Pope Pius XII,1956 **The Pope** Konstantin (Prinz von Bayern),1955 *Pius XII., Pope of Peace, Etc. [With Plates, Including Portraits.]*. Joseph Francis Dinneen,1939 **A Cross Too Heavy** P. O'Shea,2011-04-25 The papacy of Pius XII 1939 1958 has been a source of near constant criticism and debate since his death particularly because of his alleged silence during the Holocaust Paul O Shea examines his little studied pre papal life to demonstrate that Pius was neither an anti Semitic villain nor a lamb without stain **The Papacy in the Modern World** Frank J. Coppa,2014-06-15 In March 2013 millions of people sat glued to news channels and live Internet feeds waiting to see white smoke rise from the Sistine Chapel signaling the election of the new pope For two millennia the papacy leader of the Roman Catholic Church has played a fundamentally important role in European history and world affairs Transcending the religious realm it has influenced ideological philosophical social and political developments as well as international relations Considering the broad role of the papacy from the end of the eighteenth century to the present this original history explores the reactions and responses it has evoked and its confrontation with and accommodation of the modern world Frank J Coppa describes the triumphs controversies and failures of the popes over the past two hundred years including Pius IX who was criticized for his campaign against Italian unification and his proclamation of papal infallibility Pius XII denounced for his silence during the Holocaust and impartiality during World War II and John XXIII who was praised for his call to update the Church and for convoking the Second Vatican Council Examining a wide variety of sources some only recently made available by the Vatican archives The Papacy in the Modern World sheds new light on this institution and offers valuable insights into events previously shrouded in mystery **The Papacy in the Age of Totalitarianism, 1914-1958** John Francis Pollard,2014 The Papacy in the Age of Totalitarianism 1914 1958 examines the most momentous years in papal history Popes Benedict XV 1914 1922 Pius XI 1922 1939 and Pius XII 1939 1958 faced the challenges of two world wars and the Cold War and threats posed by totalitarian dictatorships like Italian Fascism German National Socialism and Communism in Russia and China The wars imposed enormous strains upon the unity of Catholics and the hostility of the

totalitarian regimes to Catholicism lead to the Church facing persecution and martyrdom on a scale similar to that experienced under the Roman Empire and following the French Revolution At the same time these were years of growth development and success for the papacy Benedict healed the wounds left by the modernist witch hunt of his predecessor and re established the papacy as an influence in international affairs through his peace diplomacy during the First World War Pius XI resolved the Roman Question with Italy and put papal finances on a sounder footing He also helped reconcile the Catholic Church and science by establishing the Pontifical Academy of Sciences and took the first steps to move the Church away from entrenched anti-Semitism Pius XI continued his predecessor's policy of the indigenisation of the missionary churches in preparation for decolonisation Pius XII fully embraced the media and other means of publicity and with his infallible promulgation of the Assumption in 1950 he took papal absolutism and centralism to such heights that he has been called the last real pope Ironically he also prepared the way for the Second Vatican Council

Hitler, the War, and the Pope, Revised and Expanded Ronald Rychlak, 2010-05-27 Was Pope Pius XII a Nazi Sympathizer For almost fifty years a controversy has raged about Pope Pius XII Was the Pope who had shepherded the Church through World War II a Nazi sympathizer Was he as some have dared call him Hitler's pope Did he do nothing to help the Jewish people in the grips of the Holocaust In a thoroughly researched and meticulously documented analysis of the historical record Ronald Rychlak has gotten past the anger and emotion and uncovered the truth about Pius XII Not only does he refute the accusations against the Pope but for the first time documents how the slanders against him had their roots in a Soviet Communist campaign to discredit him and by extension the Church Let those who doubt but read Rychlak follow his exquisitely organized courtroom like arguments What Professor Rychlak brings to the forum are facts not rhetoric dates not conjecture evidence not slander The world owes Ronald Rychlak a debt for bringing the truth to light Rabbi Eric A Silver In his well crafted pages the portrait that emerges is one of an extraordinary pastor facing extremely vexing circumstances of a holy man vying against an evil man of a human being trying to save the lives of other human beings of a light shining in the darkness John Cardinal O'Connor 1920-2000 Archbishop of New York from the Foreword to the first edition I have read many books on Pius XII and this is by far the most dispassionate in laying out the context relevant facts accusations and evidence pro and con The book is highly engaging because it is filled with so many little known facts The research has been prodigious Yet the presentation is as down to earth as it would have to be in a courtroom This is a wonderfully realistic book Michael Novak George Frederick Jewett Scholar in Religion Philosophy and Public Policy American Enterprise Institute

