Pastoral Tuareg:

The Pastoral Tuareg Johannes Nicolaisen,1997 *The Pastoral Tuareg* Johannes Nicolaisen, Ida Nicolaisen,1997
Popularly known as the blue people the Tuareg have for centuries lived in the heart of the Sahara unwilling to accept the political authority of others This two volume set offers a unique glimpse of Tuareg culture and society from the intricacies of their pastoral way of life to the complexity of their political economic and social systems 515 illus 210 in color *Ecology and Culture of the Pastoral Tuareg* Johannes Nicolaisen,1963 **Trade in the Ancient Sahara and Beyond** D. J. Mattingly,V. Leitch,C. N. Duckworth,A. Cuénod,M. Sterry,F. Cole,2017-11-30 Saharan trade has been much debated in modern times but the main focus of interest remains the medieval and early modern periods for which more abundant written sources survive The pre Islamic origins of Trans Saharan trade have been hotly contested over the years mainly due to a lack of evidence Many of the key commodities of trade are largely invisible archaeologically being either of high value like gold and ivory or organic like slaves and textiles or consumable commodities like salt However new research on the Libyan people known as the Garamantes and on their trading partners in the Sudan and Mediterranean Africa requires us to revise our views substantially In this volume experts re assess the evidence for a range of goods including beads textiles metalwork and glass and use it to paint a much more dynamic picture demonstrating that the pre Islamic Sahara was a more connected region than previously thought [The Concise Garland Encyclopedia of World Music](#) Garland Encyclopedia of World Music,2013-01-11 The Concise Garland Encyclopedia of World Music comprises two volumes and can only be purchased as the two volume set To purchase the set please go to <http://www.routledge.com/9780415972932> *Politics, Property and Production in the West African Sahel* Tor Arve Benjaminsen,Christian Lund,2001 Through a number of case studies from the West African Sahel this book links and explores natural resources management from the perspectives of politics property and production *Evil in Africa* William C. Olsen,Walter E. A. van Beek,2015-08-30 William C Olsen Walter E A van Beek and the contributors to this volume seek to understand how Africans have confronted evil around them Grouped around notions of evil as a cognitive or experiential problem evil as malevolent process and evil as an inversion of justice these essays investigate what can be accepted and what must be condemned in order to evaluate being and morality in African cultural and social contexts These studies of evil entanglements take local and national histories and identities into account including state politics and civil war religious practices Islam gender and modernity *The Concise Garland Encyclopedia of World Music: Africa ; South America, Mexico, Central America, and the Caribbean ; The United States and Canada ; Europe ; Oceania* Ellen Koskoff,2008 The critical importance of past for the present of music histories in local and global forms asserts itself The history of world music as each chapter makes clear is one of critical moments and paradigm shifts **The Garland Handbook of African Music** Ruth M. Stone,2010-04-02 The Garland Handbook of African Music is comprised of essays from The Garland Encyclopedia of World Music Volume 1 Africa 1997 Revised and updated the essays

offer detailed regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area Part One provides an in depth introduction to Africa Part Two focuses on issues and processes such as notation and oral tradition dance in communal life and intellectual property Part Three focuses on the different regions countries and cultures of Africa with selected regional case studies The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa issues that might not occur in the study of other musics of the world An accompanying audio compact disc offers musical examples of some of the music of Africa *Reconfiguring Slavery* Benedetta Rossi, 2016-02-26 A fascinating collection that advances a renewed conceptual framework for understanding slavery in West Africa today instead of retracing the end of West African slavery this work highlights the preliminary contours of its recent reconfigurations

Terrorism and Counter-Terrorism in Africa H. Solomon, 2015-05-12 Traditional counter terrorism approaches with their emphasis on the military are failing This is seen in the fact that there is an average of three terrorist attacks per day in Africa This study calls for more holistic solutions with an emphasis on development and better governance to curb the scourge of terrorism **Human Ecology** Daniel G. Bates, Judith Tucker, 2010-03-29 This book arose from the need to develop accessible research based case study material which addresses contemporary issues and problems in the rapidly evolving field of human ecology Academic political and indeed public interest in the environmental sciences is on the rise This is no doubt spurred by media coverage of climate change and global warming and attendant natural disasters such as unusual drought and flood conditions toxic dust storms pollution of air and water and the like But there is also a growing intellectual awareness of the social causes of anthropogenic environmental impacts political vectors in determining conservation outcomes and the role of local representations of ecological knowledge in resource management and sustainable yield production This is reflected in the rapid increase of ecology courses being taught at leading universities in the fast growing developing countries much as was the case a decade or two ago in Europe and North America The research presented here is all taken from recent issues of *Human Ecology An Interdisciplinary Journal* Since the journal itself is a leading forum for contemporary research the articles we have selected represent a cross section of work which brings the perspectives of human ecology to bear on current problems being faced around the world The chapters are organized in such a way to facilitate the use of this volume either to teach a course or to introduce an informed reader to the field *The Politics of Reproductive Ritual* Jeffery M. Paige, Karen Ericksen Paige, 2023-04-28 A welcome addition They argue that rituals of reproduction in preindustrial societies are essentially political In these societies they say men need to control the reproductive power of women in order to establish political power where there is no law or central government ritual is used as a way of gaining control The type of ritual will vary they conclude according to the economic base of the society for those who are interested

in the subject this book is indispensable Its thesis is challenging and the documentation is excellent Paige and Paige have made an essential contribution to a long debate and their theory is sure to stir new and lively controversy Science Digest This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1981 Historical Dictionary of Niger Abdourahmane Idrissa, Rahmane Idrissa, Samuel

