TRIZ - The Theory of Inventive Problem Solving Denis Cavallucci, 2017-07-25 The work presented here is generally intended for engineers educators at all levels industrialists managers researchers and political representatives Offering a snapshot of various types of research conducted within the field of TRIZ in France it represents a unique resource It has been two decades since the TRIZ theory originating in Russia spread across the world Every continent adopted it in a different manner sometimes by glorifying its potential and its perspectives the American way sometimes by viewing it with mistrust and suspicion the European way and sometimes by

adopting it as is without questioning it further the Asian way However none of these models of adoption truly succeeded Today an assessment of TRIZ practices in education industry and research is necessary TRIZ has expanded to many different scientific disciplines and has allowed young researchers to reexamine the state of research in their field To this end a call was sent out to all known francophone research laboratories producing regular research about TRIZ Eleven of them agreed to send one or more of their postdoctoral researchers to present their work during a seminar regardless of the maturity or completeness of their efforts It was followed by this book project presenting one chapter for every current thesis in order to reveal the breadth the richness and the perspectives that research about the TRIZ theory could offer our society The topics dealt with e g the development of new methods inspired by TRIZ educational practices and measuring team impact

Global Innovation Index 2011 Cornell University, INSEAD, World Intellectual Property Organization, Soumitra Dutta, 19?? The Global Innovation Index ranks the innovation performance of 125 countries and economies around the world based on 80 indicators This edition explores the impact of innovation oriented policies on economic growth and development High income and developing countries alike are seeking innovation driven growth through different strategies Some countries are successfully improving their innovation capacity while others still struggle Profiting from Innovation in China Oliver Gassmann, Angela Beckenbauer, Sascha Friesike, 2012-12-13 China is dramatically catching up and is rapidly becoming a leading technological innovator on the global scale The number of Chinese firms with global ambitions is growing fast more and more technological innovation is coming from China and the number of patents in China is also growing steadily The negative side of this development is the still insufficient protection of intellectual property in China The phenomenon of counterfeits originating from China has increased constantly over the past two decades Moreover within the past ten years the scale of intellectual property theft has risen exponentially in terms of its sophistication volume the range of goods and the countries affected This book addresses managers dealing with innovation in China and offers concrete advice on how Western firms can benefit from these innovations Among others it provides examples and checklists to help decision makers active in China

Current Challenges in Patent Information Retrieval Mihai Lupu, Katja Mayer, Noriko Kando, Anthony J. Trippe, 2017-03-24 This second edition provides a systematic introduction to the work and views of the emerging patent search research and innovation communities as well as an overview of what has been achieved and perhaps even more importantly of what remains to be achieved It revises many of the contributions of the first edition and adds a significant number of new ones The first part Introduction to Patent Searching includes two overview chapters on the peculiarities of patent searching and on contemporary search technology respectively and thus sets the scene for the subsequent parts The second part on Evaluating Patent Retrieval then begins with two chapters dedicated to patent evaluation campaigns followed by two chapters discussing complementary issues from the perspective of patent searchers and from the perspective of related domains notably legal search High Recall Search includes four completely new chapters

dealing with the issue of finding only the relevant documents in a reasonable time span The last and with six papers the largest part on Special Topics in Patent Information Retrieval covers a large spectrum of research in the patent field from classification and image processing to translation Lastly the book is completed by an outlook on open issues and future research Several of the chapters have been jointly written by intellectual property and information retrieval experts However members of both communities with a background different to that of the primary author have reviewed the chapters making the book accessible to both the patent search community and to the information retrieval research community It also not only offers the latest findings for academic researchers but is also a valuable resource for IP professionals wanting to learn about current IR approaches in the patent domain
