrates that the short story genre can be profoundly forceful and effective in the articulation of complex human issues This study shows also that the humanistic import of the Baldwin stories is amplified by their ability to accumulate moral tension as they elicit the participation of the reader in an imaginative quest for a better world **The Spirit of Atonement** Steven M. Studebaker, 2021-01-14 Steven M

Studebaker proposes a Pentecostal approach to a major Christian doctrine the atonement The book moves Pentecostal theology of the atonement from a primarily Christocentric and crucicentric register to one that articulates the pneumatological and holistic nature of Pentecostal praxis Studebaker examines the irony of Classical Pentecostalism relying on the Christocentrism of Protestantism evangelical atonement theology to articulate its experience of the Holy Spirit as well as the Pneumatological nature of Pentecostal praxis He then develops a Pentecostal theology of atonement based on the biblical narrative of the Spirit of Pentecost and returns to re imagine an expanded vision of Pentecostal praxis based on the theological formation of the biblical narrative The result is a Pentecostal atonement theology that shows the integrated nature of pneumatology creation and Christology in the biblical narrative of redemption It gives theological expression to not only the pneumatological nature of Pentecostal praxis but also the fundamental role of the Holy Spirit in the biblical narrative of redemption The book challenges popular western atonement theologies to re think their Christocentrism and crucicentrism as well as their atomistic tendency to separate soteriology into objective Christological and subjective pneumatological categories **Once and for All** Tom Smail, 2005-05-02 To articulate a credible doctrine of the atonement in today's cultural situation is fraught with difficulties How can we do justice to the central New Testament claim that the work of Christ at one point in history is decisive for God's relationship to the whole of humanity at every other point in history Tom Smail takes the connection between the atonement and the Trinity as the underpinning of Once and for All If we recognize

that the work of the cross has to be seen to involve all three persons and their relationships to one another we have a structure that enables us to deal with the problems the doctrine of the atonement raises This presentation of Christ's atoning work in his cross and resurrection both does justice to its decisive character as a once and for all historical event and at the same time explores the sense in which a long past historical act can be universally relevant to and effective for everyone Tom Smil makes contemporary theological thinking on this subject accessible and also in investigating the spiritual and pastoral dimensions of the gospel of the cross gives expression to his personal struggle with it throughout fifty years of ministry It is his own confession of the cross guided by the Scriptures and the many diverse strands of the Christian tradition that are precious to him Once and for All will help us all to understand better and to enter into the unique and enduring mystery at the heart of our faith

Within the Love of God Anthony Clarke, Andrew Moore, 2014-11-27 The doctrine of God is central to theology for it determines the way in which other regions of Christian doctrine are articulated yet work on this topic in its own right has been occluded recently by treatments of the Trinity or divine passibility This collection of specially commissioned essays presents major treatments of key themes in the doctrine of God motivated by but not restricted to the work of Professor Paul S Fiddes to whom it is offered as a Festschrift It includes invigorating discussions of the biblical and non biblical sources for the doctrine of God and the section on Metaphysics and the Doctrine of God examines some of the most important conceptual questions arising in contemporary theological debate about the being and nature of God and God's relations to the world The final section of the book on God and Humanity will be highly relevant to scholars working in the fields of theological anthropology moral and political theology on inter faith relations on theology and literature or who are interested in the impact of contemporary science on the doctrine of God The introduction relates the essays in the book to the work of Professor Fiddes and to wider debates in

Christian doctrine This volume brings together a team of internationally distinguished scholars from a wide range of theological philosophical and religious perspectives and it will stimulate fresh thinking and new debate about this most central of topics in Christian theology

SCM Core Text: Christian Doctrine Mike Higon,2013-01-25 The SCM Core Text Christian Doctrine offers an up to date accessible introduction to one of the core subjects of theology Written for second and third year university students it shows that Christian Doctrine is not a series of impossible claims to be clung to with blind faith Mike Higon argues that it is rather a set of claims that emerge in the midst of Christian life as Christian communities try to make enough sense of their lives and of their world to allow them to carry on Christian communities have made sense of their own life and the life of the wider world in which they are set as life created by God to share in God s own life They have seen themselves and their world as laid hold of God s life in Jesus of Nazareth and as having the Spirit of God s own life actively at work within them This book explores these and other central Christian doctrines and in each case shows how the doctrine makes sense and how it is woven into Christian life It will help readers to see what sense it might make to say the things that Christian doctrine says and how that doctrine might affect the way that one looks at everything the natural world gossip culture speaking in tongues politics dieting human freedom love High Noon justice computers racism the novels of Jane Austin parenthood death and fashion

