People Land And Time:

People, Land and Time Brian Roberts, Peter Atkins, Ian Simmons, 2014-05-12 This major new text provides an introduction to the interaction of culture and society with the landscape and environment. It offers a broad based view of this theme by drawing upon the varied traditions of landscape interpretation from the traditional cultural geography of scholars such as Carl Sauer to the new cultural geography which has emerged in the 1990s. The book comprises three major interwoven strands. First fundamental factors such as environmental change and population pressure are addressed in order to sketch the contextual variables of landscapes production. Second the evolution of the humanised landscape is discussed in terms of processes such as clearing wood the impact of agriculture the creation of urban industrial complexes and is also treated in historical periods such as the pre industrial the modern and the post modern. From this we can see the cultural and economic signatures of human societies at different times and places. Finally examples of landscape types are selected in order to illustrate the ways in which landscape both represents and participates in social change. The authors use a wide range of source material ranging from place names and pollen diagrams to literature and heritage monuments. Superbly illustrated throughout it is essential reading for first year undergraduates studying historical geography human geography cultural geography or landscape history.

People, Land, and Water Guy Bessette, 2006 In natural resource management research best practice implies the participation of community members research or development teams and other stakeholders to jointly identify research and development parameters and contribute to decision making. Ideally the research or development process itself generates a situation of empowerment in which participants transform their vision and become able to take effective action. Used increasingly widely in resource management this process is known as

Participatory Development Communication PDC This book presents conceptual and methodological issues r People, Land, and Politics Luuk de Ligt, Simon Northwood, 2008-11-30 Recent research has called into question the orthodox view that the last two centuries of the Roman Republic witnessed a decline of the free rural population Yet the implications of the alternative reconstructions of Italy s demographic history that have been proposed have never been explored systematically This volume offers a series of in depth discussions not only of the republican manpower and census figures but also of the abundant archaeological data It also explores the growth of cities especially Rome and the changing distribution of the population over the Italian landscape On the rural side it addresses the interplay between demographic economic and legal developments and the background to the Gracchan land reforms Finally it examines the political implications of demographic growth and large scale migration to the provinces The volume as a whole demonstrates that demography is the key to many aspects of Italy s economic social military and political history **People, Land, and Community** Nancy Jack Todd, 1997-01-01 Degradation of environment and community along with its economic causes has been the subject of much concern in recent years In this book some authorities in the field discuss the historical cultural social political and economic implications of this degradation and suggest citizen initiatives that may halt it *People, Land & Water*, 2006

Contemporary Catholic Approaches to the People, State, and Land of Israel Gavin D'Costa, Faydra Shapiro, H. B. Pierbattista Pizzaballa, 2022-02-18 After Vatican II the Roman Catholic Church began a process of stripping away anti Jewish sentiments within its theological culture One question that has arisen and received very scant attention regards the theological significance of the founding of the state of Israel in 1948 and the attendant nakba the plight of the Palestinian people Some American evangelical Christians have developed a theology around the state of Israel associating themselves with Zionism Some Christian groups have developed a theology around the suffering of the Palestinian people and demand resistance to Zionism This unique collection of essays from leading Catholic theologians from the United States Germany France Italy Switzerland England and the Middle East reflect on the theological status of the land of Israel These essays represent an exhaustive range of views None avoid the new Catholic theology regarding the Jewish people Some contributors see this as leading towards a positive theological affirmation of the state of Israel while distancing themselves from Christian Zionists All contributors are committed to rights of the Palestinian people Some affirm the need for strong diplomatic and political support for Israel along with equal support for Palestinians arguing that this is as far as the Church can go Others argue that the Church s emerging theology represents the guilt conscience of Europe at the cost of the Palestinian people None deny the right of Jews to live in the land Two Jewish scholars respond to the essays creating an atmosphere of genuine interfaith dialogue which serves Catholics to think further through these issues People, Land and Water in the Arab Middle East William Lancaster, Fidelity Lancaster, 2013-07-04 The result of twenty five years of research with different tribal groups in the Arabian peninsula this study focuses on ethnographic descriptions of Arab tribal societies in five regions of the

peninsula with comparative material from others Having become aware of the depth in time of Arab tribal structures the authors have developed a view of Arabic tribal discourse where tribe is seen as essentially an identity that confers access to a social structure and its processes

Secwépemc People, Land, and Laws Marianne Ignace, Ronald E. Ignace, 2017-10-31
Secwépemc People Land and Laws is a journey through the 10 000 year history of the Interior Plateau nation in British Columbia Told through the lens of past and present Indigenous storytellers this volume detail how a homeland has shaped Secwépemc existence while the Secwépemc have in turn shaped their homeland Marianne Ignace and Ronald Ignace with contributions from ethnobotanist Nancy Turner archaeologist Mike Rousseau and geographer Ken Favrholtz compellingly weave together Secwépemc narratives about ancestors deeds They demonstrate how these stories are the manifestation of Indigenous laws that serve for social and moral conduct among humans and all sentient beings on the land and for social and political relations within the nation and with outsiders Breathing new life into stories about past transformations the authors place these narratives in dialogue with written historical sources and knowledge from archaeology ethnography linguistics earth science and ethnobiology In addition to a wealth of detail about Secwépemc land stewardship the social and political order and spiritual concepts and relations embedded in the Indigenous language the book shows how between the mid 1800s and 1920s the Secwépemc people resisted devastating oppression and the theft of their land and fought to retain political autonomy while tenaciously maintaining a connection with their homeland ancestors and laws An exemplary work in collaboration Secwépemc People Land and Laws points to the ways in which Indigenous laws and traditions can guide present and future social and political process among the Secwépemc and with settler society

Aboriginal Customary Law: A Source of Common Law Title to Land Ulla Secher, 2014-12-01 Described as ground breaking in Kent McNeil's Foreword this book develops an alternative approach to conventional Aboriginal title doctrine It explains that aboriginal customary law can be a source of common law title to land in former British colonies whether they were acquired by settlement or by conquest or cession from another colonising power The doctrine of Common Law Aboriginal Customary Title provides a coherent approach to the source content proof and protection of Aboriginal land rights which overcomes problems arising from the law as currently understood and leads to more just results The doctrine's applicability in Australia Canada and South Africa is specifically demonstrated While the jurisprudential underpinnings for the doctrine are consistent with fundamental common law principles the author explains that the Australian High Court's decision in *Mabo* provides a broader basis for the doctrine a broader basis which is consistent with a re evaluation of case law from former British colonies in Africa as well as from the United States New Zealand and Canada In this context the book

proffers a reconceptualisation of the Crown's title to land in former colonies and a reassessment of conventional doctrines including the doctrine of tenure and the doctrine of continuity. With rare exceptions the existing literature does not probe as deeply or question fundamental assumptions as thoroughly as Dr Secher does in her research. She goes to the root of the conceptual problems around the legal nature of Indigenous land rights and their vulnerability to extinguishment in the former colonial empire of the Crown. This book is a formidable contribution that I expect will be influential in shifting legal thinking on Indigenous land rights in progressive new directions.
