Preparing For Power Peter W. Cookson Jr, Caroline Hodges Persell, 1987-09-30 Why do private boarding schools produce such a disproportionate number of leaders in business government and the arts In the most comprehensive study of its kind to date two sociologists describe the complex ways in which elite schools prepare students for success and power and they also provide a lively behind the scenes look at prep school life and underlife

Preparing for Power Peter Cookson (W., Jr), 1985

The Best of the Best Rubén A. Gaztambide-Fernández, 2010-01-30 For two years Rub n Gaztambide Fern ndez shared the life of what he calls the Weston School an elite New England boarding school Vividly describing the pastoral landscape and graceful buildings the rich variety of classes and activities and the official and unofficial rules that define the school The Best of the Best reveals a small world of deeply ambitious intensely pressured students For Gaztambide Fern ndez Weston is daunting yet strikingly bucolic inspiring but frustratingly incurious and sometimes especially for young women a gilded cage for a gilded age

Educating Elites Adam Howard, Rubén A. Gaztambide-Fernández, 2010-10-16 The gaze of educational researchers has traditionally been turned down toward the experiences of communities deemed at risk presumably with the purpose of improving their plight Indeed theorizing about the relationship between education culture and society has typically emerged from the study of poor and marginalized groups in public schools Seldom have educational researchers considered class privilege and educational advantage in their attempts at understanding inequality and fomenting social justice This collection of groundbreaking studies breaks with this tradition by shifting the gaze of inquiry up toward the experiences of privilege in educational environments characterized by wealth and the abundance of material resources This edited volume brings together established and emerging scholars in education and the social sciences working critically to interrogate a diversity of educational environments serving the interests of influential groups both within and beyond schools The authors investigate the power relations that underlie various contexts of class privilege They shed light into the ways in which the success of a few relates to the failure of many

Youth Cultures in America Simon J. Bronner, Cindy Dell Clark, 2016-03-21 What are the components of youth cultures today This encyclopedia examines the facets of youth cultures and brings them to the forefront Although issues of youth culture are frequently cited in classrooms and public forums most encyclopedias of childhood and youth are devoted to history human development and society A limitation on the reference bookshelf is the restriction of youth to pre adolescence although issues of youth continue into young adulthood This encyclopedia addresses an academic audience of professors and students in childhood studies American studies and culture studies The authors span disciplines

of psychology sociology anthropology history and folklore The Encyclopedia of Youth Cultures in America addresses a need for historical social and cultural information on a wide array of youth groups Such a reference work serves as a corrective to the narrow public view that young people are part of an amalgamated youth group or occupy malicious gangs and satanic cults Widespread reports of bullying school violence dominance of athletics over academics and changing demographics in the United States has drawn renewed attention to the changing cultural landscape of youth in and out of school to explain social and psychological problems

New Sociologies of Elite Schooling Jane Kenway, Aaron Koh, 2019-07-09 Elite schools have an intriguing capacity to endure and adapt in the face of social cultural and political change They help both to reproduce power privilege and status and also to regularly produce them afresh The intricacies involved over time and place have attracted the abiding empirical methodological and conceptual interest of sociologists and historians recently anthropologists and geographers have also responded to their allure Collectively the focus of such studies is usually on class making and the manner in which gender and race ethnicity place and mobility overlap and are part of the mix This edited collection is framed around the notion of a new sociology of elite education but it speaks into this wider space of inquiry in which studies of such schools are becoming more interdisciplinary In so doing it brings together a new array of conceptual and theoretical tools while also deepening those that already exist The contributions examine various configurations of contemporary class making and their attendant politics These explorations are situated in the specificities of geographical locales where the complex dynamics of both national local educational priorities and global transnational forces are played out In addition to showing how these dynamics put pressure on elite schools to redefine them the book's diverse international focus shines a light on new and emerging global patterns This book was originally published as a special issue of British Journal of Sociology of Education

Revisioning Ritual Simon J. Bronner, 2011-09-30 A fascinating analysis of how the study of ritual is critical to illuminating what is Jewish about Jewishness

Prep School Cowboys Melissa Bingmann, 2015-02-01 Ranch schools in Arizona California New Mexico and Wyoming in the 1920s and 1930s portrayed that the West embodied the moral attributes believed to be lacking in urban America Advocates of character education saw the courage and self reliance of the Old West as the qualities necessary to preserve the nation through the next generation Bingmann uses ranch schools designed to counteract the problems of inherited wealth as a lens through which to examine citizenship class gender and region during this era while illustrating that these schools in transmitting such values to American youth created a network of elite private schools that gave pampered boys from the urban centers of the Atlantic Seaboard and Great Lakes region the opportunity to grow into gentlemen cowboys ready to take the reins of power in family businesses and government

Hurst, 2012-03-26 What are the meanings experiences and impact of college for working class people The author of this book addresses the two questions what is college like for working class students and what is college for the working class In The Other Three Percent the author draws

Elite Schools in Globalising Circumstances Jane Kenway,Cameron McCarthy,2017-10-02 Elite Schools in Globalizing Circumstances foregrounds the richly theoretical and empirically based work of an international cast of scholars seeking to break out of the confines of the methodological nationalism that now governs so much of contemporary scholarship on schooling Based on a 5 year extended global ethnography of elite schools in nine different countries countries defined by colonial pasts linked to England the contributors make a powerful case for the rethinking of elite schools and elite class formation theory in light of contemporary processes of globalization and transnational change Prestigious high status schools have long been seen as critical institutional vehicles directly contributing to the societal processes of elite selection and reproduction This book asserts that much has changed and that these schools can no longer rest on their past laurels and accomplishments Instead they must re cast their heritages and tradition in order to navigate the new globally competitive educational field enabling them to succeed in a world in which the globalization of educational markets the global ambitions and imaginations of school youth and the emergence of new powerful players peddling entrepreneurial models of curriculum and education have placed contemporary schooling under tremendous pressure This insightful and though provoking volume provides a well researched perspective on the nature of contemporary schooling in the globalizing era This book was originally published as a special issue of Globalisation Societies and Education