Images of Redemption Patrick Sherry,2003-05-01 After discussing the arts of redemption and their rivals and

introducing soteriology the theology of salvation Patrick Sherry argues that the Christian Drama of Redemption has three Acts The next five chapters discuss the three Acts namely salvation history our present human life and the life to come In each case Sherry explains how art and literature can lead to an understanding of what is at stake here His main concern is with the present life hence three of those chapters deal with that phase of redemption one of them specifically with novels of redemption The last substantial chapter of the book takes up the general issue of how art and literature contribute to religious understanding Sherry argues that they may be primary expressions of religious belief as well as illustrations and that as such they may criticise or complement theology or in turn be open to criticism themselves from that quarter Finally he summarises the main theme and briefly discusses some of the particular problems of assessing the arts of redemption The book's most distinctive feature is the way in which it uses art and literature as a means of religious and theological understanding It is not a survey of the arts of redemption though it uses a wide variety of examples including ancient Greek drama Flemish and Italian painting religious music and 19th 20th century novels These examples are used as a tool for understanding what is one of the most difficult areas of theology

Atonement Theories Ben Pugh, 2015-02-26 With the subject of the atonement of Christ attracting such a lot of polemical work at this time it is easy to conclude that the current debate is generating more heat than light Atonement Theories presents the beginning student pastor or researcher with an accessible and fair treatment of every school of thought on this subject Atonement Theories significantly updates previous histories of the doctrine providing analysis of some fascinating and highly significant recent developments It also intriguingly highlights at various points where aspects of this central message of Christianity might find a connection within contemporary culture It aims to empower the reader to quickly gain a working knowledge of current debates and the history behind them

Nonconformist Theology in the Twentieth Century Alan P.F. Sell, 2012-09-17 This book is the first comprehensive study of the systematic doctrinal and constructive theology produced within the major Nonconformist traditions during the twentieth century By the end of the nineteenth century modern biblical critical methods were fairly widely adopted evolutionary thought was in the air and doctrinal modifications especially concerning the fatherhood of God were underway Sell charts the influence on Nonconformist thinking in the twentieth century of the New Theology associated with R J Campbell the First World War the reception of Karl Barth the theological excitement of the 1960s and growing religious pluralism The second lecture concerns the major Christian doctrines of God Christ the Holy Spirit and the Trinity Whereas in the early decades of the century there was considerable emphasis upon the atonement during the concluding two decades the Trinity received more attention than had formerly been the case In Lecture Three attention is directed to ecclesiological and ecumenical themes The Nonconformists are presented as Protestant and as displaying some zeal in propagating their particular understanding of the Church The doctrinal aspects of their national and international moves toward inner family unity and of their broader ecumenical relationships are considered Eschatology is treated in the

concluding lecture prior to Sell's assessment of the significance of twentieth century Nonconformist theology and his observations regarding its current state its future content and its practitioners

Believing in Jesus Christ Leanne Van Dyk, 2002-01-01 This book is a clear treatment in nontechnical language of the person and work of Jesus Christ especially focusing on the nature of atonement The chapters are arranged around several central questions Who is Jesus What do the Bible and the church tell us about him Just what is in the nature of the salvation he offers and how does it work Most of all what difference do the answers to these questions make for the church and for the world The Foundations of Christian Faith series enables readers to learn about contemporary theology in ways that are clear enjoyable and meaningful It examines the doctrines of the Christian faith and stimulates readers not only to think more deeply about their faith but also to understand their faith in relationship to contemporary challenges and questions Individuals and study groups alike will find these guides invaluable in their search for depth and integrity in their Christian faith

Paul, Thessalonica and Early Christianity Karl P. Donfried, 2003-01-30 This book concentrates on major Pauline themes and on I Thessalonians in its cultural and religious context as well as exploring other major issues especially with reference to chronology and Judaism The question of Paul's Jewishness is therefore raised with a new urgency What kind of a Jew was Paul Why do we find so many coherences between his language and thought with that of the Community of the Renewed Covenant i e the Essenes One of the essays Paul and Qumran suggests that the Dead Sea Scrolls offer valuable clues to understanding Pauline language and thought If in fact there was contact between Paul and the Essenes where would it have taken place If such meetings were held possibly in the Essene Quarter of Jerusalem is there a connection between that area and the location of the earliest Christians in Jerusalem And what kind of Christians were they and how did they impact on the Apostle's missionary activity In connection with this discussion of Paul and Judaism a number of challenges are offered to the so called New Perspective on Paul especially in the work of E P Sanders and James D G Dunn to suggest that a closer study of the Dead Sea Scrolls raises serious questions about the appropriateness of their interpretation of both Judaism and Paul as well as opening new perspectives that will necessitate not only the rethinking of second temple Judaism but also the origins of earliest Christianity and the relationship between them

Against Returning to Egypt Jeff B. Pool, 1998 Against Returning to Egypt is study of a doctrinal statement recently adopted by the Southern Baptist Convention The Report of the Presidential Theological Study Committee Using criteria developed from the SBC's historic distinction between confessions of faith and creeds Professor Jeff Pool takes the measure of this doctrinal statement and finds it wanting He argues that the Report represents the greatest theological threat to the denomination in the history of the SBC This threat consists primarily in that the Report intentionally erases the historic Baptist distinction between confessions of faith and creeds and in addition in that it presents and in fact is based upon a radically Calvinistic revision of the SBC's historic perspectives on several central Christian doctrines This investigative study has significance for other traditions and histories during these tumultuous times rightly characterized as

