Association,1980 *Federal Register* ,1979-06-18 Doctors and Their Patients Edward Shorter,2017-07-12 With every passing year the mutual mistrust between doctor and patient widens as doctors retreat into resentment and patients become increasingly disillusioned with the quality of care Rich in anecdote as well as science Doctors and Their Patients describes how both have arrived at this sad shape **The Galveston Era** Earl Wesley Fornell,2011-05-18 The Queen City of Texas they called her or the Octopus of the Gulf Galveston from 1845 to 1860 was the center of culture in Texas or the monster with an economic strangle hold on all Texas trade It was a gracious city with wide paved streets impressive buildings and neat gardens yet it was also a pestilence ridden place where no sanitary code was ever enforced and where one in every two children died before reaching maturity Its citizens avid for culture and knowledge attended concerts and plays in great numbers and exhibited an eager interest in science and history yet they could not be brought to support the school system Galveston was a city where no person in need was ever left uncared for where the sick and needy strangers or friends were succored yet no free Negro was safe from legalized abduction and forced enslavement and the city served as a center for

the revived African slave trade Earl Fornell makes the charming colorful cosmopolitan contradictory city of Galveston the focal point of his study of the Texas Gulf Coast on the eve of the Civil War The years 1845 1860 were crucial for this area during that period the economy became more and more dependent upon slave labor and thus the stage was set for secession Dr Fornell describes with clarity the interrelated events the decisions and the conflicts that went into the development of Galveston and the Texas Gulf Coast during these years He portrays the people and their way of life He introduces us to some of the notables who helped to shape the destiny of Texas Sam Houston the old general Lorenzo Sherwood the golden tongued propounder of radical economic doctrines Willard Richardson Hamilton Stuart Ferdinand Flake and Edward Cushing the newspapermen whose writing both reflected and guided the thought of their fellow citizens Arthur Lynn the British consul whose observing and compassionate nature brought him onto the stage of Galveston history with striking frequency and whose voluminous letters provide a rich source for historical details and William Ballinger a minor player on the stage but one whose conscience and interests mirrored those of many other thoughtful Galvestonians Always present affecting and affected by virtually every aspect of life on the Coast the slave labor problem grew ever more acute as the expanding railroad system laid more and more of the land open for development Dr Fornell shows with keen insight how it eventually forced Texans into a position where conflict with the federal government was unavoidable and the decision to secede from the Union inevitable The late Earl W Fornell a native of Wisconsin held B A and M A degrees in political science from the New School for Social Research the M A degree in political history from Columbia University and the Ph D degree in political history from Rice University He taught at Columbia Amarillo College Rice and Lamar State College of Technology

Medical Licensing and Discipline in America David A. Johnson, Humayun J. Chaudhry, 2012-08-10 Medical Licensing and Discipline in America traces the evolution of the U S medical licensing system from its historical antecedents in the 18th and 19th century to its modern structure David A Johnson and Humayun J Chaudhry provide an organizational history of the Federation of State Medical Boards within the broader context of the development of America's state based system As the national organization representing the interests of the individual state medical boards the Federation has been at the forefront of developments in licensing discipline and regulation impacting the medical profession medical education and health policy within the United States The narrative shifts between micro and macro level developments in the evolution of America's medical licensing system blending national context with state specific and Federation initiatives For example the book documents such milestones as the national shift toward greater public accountability by state medical boards as evidenced by California's inclusion of public members on its medical board New

Mexico's requirement for continuing medical education by physicians as a condition for license renewal and the Federation's policy development work advocating for both initiatives among all state medical boards. The book begins by examining the 18th and 19th century origins of the modern state based medical regulatory system including the reinstitution of licensing boards in the latter part of the 19th century and the early challenges facing boards e.g. license portability examinations, physician impostors, inter professional tensions among physicians etc. *Medical Licensing and Discipline in America* picks up the story of the Federation and its role in the major issue of licensing and discipline in the 20th century: uniformity in medical statute, evaluation of international medical graduates, nationally administered examinations for licensure etc. *Confederate Hospitals on the Move* Glenna R. Schroeder-Lein, 1996. This work tells the story of Samuel Hollingsworth Stout, an innovative Confederate doctor and medical director of the Army of Tennessee and his successful administration and establishment of more than sixty mobile military hospitals scattered throughout the western theatre. **A History of Texas and Texans** Frank White Johnson, 1916. **The Birth Of The Texas Medical Center** Frederick C. Elliott, 2004. An eyewitness account of the founding of the Texas Medical Center. **Current Book Review Citations**, 1983.
