Robert Legvold

Public Politics In An Authoritarian State Making Foreign Policy During The Brezhnev Years:

Public Politics in an Authoritarian State Richard Davis Anderson, 1993 **The Sources Of Russian Foreign Policy After The Cold War** Celeste A Wallander, Anne Wildermuth, 2019-07-11 In this timely and pathbreaking volume scholars in comparative politics and international relations build upon earlier theoretical work on the interaction of domestic and international systems applying it innovatively to the study of post Soviet Russian policy and conduct Individual chapters focus on regime type leadership politics interest group politics nationalism as ideology international conflict and threat and international economic opportunities and constraints The complex interplay between domestic and international factors is highlighted Exploring both the origins and the outcomes of Russian policy and behavior this book provides a telling measure of the direction and significance of political change since 1991 Brezhnev Reconsidered E. Bacon, M. Sandle, 2002-10-11 Leonid Brezhnev was leader of the Soviet Union for almost two decades when it was at the height of its powers This book is a long overdue reappraisal of Brezhnev the man and the system over which he ruled By incorporating much of the new material available in Russian it challenges the received wisdom about the Brezhnev years and provides a fascinating insight into the life and times of one of the twentieth century s most neglected political leaders *Routledge Handbook of Russian Foreign Policy* Andrei Tsygankov, 2018-03-20 Providing a comprehensive overview of Russia s foreign policy directions this handbook brings together an international team of scholars to develop a complex treatment of Russia s foreign policy The chapters draw from numerous theoretical traditions by incorporating ideas of domestic institutions considerations of national security and international recognition as sources of the nation s foreign policy Covering critically important subjects such as Russia s military interventions in Ukraine and Syria the handbook is divided into four key parts Part I explores the social and material conditions in which Russia s foreign policy is formed and implemented Part II investigates tools and actors that participate in policy making including diplomacy military media and others Part III provides an overview of Russia s directions towards the United States Europe Asia the Middle East Eurasia and the Arctic Part IV addresses the issue of Russia s participation in global governance and multiple international organizations as well as the Kremlin s efforts to build new organizations and formats that suit Russia s objectives The Routledge Handbook of Russian Foreign Policy is an invaluable resource to students and scholars of Russian Politics and International Relations as well as World Politics more generally **The Soviet Union under Brezhnev** William J. Tompson, 2014-07-30 The Soviet Union Under Brezhnev provides an accessible post Soviet perspective on the history of the USSR from the mid 1960 s to the mid 1980 s It challenges both the evil empire image of the USSR that was widespread in the early 1980 s and the stagnation label attached to the period by Soviet reformers under Gorbachev The book makes use of a range of memoirs interviews archival documents and other sources not available before 1990 to place Brezhnev and his epoch in a broader historical context The author examines high politics foreign policy and policy making explores broader social cultural and demographic trends presents a picture of

Soviet society in the crucial decades prior to the upheavals and crises of the late 1980 s While stopping well short of a full scale rehabilitation of Brezhnev Thompson rejects the prevailing image of the Soviet leader as a colourless non entity drawing attention to Brezhnev s real political skills as well as his faults and to the systemic roots of many of the problems he faced

Russian Foreign Policy in the Twenty-first Century and the Shadow of the Past Robert Legvold,2007 Because the turbulent trajectory of Russia s foreign policy since the collapse of the Soviet Union echoes previous moments of social and political transformation history offers a special vantage point from which to judge the current course of events In this book a mix of leading historians and political scientists examines the foreign policy of contemporary Russia over four centuries of history The authors explain the impact of empire and its loss the interweaving of domestic and foreign impulses long standing approaches to national security and the effect of globalization over time Contributors focus on the underlying patterns that have marked Russian foreign policy and that persist today These patterns are driven by the country s political makeup geographical circumstances economic strivings unsettled position in the larger international setting and above all its tortured effort to resolve issues of national identity The argument here is not that the Russia of Putin and his successors must remain trapped by these historical patterns but that history allows for an assessment of how much or how little has changed in Russia s approach to the outside world and creates a foundation for identifying what must change if Russia is to evolve A truly unique collection this volume utilizes history to shed crucial light on Russia s complex occasionally inscrutable relationship with the world In so doing it raises the broader issue of the relationship of history to the study of contemporary foreign policy and how these two enterprises might be better joined

