Rogers, Nicola Slee, 2021-05-13 Practical theology has become a well established academic discipline in Britain and Ireland over the past half century evidenced in its chairs journals books conferences and contribution to transformed practices The British and Irish Association for Practical Theology BIAPT and its journal Practical Theology has had a significant role to play in the story of the discipline This volume is a celebration of practical theology in Britain and Ireland in all its inventiveness and variety on the occasion of BIAPT s twenty fifth birthday It offers an account of its roots in its emergence from the Scottish Pastoral Association in the 1960s its trajectories established

in the journal *Contact Practical Theology* and how human experience has been a constant companion on the journey. The book considers a range of methodologies including engagement with popular culture, public theology, the arts, and the importance of conversation. It explores new shoots in the discipline that consider how sexuality, ethnicity, and different religious traditions may be addressed within practical theology. It concludes by asking how it may be fruitful in the future by reflecting on the challenges ahead, not least the ubiquity of ignorance. This is a landmark text in the unfolding of British and Irish practical theology in all its glorious distinctiveness, which promises to be a major contribution to international debate in the discipline. The chapters in this book were first published in *Practical Theology*.

The Routledge History of Fashion and Dress, 1800 to the Present Veronique Pouillard, Vincent Dubé-Sénécal, 2023-10-24. The time span covered by *The Routledge History of Fashion and Dress* starts in the nineteenth century with the aftermath of the consumers revolution and reaches all the way to the present. The fashion and garment industries have been international from the beginning, and as such, this volume looks at the history of fashion and dress through the lenses of both international and global history. Because fashion is also a multifaceted subject with human agency at its core, at the confluence of the material (fabrics, clothing, dyes, tools, and machines) and the immaterial (savoir faire, identities, images, and brands), this volume adopts a transdisciplinary perspective, opening its pages to researchers from a variety of complementary fields. The chapters in this volume are organized based on their relationship to five fields of study: economics and commerce, politics, business, identities, and historical sources. Paying particular attention to change, the book goes beyond the great fashion capitals and well-known fashion centers and points to the broader geographies of fashion. Particular geographical areas focus on the emergence of new fashion systems and business models, whether they be in Sweden, Bangladesh, or Spain, or on the African continent, considered to be the new frontier of the industry. Covering myriad aspects of the subject, this is the perfect companion for all those interested in the history of dress and fashion in the modern world.

International Law and History Ignacio de la Rasilla, 2021-01-21. This interdisciplinary exploration of the modern historiography of international law invites a diverse assessment of the indissoluble unity of the old and the new in the most global of all legal disciplines. The study of the history of international law does not only serve a better understanding of how international law has evolved to become what it is and what it is not. Its histories, which rethink the past in the present, also influence our perception of contemporary matters in international law and our understandings of how they may potentially unfold. This multi-perspectival enquiry into the dominant modes of international legal history and its fundamental debates may also help students of both international law and history to identify the historical approaches that best suit their international legal historical perspectives and best address their historical and legal research questions.

The Tontine: A History Andrew McDiarmid, 2024-10-04. From the last decades of the seventeenth century until the beginning of the twentieth, the tontine in one form or another was a ubiquitous financial instrument. raising instrument it provided funding for civic improvement and urban development projects While the tontine is known today mainly through fictional works Robert Louis Stevenson Agatha Christie and The Simpsons among others this book tells the history of how it evolved from a public revenue raising scheme into a popular private investment and infrastructure financing tool before it was displaced by cheaper forms of borrowing Focusing on the early development of the tontine and with European and North American case studies the narrative brings to life the story of a little understood financial innovation This concise and engaging book is an ideal introduction to the history of the tontine for all readers interested in financial history Past, Present, Future Johannes de Moor,H.R. van Rooy,2021-11-22 In the politico religious history of the Deuteronomists past present and future mingle in an often inextricable way Long obsolete traditions which had been unacceptable to the Davidic dynasty were rediscovered and adapted to the aims of the Deuteronomists Personages of the past were condemned and blackened in the light of the new ideology whereas others were glorified and embellished as heroes of faith because their ideas suited the historians This inevitably raises the question whether the Bible can be trusted as a source book for writing a history of Israel Apparently not say scholars like T L Thompson P R Davies and N P Lemche In this volume a number of authors take up this challenge stating that the radical rejection of the biblical testimony in favour of a history based mainly on archaeology is ill advised Several contributions to this volume draw instructive parallels between the process of re writing the history of South Africa and the work of the Deuteronomists *The Cambridge World History: Volume 7, Production, Destruction and Connection, 1750-Present, Part 1, Structures, Spaces, and Boundary Making* J.