Decalo, 2012-06 Sitting on the cusp between Mediterranean and sub Saharan Africa Niger is in many ways a remarkable place blending in the harsh Sahelian environment a great diversity of cultures and lifestyles to make up a poor but resilient nation The country was established in the early 20th century in what used to be the busy crossroad of exchanges between the kingdoms and empires of West Africa and the Arab Islamic world The resulting melting pot is a blend of Western Sudanic cultures manifest in particular in its food music and dance as well as in the enduring rituals and practices of animist religions along with a good deal of Arab culture imported through the Islamic religion and a dash of French culture The fourth edition of the Historical Dictionary of Niger covers the history of the peoples of the Republic of Niger from medieval times to the present This is done through a chronology an introductory essay and an extensive bibliography The dictionary section has over 700 cross referenced entries covering elements of pre colonial and colonial history recent politics cinema literature religion economics and finance This book is an excellent access point for students researchers and anyone wanting to know more about Niger **Sustainable Development and Human Security in Africa** Louis A. Picard, Terry F. Buss, Taylor B. Seybolt, Macrina C. Lelei, 2015-04-22 Many new development initiatives have been introduced in Africa over the past few decades Each of these has been heralded as marking a new era in the continent's development However many of these initiatives have failed to produce sustained results due to numerous challenges including most importantly the lack of good governance The Africa P **Historical Dictionary of the Berbers (Imazighen)** Hsain Ilahiane, 2017-03-27 Berbers also known as Imazighen are the ancient inhabitants of North Africa but rarely have they formed an actual kingdom or separate nation state Ranging anywhere between 15 50 million depending on how they are classified the Berbers have influenced the culture and religion of Roman North Africa and played key roles in the spread of Islam and its culture in North Africa Spain and Sub Saharan Africa Taken together these dynamics have over time converted to redefine the field of Berber identity and its socio political representations and symbols making it an even more important issue in the 21st century This second edition of Historical Dictionary of the Berbers contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 200 cross referenced entries on important personalities places events institutions and aspects of culture society economy and politics This book is an excellent resource for students researchers and anyone wanting to know more about the Berbers Traditional Storytelling Today Margaret Read

MacDonald, 2013-12-16 *Traditional Storytelling Today* explores the diversity of contemporary storytelling traditions and provides a forum for in depth discussion of interesting facets of contemporary storytelling Never before has such a wealth of information about storytelling traditions been gathered together Storytelling is alive and well throughout the world as the approximately 100 articles by more than 90 authors make clear Most of the essays average 2 000 words and discuss a typical storytelling event give a brief sample text and provide theory from the folklorist A comprehensive index is provided Bibliographies afford the reader easy access to additional resources

Secessionism in African Politics Lotje de Vries, Pierre Englebert, Mareike Schomerus, 2018-08-20 Secessionism perseveres as a complex political phenomenon in Africa yet often a more in depth analysis is overshadowed by the aspirational simplicity of pursuing a new state Using historical and contemporary approaches this edited volume offers the most exhaustive collection of empirical studies of African secessionism to date The respected expert contributors put salient and lesser known cases into comparative perspective covering Biafra Katanga Eritrea and South Sudan alongside Barotseland Cabinda and the Comoros among others Suggesting that African secessionism can be understood through the categories of aspiration grievance performance and disenchantment the book s analytical framework promises to be a building block for future studies of the topic

From Slavery to Aid Benedetta Rossi, 2015-08-25 This book explores transformations in the relationship between ecology politics and labour in the Nigerien Sahel over two centuries

Current Developments in Anthropological Genetics Michael H. Crawford, James H. Mielke, 2012-12-06 This volume examines the interrelationship of ecology subsistence patterns and the observed genetic variation in human populations Hence the book is divided conceptually into the following categories nonhuman primates hunters and gatherers nomads swidden agriculturalists peasants farmers religious isolates and modern and urban aggregates While many of these populations have experienced and are experiencing acculturation as a result of contact with technologically more advanced groups the genetic structures described in this volume attempt to reconstruct the traditional patterns as well as genetic changes because of contact Most chapters also integrate biological genetic social and demographic data within an ecological frame thus presenting a holistic view of the population structures of ecologically distinct groups The first chapter examines the body of early nonhuman primate literature that emphasized ecological determinism in effecting the population structure of our primate ancestors relatives It also examines more recent literature since 1970 in which it became apparent that greater flexibility exists in primate social structure within specific environmental frameworks Thus it appears that our nonhuman primate evolutionary heritage is not one of ecological determinism in social organization but one of flexibility and rapid change suggesting the evolutionary success of our species is based upon a system of flexibility and that social adaptations can be accomplished in a number of diverse ways