times of fundamentalist resurgence The principles motives and aspirations examined here appear not only in other denominational histories but in other political social and cultural realms as well *The Theologically Formed Heart* Warner M. Bailey, Lee C. Barrett, James O. Duke, 2014-09-10 The *Theologically Formed Heart* invites the reader to consider the role of theology in the formation of virtues and passions and conversely the role of virtues and passions in understanding Scripture theology and living a Christian life The essays in this volume are offered in appreciation of the teaching scholarship and service to the church and world of Professor of Theology David J Gouwens They are organized in three sections theological reflections Reformed theology in service to the church and studies in the thought of Soren Kierkegaard Four important issues are explored from multiple perspectives the Church's coming to terms with religious pluralism in mission inter religious dialogue theological education and ecclesial life the gospel's invitation to welcome communities of difference Reformed aesthetics in Calvin's rhetoric and in contemporary hymnody and Kierkegaard's contribution to theology and ecclesial practice The aims of the book go beyond academic confines Through reading the different essays a personality will emerge who illustrates a life of scholarship that yields itself gladly to the God made known in Jesus Christ Thus beyond imparting new information the book may inspire its readers to their own practice of theologically forming their hearts **The Nature of the Atonement** James K. Beilby, Paul R. Eddy, 2009-08-20 James K Beilby and Paul R Eddy edit a collection of essays on four views of atonement the healing view the Christus victor view the kaleidoscopic view and the penal substitutionary view This is a book that will help Christians understand the issues grasp the differences and proceed toward a clearer articulation of their understanding of the atonement *Colin Gunton's Trinitarian Theology of Culture* Andrew Picard, 2024-06-27 Whilst upholding some of the criticisms of Colin Gunton's work this incisive book argues that there is a Hauptbriefe in Gunton reception that assumes his early classic works *The One the Three and the Many* and *The Promise of Trinitarian Theology* 1st ed are definitive of his project and fail to engage adequately with the progressions in Gunton's later thought Instead this book offers a fresh reading of Gunton by giving greater prominence to his later writings which are centred in the mediation of the Son and the Spirit in creation Andrew Picard argues that Gunton's trinitarian theology of culture emerges from his later trinitarian theology of mediation creation Christology pneumatology and ecclesiology Exploring these doctrinal foci enables an understanding of Gunton's account of faithful human culture as embodied worship a living sacrifice of praise which contributes to the divine redemption and perfection of creation It is the church's particular calling to embody such praise through its visible life in community The study concludes by intersecting Gunton's theology with the social sciences to critique ableism and consider the politics of the church's belonging in community [Atonement and the New Perspective](#) Stephen Burnhope, 2018-08-10 Atonement has been described as the central doctrine of Christianity and yet surprisingly the church has never insisted on a particular understanding of how redemption in Christ was achieved Instead a miscellany of metaphors has been employed each picturing something of Christ's work Recent debate within Reformed Evangelicalism has

been characterized by claims for hegemony to be granted to penal substitution versus counter arguments for a kaleidoscopic multi model understanding Notably absent in these discussions however are two considerations One is any common nexus to draw atonement thought together The other is any positive theological contribution deriving from God s preexisting relationship with Israel the presumed role of which has rather been to provide a negative contrast of law versus grace and works versus faith as the dark background against which the light of Christ may shine more brightly Recent scholarship however particularly the new perspective on Paul has comprehensively dismantled the old stereotypes concerning first century Judaism This book asks how differently we might think about the atonement once it is brought into conversation with the new scholarship It concludes by proposing a new perspective on atonement in which Christ is central Israel and Torah are affirmed and the traditional metaphors continue to find their place *Approaches to Old Testament Interpretation* John Goldingay,2024-10-18 In this book John Goldingay examines five approaches to the interpretation of the Old Testament as a faith a way of life the story of salvation witness to Christ and Scripture Dr Goldingay has a detailed knowledge of an enormous range of scholarly literature His carefully considered evaluations of the works of other scholars are a helpful guide to the key issues which often tend to be submerged by the intricacies of scholarly debate **Handbook of Pentecostal Christianity** Adam S. Stewart,2012-04-15 Handbook of Pentecostal Christianity is an easy to read guide designed for those interested in learning about one of the fastest growing religious traditions in the world Adam Stewart s unique collection presents concise yet comprehensive explanations of some of the most important terms and concepts needed to understand the origins and development as well as the beliefs and practices of Pentecostalism worldwide Twenty four scholars from five continents provide entries which are written from disciplinary perspectives as diverse as anthropology biblical studies black church studies history religious studies sociology and theology The fifty entries shed light on such aspects as The Azusa Street Mission and Revival Baptism of the Holy Spirit exorcism Godly Love prophecy snake handling and the Word of Faith movement Each entry also includes a brief list of references and suggestions for further reading These brief engaging explanations on aspects of Pentecostalism can be read on their own or alphabetically from start to finish In its entirety Stewart s text provides the reader with an introduction to the history theology practices and contemporary forms of Pentecostalism as it stands at the outset of the twenty first century Stewart s handbook is an appealing introduction to Pentecostalism suitable for both students of religion and the curious general reader
