evidence that something beyond the physical affects the health of many people and urges medical scientists to objectively assess this revolutionary approach to mental and often physical illness. Pioneers have the courage to put aside the status quo and evaluate what the evidence shows even if it defies the prevailing logic of the time. Both physicians and the general public should explore the pioneering work of Dr. Modigliani, which no doubt has produced many remarkable healings. **Past Lives, Future Loves** Richard Sutphen, 1978 *Promise* Clarence Joseph Socha, 2002-03-12

It bothers you. Keeps coming back to mind like a dream. Won't go away. You read about the phenomenon and you wonder if it is really possible that you have flashbacks to a life you had lived before. Nahhh. But you search for answers. You read about therapists who claim when they use hypnosis to probe into patients' subconscious for causes of emotional problems that often they regress to previous life. Sometimes they speak in a different voice and tongue and are instructed to speak English. Is this possible? Can you believe what these therapists claim? More than forty years ago Mr. Socha read a book *The Search for Bridey Murphy* by Morey Bernstein, an amateur hypnotist. It was about a Colorado woman who was hypnotized and talked about a life she lived in the 1700s in Cork, Ireland. Her name was Bridey Murphy. The book created a sensation but reincarnation in the 1950s in America was considered too far out and not to be taken seriously. The book's popularity diminished and it is out of print, although used bookstores grab all the copies they can get their hands on because people continue asking about it and copies do not stay on the shelves very long. The author, C. Joseph Socha, could not forget about Bridey. The question persisted: Imagine what it would be like to listen in as a therapist who hypnotizes a patient is suddenly talking to an entity in another lifetime and is witnessing a famous historical scene: Ancient Rome, the Napoleonic Wars, moments of our Revolutionary War. An exciting idea. You have an observer there now. You communicate with him. Tell me what you see. What is happening? That is how *Promise* began. Socha picked a historical period to write about. He researched that period meticulously for details that matched accurately what we know of that period from our history books today. He leafed through hundreds of yellowed, aged pages of historical manuscripts. He examined illustrations. He had to feel that he was actually there to write realistically. And what about the therapist? How did he become one? What did he experience the first time in a therapy session that he encountered an entity in a previous lifetime? Did he always believe in reincarnation? If not, did it shock him the first time he was exposed to an actual regression case? How did he hypnotize? How about a case history that he could share with the writer? These were questions that Socha, the writer, struggled with. He had to know. How else could he write about it realistically? The reader of *Promise* will often wonder: Hey, is this stuff fact or fiction? It is fiction, but the copy reads like an article, like reporting facts, accurate details about the period and the surroundings of that historical moment. Like providing mental snapshots of a moment. VISUAL writing. Something the author learned while working in the audio-visual production industry. The picture was all important, but in a novel, no actual pictures are provided. So the writer produces descriptive movement. You see what he sees and feel what takes place. You can read the story aloud to someone and they will see in their own mind what is