Papi in Posa Aa.Vv., 2013-09-21 T00:00:00+02:00 The exhibition entitled Papi in Posa i.e. Papal Portraiture with the highly refined and historically significant Braschi Palace home of the Museum of Rome in 2004 and now in Washington The John Paul II Center is not offered only as an excellent exposition of masterpieces from major international museums such as the Vatican Museums and prestigious private collections but stands out in particular because it is one of the most important expositions

of portrait painting ever because of both the outstanding quality and the considerable number of paintings and sculptures offered executed by Europe's leading artists from the last five centuries and the great spiritual and social significance of the personages portrayed the greatest Pontiffs who from the 16th century to the present have sat in the Chair of Saint Peter It is suggestive to observe as we scan the unique artistic itinerary offered by the curators of the exhibition how through the succession of historical periods and particularly by virtue of the esthetic verve and inner sensitivity of the artists the description of the human person was oriented with extreme plastic ductility and acuity in their perception of their subjects physiognomy to represent not only the body lines of the subject being depicted but in particular the most intimate traits of the heart the lively mobility of their thought the innermost lines of the subject's character in an intense dialogue of chiaroscuro observations from which the characterizing notes of complex personages are evinced persons who appear completely clear and evident only to those who are capable of sublimating their outward appearance into an acute observation From this prestigious gallery of portraits it emerges unmistakably how the anthropocentric path of human thought has manifestly reverberated within the bounds of the figurative arts through a progressive contextualization which sees the subject represented unbound through a metatemporal aura of rarefied abstraction and placed naturalistically in a precise and well defined spatiotemporal sphere At the same time we witness a gradual definition of the personage portrayed as the bearer of a clear personal connotation the self and the identity which seem to be invisible and thus impossible to represent no longer hortatively as an idealized and metaphoric emblem of absolute values in deference to a markedly ethical and pedagogical conception The exhibited works which rightfully range themselves among the most outstanding expressions of portraiture reveal a deep spiritual harmony evocative of beauty and unleash a lively dialogue with the onlooker based on a real and inherent economy of the act of viewing albeit freed from the exercise of a psychologism oriented toward uncontrollable wanderings The reception of the meaning of the formal systems thoughtful poses and attitudes involves to be sure the active presence of the spectator in a sort of visual dialogue with the portrait that is not considered exclusively as a fixed commemorative system but rather as an interactive structure In the perspective of the reception the observer becomes a fundamental element for the construction of the meaning of the image that from this very private perspective undergoes obvious momentous transformations Observer and image thus become integral parts of a fascinating system of visual exchange not unlike the mechanisms of verbal dialogue both members of the pair take on contemporaneously the dual role of subject object restructuring the complex relational web established in a rapport between an I and a you Beyond the temporal contingencies each portrait is recounted and seduces us through the universal language of fame this incarnates deeply the artist's attempt to describe the personality of the subjects portrayed consigning the multiform essence of their nature to one attitude or to a single expression by resorting to a refined psychological introspection in an attempt to render visually the subject's inner world It is owing to the above considerations that while I applaud the felicitous initiative of giving life to such

a culturally transcendent exhibition I would wish that all those who will have the pleasure of visiting it or at least of perusing the pages of this catalogue will be able to perceive the portraits of the individual popes not as so many freestanding elements but rather as integrated parts of a related set of men who albeit struggling with the many and varied anxieties of everyday life endeavored to serve Christ among their brothers each one with a clear perception of himself as *servo servorum Dei* the servant of God's servants Through looks attitudes and symbols committed by the artist in a well constructed iconographic code to the pictorial or sculptural page the discerning observer cannot help but grasp a veiled spiritual harmony that reflects the profound mystery of faith and propagates an echo of the ineffable beauty of God revealing how through art man pulled between the eternal and the transient strives to draw close to his Creator
