Protecting The Dispossessed:

Protecting the Displaced Sara E. Davies, Luke Glanville, 2010-06-14 This edited collection has sought contributions from some of the foremost scholars of refugee and Internally Displaced Persons IDP studies to engage with the conceptual and practical difficulties entailed in realising how the Responsibility to Protect R2P can be fulfilled by states and the international community to protect vulnerable persons Contributors to this book were given one theme to consider based on their experience and knowledge how R2P may be aligned with the protection of the displaced Contributions explore the history and progress so far in aligning R2P with refugee and IDP protection as well as examining the conceptual and practical issues that arise when attempting to expand R2P from words into deeds **PROTECTING THE DISPOSSESSED.** FRANCIS M. DENG, 1993 Developing a Normative Framework for the Protection of Internally Displaced Persons Simon Bagshaw, 2021-10-01 The author presents a systematic review of the role of treaties in international law and seeks to demonstrate that their importance is today somewhat overstated given the extent to which States and other organizations tend to resort to more flexible means of standard setting in order to promote respect for human rights As this text demonstrates the collaboration of various governmental intergovernmental and non governmental representatives can result in an instrument which may be broader in scope and more progressive in content If reinforced by suitable implementation measures it can be even more effective than a treaty in regulating States activities Published under the Transnational Publishers imprint **Protection of Minority Rights Through Bilateral Treaties** Arie Bloed, Pieter van Dijk, 2021-10-25 Since the end of the Cold War mounting tensions related to national minorities have increased international efforts to contain and to solve these inter ethnic disputes While much has been written about the efforts of international organizations such as the United Nations the Council of Europe and the OSCE in this respect much less attention has been paid to the advances in minority issues made on a bilateral level Many former socialist states have concluded bilateral treaties to improve their relations and these treaties often include clauses relating to mutual national minorities Against this background and at the request of the High Commissioner on National Minorities the Foundation on Interethnic Relations in The Hague convened two meetings of legal experts to discuss the relevance of bilateral treaties for the settlement of inter ethnic disputes These meetings form the basis of the current publication which includes an analysis and a collection of case studies The case studies center around Poland Hungary and Russia and offer a comprehensive survey of the network of bilateral treaties and the role of minority rights within these instruments The book also contains the English translation of the main parts of the relevant bilateral agreements that are ordinarily difficult to access for scientific research This book will therefore serve as an important instrument for anyone involved in the study of inter ethnic conflict and minority rights **The International Protection of Internally Displaced Persons** Catherine Phuong, 2005-01-27 Despite the fact that there are up to 25 million internally displaced persons around the world their plight is still little known Like refugees internally displaced persons have

been forced to leave their homes because of war and human rights abuses but they have not left their country This has major consequences in terms of the protection available to them This 2005 book aims to offer a clear and easily accessible overview of this important humanitarian and human rights challenge In contrast with other books on the topic it provides an objective evaluation of UN efforts to protect the internally displaced It will be of interest to all those involved with the internally displaced as well as anyone seeking to gain an overall understanding of this complex issue

Individual Agency and Policy Change at the United Nations Ingvild Bode, 2015-03-24 This book highlights how temporary international civil servants play a crucial role in initiating processes of legal and institutional change in the United Nations system These individuals are the missing creative elements needed to fully understand the emergence and initial spread of UN ideas such as human development sovereignty as responsibility and multifunctional peacekeeping The book Shows that that temporary UN officials are an actor category which is empirically crucial yet usually neglected in analytical studies of the UN system Focussing on these particular individual actors therefore allows for a better understanding of complex UN decision making Demonstrates how these civil servants matter looking at what their agency is based on Offering a new and distinctive model Bode seeks to move towards a comprehensive conceptualisation of individual agency which is currently conspicuous for its absence in many theoretical approaches that address policy change Uses three key case studies of international civil servants Francis Deng Mahbub ul Haq and Marrack Goulding to explore the possibilities of this specific group of UN individuals to act as agents of change and thereby test the prevailing notion that international bureaucrats can only act as agents of the status quo This book will be of great interest to students and scholars of international organizations and the United Nations

Resilience in South Sudanese Women Godriver Wanga-Odhiambo, 2013-12-18 Resilience in South Sudanese Women describes the historical injustices in Southern Sudan that led to the outbreak of civil wars These injustices included socio economic and political marginalization that denied the women basic needs It gives firsthand life experiences of the Sudanese women during the protracted civil wars in their country It narrates the horrors of the gruesome journeys that they took as they fled war zone burying their kids on unmarked graves and moving on It shows how they dealt with homelessness in host countries through various coping strategies and their eventual resettlement in USA where again they experienced cultural collisions However their determination innovation and resilience always helped them to overcome the struggles