Russia's International Relations in the Twentieth Century Alastair Kocho-Williams,2013-01-04 Russia has long been a major player in the international relations arena but only by examining the whole century can Russian foreign policy be properly understood and the key questions as to the impact of war of revolution of collapse the emergence of the Cold War and Russia s post Soviet development be addressed Surveying the whole of the twentieth century in an accessible and clear manner Russia s International Relations in the Twentieth Century provides an overview and narrative with analysis that will serve as an introduction and resource for students of Russian foreign policy in the period and those who seek to understand the development of modern Russia in an international context The volume includes an analysis of the major themes which surrounded Russia s position in world affairs as one of the European Great Powers before the First World War the impact of Revolution and the emergence of Soviet foreign policy with its dual aims of normalization and world revolution the changes wrought to the international order by the rise of Nazi Germany and by the Second World War the origins and development of the Cold War the end of the Cold War and the Soviet collapse how Russia has rebuilt itself as an international power in the post Soviet era An essential resource for students of Russian history and International policy

Reconstructing the Cold War Ted Hopf,2012-04-12 General answers are hard to imagine for the many puzzling questions that are raised by Soviet relations with the world in the

early years of the Cold War Why was Moscow more frightened by the Marshall Plan than the Truman Doctrine Why would the Soviet Union abandon its closest socialist ally Yugoslavia just when the Cold War was getting under way How could Khrushchev's de-Stalinized domestic and foreign policies at first cause a warming of relations with China and then lead to the loss of its most important strategic ally What can explain Stalin's failure to ally with the leaders of the decolonizing world against imperialism and Khrushchev's enthusiastic embrace of these leaders as anti-imperialist at a time of the first detente of the Cold War It would seem that only idiosyncratic explanations could be offered for these seemingly incoherent policy outcomes Or at best they could be explained by the personalities of Stalin and Khrushchev as leaders The latter although plausible is incorrect In fact the most Stalinist of Soviet leaders the secret police chief and sociopath Lavrentii Beria was the most enthusiastic proponent of de-Stalinized foreign and domestic policies after Stalin's death in March 1953 Ted Hopf argues instead that it was Soviet identity that explains these anomalies During Stalin's rule a discourse of danger prevailed in Soviet society where any deviations from the idealized version of the New Soviet Man were understood as threatening the very survival of the Soviet project itself But the discourse of danger did not go unchallenged Even under the rule of Stalin Soviet society understood a socialist Soviet Union as a more secure diverse and socially democratic place This discourse of difference with its broader conception of what the socialist project meant and who could contribute to it was empowered after Stalin's death first by Beria then by Malenkov and then by Khrushchev and the rest of the post-Stalin Soviet leadership This discourse of difference allowed for the de-Stalinization of Eastern Europe with the consequent revolts in Poland and Hungary a rapprochement with Tito's Yugoslavia and an initial warming of relations with China But it also sowed the seeds of the split with China as the latter moved in the very Stalinist direction at home just rejected by Moscow And contrary to conventional and scholarly wisdom a moderation of authoritarianism at home a product of the discourse of difference did not lead to a moderation of Soviet foreign policy abroad Instead it led to the opening of an entirely new and bloody front in the decolonizing world In sum this book argues for paying attention to how societies understand themselves even in the most repressive of regimes Who knows their ideas about national identity might come to power sometime as was the case in Iran in 1979 and throughout the Arab world today

A Companion to Richard M. Nixon Melvin Small, 2013-05-03 This companion offers an overview of Richard M. Nixon's life presidency and legacy as well as a detailed look at the evolution and current state of Nixon scholarship Examines the central arguments and scholarly debates that surround his term in office Explores Nixon's legacy and the historical significance of his years as president Covers the full range of topics from his campaigns for Congress to his career as Vice President to his presidency and Watergate Makes extensive use of the recent paper and electronic releases from the Nixon Presidential Materials Project

Gorbachev and Yeltsin as Leaders George W. Breslauer, 2002 *Gorbachev and Yeltsin as Leaders* also compares these men with Khrushchev and Brezhnev yielding new insight into the nature of Soviet and post-Soviet politics and into the dynamics of transformational leadership more generally

The book is an important contribution to the analysis and evaluation of political leadership. It is well written and accessible to the nonspecialist. Jacket

Right here, we have countless book **Public Politics In An Authoritarian State Making Foreign Policy During The Brezhnev Years** and collections to check out. We additionally allow variant types and then type of the books to browse.
