Past Renewed A Catalog Of German Speaking Refugee Historians In The United States After 1933:

A Past Renewed Catherine Epstein, 2002-06-06 Bio bibliographical entries on eighty eight German speaking refugee historians documenting their scholarly contributions historical interests and impact on the post war American historical profession

German Refugee Historians and Friedrich Meinecke Gerhard A. Ritter, 2010-05-10 The book deals with the relationship between Friedrich Meinecke who is often considered to be the leading German historian of the first half of the twentieth century and several of his students who after the Nazi seizure of power were forced to emigrate because of their Jewish descent or their political views The letters published here to Meinecke from Hans Rothfels Dietrich Gerhard Hajo Holborn Felix Gilbert Hans Rosenberg and others show these scholars deep respect for their old teacher but also their growing distance from his historical interests and methods In a period of struggle between democracy and Nazi dictatorship the letters address the problems of emigration and remigration German Jewish and German American identity and historiography in both Germany and the United States

German Migrant Historians in North America Karen Hagemann, Konrad H. Jarausch, 2024-11-01 The migration experiences career paths and scholarship of historians born in Germany who started emigrating to North America in the 1950s have had a unique impact on the transatlantic practice of Central European History German Migrant Historians in North America analyzes the experiences of this postwar group of scholars and asks what informed their education and career choices and what motivated them to emigrate to North America The contributors reflect on how these migration experiences informed their own research and teaching and particularly discuss the more general development of the transatlantic exchange between German and American historians in the scholarship on Modern Central European History

Studies in Contemporary Jewry Ezra Mendelsohn, 1997-01-30 Literary Strategies Jewish Texts and Contexts collects essays on Jewish literature which deal with the manifold ways that literary texts reveal their authors attitudes toward their own Jewish identity and toward diverse aspects of the Jewish question Essays in this volume explore the tension between Israeli and Diaspora identities and between those who write in Hebrew or Yiddish and those who write in other non Jewish languages The essays also explore the question of how Jewish writers remember history in their search for a useable past From essays on Jabotinsky s virtually unknown plays to Philip Roth s novels this book provides a strong overview of contemporary themes in Jewish literary studies

How History Was Used in the Wars of the Twentieth Century Robert J. Norrell, 2023-09-25 How History Was Used in the Wars of the Twentieth Century Perpetual War for Perpetual Peace looks at how historical thinking shaped decisions for war and peace in Germany and the United States during the twentieth century It examines the writing and public careers of the leading historians in each nation Robert J Norrell suggests it is useful to analyze where the discipline of history has succeeded and failed to understand war and the many attempts to institute lasting peace The narrative of this book testifies to the avid commitment of historians statesmen and the public to understanding the past and how these lessons and perspectives can influence the

present **German Scholars in Exile** Axel Fair-Schulz, Mario Kessler, 2011-05-26 German Scholars in Exile deals with intellectuals who fled Nazi Germany and found refuge in either the United States or in American Services in Great Britain and post WWII Germany The volume focuses on scholars who were outside the commonly known Max Horkheimer Hannah Arendt circles who are less well known but not less important Their experiences ranged from an outstanding career at an Ivy League university to a return to the German Democratic Republic and a position as an economic advisor to East Berlin's party leadership None had actual political power but many asserted some degree of influence Their intellectual legacies can still be seen in today's political culture *History After Hitler* Philipp Stelzel, 2019 A comprehensive account of how German and American historians after World War II tackled the question of the roots of National Socialism History After Hitler traces the development of a transatlantic scholarly community as a key part of the intellectual history of the Federal Republic and of Cold War German American relations **Encyclopedia of Historians and Historical Writing** Kelly Boyd, 2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the Encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies **The Second Generation** Andreas W. Daum, Hartmut Lehmann, James J. Sheehan, 2015-12-01 Of the thousands of children and young adults who fled Nazi Germany in the years before the Second World War a remarkable number went on to become trained historians in their adopted homelands By placing autobiographical testimonies alongside historical analysis and professional reflections this richly varied collection comprises the first sustained effort to illuminate the role these men and women played in modern historiography Focusing particularly on those who settled in North America Great Britain and Israel it culminates in a comprehensive meticulously researched biobibliographic guide that provides a systematic overview of the lives and works of this second generation **Censorship of Historical Thought** Antoon De Baets, 2001-12-30 History is an important dangerous and fragile subject Historical thought can be censored in widely diverging political and historiographical contexts as historians are well aware Yet the problems of censorship often thought to be obvious are rarely studied Filling a significant void this guide supplies information on the censorship of historical thought and the fate of persecuted historians in over 130 countries from Afghanistan to Zimbabwe and from 1945 to 2000 With each entry providing a chronological overview of cases and giving a full listing of sources the book is the first systematic effort to overview the repression of historical thought Aiming to encompass all countries in which censorship and persecution have taken place De

Baets sketches a world map of repression that goes beyond the well known and well studied cases. It assembles scattered data from three types of sources: the works of censors and censored historical and biographical dictionaries and historiographical surveys and reports from international human rights organizations. Showing the universality of historical censorship and its infinite variety in amount and degree, the book also provides a basis for further comparative research.

