einen wesentlichen aber immer noch unterrepräsentierten Gegenstand interdisziplinären Forschens. Die Fragen nach sich verändernden Freundschaftssemantiken, historischen und interkulturellen bzw. politischen Praktiken von Freundschaft, Patronage und Loyalität standen im Mittelpunkt einer internationalen Tagung, die eine kritische Diskussion und Neubewertung von Werten und Normen, die z. B. Freundschaft in verschiedenen Kulturen und historischen Epochen konstituieren sowie der sozialen Umstände, die diese Nahbeziehungen bedingen, vorgenommen hat. Aspekte wie Konstitution und Repräsentation von Körper und Gender und das Entstehen von Vertrauen und Betrug waren dabei ebenso von Interesse wie die kulturell und historisch unterschiedliche Praxis und Semantik von Freundschaft und Patronage sowie deren jeweilige Wahrnehmung in Abhängigkeit von ihrer gesellschaftlichen Situation in verschiedenen sozialen und historischen Kontexten. Die Ergebnisse dieser Tagung werden nun im vorliegenden Band präsentiert.

**Lands of the Future** Echi Christina Gabbert, Fana Gebresenbet, John G. Galaty, Günther Schlee, 2021-01-15 Rangeland forests and riverine landscapes of pastoral communities in Eastern Africa are increasingly under threat. Abetted by states who think that outsiders can better use the lands than the people who have lived there for centuries, outside commercial interests have displaced indigenous dwellers from pastoral territories. This volume presents case studies from Eastern Africa based on long-term field research that vividly illustrate the struggles and strategies of those who face dispossession and also discredit ideological false modernist tropes like backwardness and primitiveness.

**Fossils in the Making** Anna K. Behrensmeyer, Andrew P. Hill, 1988-02-15 One of the first interdisciplinary discussions of taphonomy, the study of how fossil assemblages are formed and paleoecology, the reconstruction of ancient ecosystems, this volume helped establish these relatively new disciplines. It was originally published as part of the influential Prehistoric Archeology and Ecology series. Taphonomy is plainly here to stay, and this book makes a first-class introduction to its range and appeal.

**Rhetoric and Social Relations** Jon Abbink, Shauna LaTosky, 2021-02-02 This volume explores the constitutive role of rhetoric in socio-cultural relations where discursive persuasion is so important and contains both theoretical chapters as well as fascinating examples of the ambiguities and effects of rhetoric used unconsciously in social praxis. The elements of power, competition and political persuasion figure prominently. It is an accessible collection of studies speaking to common issues and problems in social life and shows the heuristic and often explanatory value of the rhetorical perspective.

**Roots of the Earth** Paul Sillitoe, 1983

**Takahashi: Development and Subsistence in Globalis**, 2023-06-27 In Africa, people striving to live and survive under the complex relationship between development and subsistence have been directly or indirectly feeling influences of globalisation. As Africa's involvement in globalisation deepens, social phenomena are apparently synchronizing or becoming more similar to those in the rest of the world, but they are not homogenised with them, especially those of developed countries, now or in the past. The dichotomic view distinguishing development and subsistence has already become outdated. Day after day, African people are trying to reconcile or bridge the two as capable actors. People in Africa faced with challenges common

throughout the world live in their own ways Africa can contribute to the world by sharing knowledge acquired through the struggles of development and subsistence and by bridging the two

*Mobility and Territoriality* Michael Casimir, Aparnu Rao, 2021-01-07 Territorial behaviour among various herders and hunter gatherers has been discussed in earlier studies but this is the first time that a comparison of these three types of mobile populations has been attempted The original papers presented in this volume discuss the conditions and problems of securing access to resources among pastoralists peripatetics and hunting gathering and fishing communities in Africa Asia Europe and the Middle East A comprehensive introductory chapter places these empirical studies in a broader theoretical context of the behavioural sciences

A pioneering approach to social theory that rectifies overreliance on Western historical experience of development and modernization In this pioneering volume leading international scholars argue for the development of a new approach to social theory that draws on regional studies for the conduct of comparative analysis in the global age Social Theory and Regional Studies in the Global Age moves beyond facile generalizations based on the historical experience of modernization in the West by highlighting differences rather than similarities and contrasts rather than commonalities and by examining civilizational processes and culturally specific developmental patterns distinctive of different world regions Essays combine comparative and historical sociology with civilizational analysis and the study of multiple and alternative modernities Different patterns of modernization are compared within the framework of global local compressed communication and interaction that results from globalization The introductory chapter puts the present effort in the context of the seminal work of three generations of comparative sociologists and what follows is a penetrating analysis of modernization and globality opening the way for rectifying the erasure of the historical experience of a very sizeable portion of humankind from the foundation of social theory
