Mutel, 2008-03 In *The Emerald Horizon* Cornelia Mutel combines lyrical writing with meticulous scientific research to portray the environmental past present and future of Iowa In doing so she ties all of Iowa's natural features into one comprehensive whole Since so much of the tallgrass state has been transformed into an agricultural landscape Mutel focuses on understanding today's natural environment by understanding yesterday's changes After summarizing the geological archaeological and ecological features that shaped Iowa's modern landscape she recreates the once wild native communities that existed prior to Euroamerican settlement Next she examines the dramatic changes that overtook native plant and animal communities as Iowa's prairies woodlands and wetlands were transformed Finally she presents realistic techniques for restoring native species and ecological processes as well as a broad variety of ways in which Iowans can reconnect with the natural world Throughout in addition to the many illustrations commissioned for this book she offers careful scientific exposition a strong sense of respect for the land and encouragement to protect the future by learning from the past The emerald prairie that gleamed and shone to the horizon's edge as botanist Thomas Macbride described it in 1895 has vanished Cornelia Mutel's passionate dedication to restoring this damaged landscape and by extension the transformed landscape of the entire Corn Belt invigorates her blend of natural history and human history Believing that citizens who are knowledgeable about native species communities and ecological processes will better care for them she gives us hope and sound suggestions for the future The Journal of Mycology, 1888 *U.S. Army Patches* Barry Jason Stein, 1997 U S Army Patches brings together in one colorful source more than eighteen hundred cloth insignia worn by U S soldiers from World War I to the present Barry Jason Stein has gathered officially approved patches from both active and inactive units as well as patches approved for local wear and many unauthorized patches all of which offer unique insights into the U S military Drawing on extensive research of government documents Stein offers a brief profile of each army unit and a commentary on the significance of its heraldic terms He includes anecdotal information that makes the volume as entertaining as it is resourceful In his inventory of the patches Stein lists items of special interest including the period and the battle campaigns in which they were worn and the meaning of their motifs In addition Stein provides an index of all previous designations by which the units have been known Dust jacket **Shoulder Patch of the 13th Airborne Division**, 1989 **Senate documents**, 1881 Holstein Herd-book Holstein Breeders' Association of America, 1884 **Duroc-Jersey Swine Record**