Peacekeeping in the Middle East as an International Regime Kenneth Dombroski, 2007-11-21 This book investigates whether an international institution can alter state behaviour and thereby contribute to the peaceful resolution of a conflict Kenneth Dombroski focuses on the series of interrelated peacekeeping efforts undertaken to help resolve the Arab Israeli conflict from 1948 1994 Analyzing these sequential operations over a forty six year period provides evidence as to the relative importance of institutions in a state centric international system He provides an alternative approach to the study of international peacekeeping that evaluates the long term effects of peacekeeping on state behaviour and concomitantly the effects of varying state behaviour on an international regime This book offers new perspectives on the relative importance of regimes the utility of regime analysis in explaining the importance of international institutions the significance of a peacekeeping

regime's role in influencing state behaviour and the impact of varying state behaviour on regime evolution **A Dialogue of the Deaf** Adekeye Adebajo, Helen Scanlon, 2006 As part of the ongoing effort to create a United Nations that is representative of its members this collection of essays attempts to present the African perspective clearly and persuasively This book is a valuable contribution to African efforts to engage the United Nations to achieve goals including debt relief and a more equitable world and to strengthen the understanding of this critical topic world wide **Protection of Immovables in European Legal Systems** Sonia Martin Santisteban, Peter Sparkes, 2015-09-11 Comparative analysis of vindictio possessory remedies and trespass across sixteen European jurisdictions based on twelve straightforward factual cases

The Access of Individuals to International Justice Antônio Augusto Cançado Trindade, 2011-08-25 This is a domain that has undergone a remarkable development in recent years It is submitted that the right of access to justice belongs today to the domain of jus cogens Without it there is no legal system at all The protection of the human person in the most adverse circumstances has evolved amongst considerations of ordre public Such recent evolution has been contributing to the gradual expansion of the material content of jus cogens **Asian Approaches to International Law and the Legacy of Colonialism** Kevin Tan, 2013 The chapters in this volume address international legal issues impacted by the legacy of the Asian region's historical experience with colonialism and its current standing in the international system This volume provides a perspective on these issues from Asian legal scholars who have embarked on an analysis and discussion of the various ways in which international law and the international legal process can resolve these issues in a manner that is appropriate for the region The book examines the interconnections between diverse topics such as current territorial disputes over maritime areas which includes disputes over maritime delimitation and the scope of exclusive economic zones in East and Southeast Asia both of which are aspects of some of the critical political economic and legal issues presently confronting the region These territorial and maritime disputes are partially due to the geography of the region but the editors make a convincing argument for the genesis of these disputes being rooted in the legacy of the region's colonial past a legacy which has confounded attempts at resolution of these disputes and still deeply influences international relations in the region Asian Approaches to International Law and the Legacy of Colonialism will be of particular interest to academics and students of International Law Maritime Law and Asian Studies Sovereignty as Responsibility Francis M. Deng, Sadikiel Kimaro, Terrence Lyons, 2010-12-01 The authors assert that sovereignty can no longer be seen as a protection against interference but as a charge of responsibility where the state is accountable to both domestic and external constituencies In internal conflicts in Africa sovereign states have often failed to take responsibility for their own citizens welfare and for the humanitarian consequences of conflict leaving the victims with no assistance This book shows how that responsibility can be exercised by states over their own population and by other states in assistance to their fellow sovereigns Sovereignty as Responsibility presents a framework that should guide both national governments and the

international community in discharging their respective responsibilities Broad principles are developed by examining identity as a potential source of conflict governance as a matter of managing conflict and economics as a policy field for deterring conflict Considering conflict management political stability economic development and social welfare as functions of governance the authors develop strategies guidelines and roles for its responsible exercise Some African governments such as South Africa in the 1990s and Ghana since 1980 have demonstrated impressive gains against these standards while others such as Rwanda Somalia Liberia Nigeria and Sudan have failed Opportunities for making sovereignty more responsible and improving the management of conflicts are examined at the regional and international levels The lessons from the mixed successes of regional conflict management actions such as the West African intervention in Liberia the East African mediation in Sudan and international efforts to urge talks to end the conflict in Angola indicate friends and neighbors outside the state in conflict have important roles to play in increasing sovereign responsibility Approaching conflict management from the perspective of the responsibilities of sovereign

Human Rights in the Emerging Global Order

K. Mills,1998-09-14 Mills focuses on one of the most significant parts of the sovereignty debate on human rights and humanitarian issues and raises three interrelated questions First how are empirical processes and practices undermining traditional notions of sovereignty These include actions by the United Nations and other organizations on behalf of human rights such as humanitarian intervention the movements of refugees and others across the borders and increasing calls for communal self determination Second taking into account the above question and examining these issues from a normative political theory perspective what should be the relationship between individuals groups states and the international community with respect to the twin aspects of power and authority inherent in sovereignty Third what new or modified international institutions may be needed in the future to deal with these humanitarian issues

The Forsaken People

Roberta Cohen,Francis M. Deng,2010-12-01 The coerced displacement of people within the borders of their own countries by armed conflicts internal strife and systematic violations of human rights has become a pervasive feature of the post Cold War era The plight of the displaced poses a challenge that is not only humanitarian but a threat to the security and stability of countries regions and through a chain effect the international system This book contains case studies of ten countries that have suffered severe problems of internal displacement Burundi Rwanda Liberia and the Sudan in Africa the former Yugoslavia and the Caucasus in Europe Tajikistan and Sri Lanka in Asia and Colombia and Peru in the Americas The contributors are Thomas Greene Randolph C Kent Jennifer McLean Larry Minear Liliana Obreg n Amir Pasic Hiram A Ruiz Colin Scott H L Seneviratne Maria Stavropoulou and Thomas G Weiss Additionally the contributors and editors offer recommendations for further action