Storia della storiografia, 1998 **Germans against Germans** Moshe Zimmermann, 2022-12-06 Among the many narratives about the atrocities committed against Jews in the Holocaust, the story about the Jews who lived in the eye of the storm, the German Jews, has received little attention. *Germans against Germans: The Fate of the Jews 1938-1945* tells this story: how Germans declared war against other Germans, that is, against German Jews. Author Moshe Zimmermann explores questions of what made such a war possible. How could such a radical process of exclusion take place in a highly civilized modern society? What were the societal mechanisms that paved the way for legal discrimination, isolation, deportation, and eventual extermination of the individuals who were previously part and parcel of German society? *Germans against Germans* demonstrates how the combination of antisemitism, racism, bureaucracy, cynicism, and imposed collaboration culminated in the final solution.

In and Out of the Ghetto R. Po-Chia Hsia, Hartmut Lehmann, 2002-04-30 During the 1920s, much attention was paid to the history of Jews in Germany since the Enlightenment, and the subject became popular again with renewed emphasis after 1945. Many historians were deeply committed to understanding and explaining the tragic path that led from the emancipation of the Jews to the Holocaust. For a long time, much less work was done on the history of Jews in Germany in earlier periods, particularly the period between the late Middle Ages and the Enlightenment. This book is the first comprehensive account of Jewish-Gentile relations in central Europe from the fifteenth to the eighteenth century. It lays particular emphasis on cultural, economic, social, and political issues and incorporates much new research.

and Dante J P Genet Kantorowicz and *The King s Two Bodies* **The Myth of the Medieval Jewish Moneylender** Julie L. Mell, 2017-10-14 This book challenges a common historical narrative which portrays medieval Jews as moneylenders who filled an essential economic role in Europe It traces how and why this narrative was constructed as a philosemitic narrative in the nineteenth and twentieth centuries in response to the rise of political antisemitism This book also documents why it is a myth for medieval Europe and illuminates how changes in Jewish history change our understanding of European history Each chapter offers a novel interpretation of central topics such as the usury debate commercial contracts and moral literature on money and value to demonstrate how the revision of Jewish history leads to new insights in European history

Nationalism Paul Lawrence, 2016-09-17 Massive changes have taken place in the way nations and nationalism are thought about From being viewed enthusiastically by historians as a force for beneficial change before the First World War today appeals to national sentiment are viewed as far more complex and problematic This book looks at how historians and others such as sociologists and political theorists have explained the development and enduring importance of national identities from c 1850 to the present day It compares and contrasts a wide range of different theories and will be useful for anyone wanting to equip themselves with a theoretical understanding of why we live in nations and why we invest them with such significance

Fleeing Nazi Germany Allan Mitchell, 2011 Thousands of European intellectuals fled from fascism to America in the days leading up to World War II They had tremendous obstacles but many of them found success and made meaningful contributions Historian Allan Mitchell knew five notable scholars of history who escaped and he recounts in vivid detail their early careers and their successes as historians of Europe He provides biographies of the following Felix Gilbert who taught at Bryn Mawr College and Princeton s Institute for Advanced Study at Princeton Klemens von Klemperer who studied at Harvard University served in the US Army during World War II and joined the faculty at Smith College Werner Tom Angress who battled an identity crisis before journeying to America and earned a purple heart and bronze star during World War II later going on to teach at the State University of New York in Stony Brook Peter Gay who taught at Columbia and Yale universities and became a prolific author writing dozens of books Fritz Stern who also taught at Columbia University and became a renowned author Discover the contributions these five men made as historians and the personal obstacles they overcame to find a better life in the United States in *Fleeing Nazi Germany* *Modern Judaism and Historical Consciousness* Andreas Gotzmann, Christian Wiese, 2007 Written by leading authors in their respective fields this first comprehensive handbook on the relationship between modern Judaism and historical thinking contributes to a differentiated interpretation of Jewish historiography and its interaction with other academic disciplines since the Enlightenment

Dynamics of Emigration Stefan Berger, Philipp Müller, 2022-08-12 As a pioneering volume to consider the impact of exile on historical scholarship in the twentieth century in a systematic and global way looking at Europe North America South America and Asia *Dynamics of Emigration* asks about epistemic repercussions on the experience of exile and exiles

Analyzing both the impact that exile scholars had on their host societies and on the societies they had to leave the volume investigates exiles pathways to integration into new host societies and the many difficulties they face establishing themselves in new surroundings Focusing on the age of extremes and the realms of exile from fascist and right wing dictatorships as well as communist regimes the contributions look at the reasons scholars have for going into exile while providing side by side examination of the support organizations and paths for success involved with living in exile *A Global Encyclopedia of Historical Writing, Volume 2* D.R. Woolf, 2022-09-30 First published in 1998 Including a wide range of information and recommended for academic libraries this encyclopedia covers historiography and historians from around the world and will be a useful reference to students researchers scholars librarians and the general public who are interested in the writing of history Volume II covers entries from K to Z
