

LOUISIANA PUBLIC SCHOOL CHOICE (ACT 853)

POLICY, PROCEDURES & PROTOCOLS

FEDERAL PUBLIC SCHOOL CHOICE The St. John the Baptist School Board is required by both Federal law and the Louisiana School Accountability Program to develop and maintain a Public-School Choice policy for any school with a School Performance Score (SPS) below levels set by the Board of Elementary and Secondary Education (BESE).

APPLICATION LINK: [SCHOOL CHOICE INTENTION SURVEY](#)

What is Louisiana School Choice?

Louisiana School Choice (R.S. 17:4035.1), also known as Act 853, provides choice options to families if the school their child was most recently enrolled in, or would otherwise attend, received a school performance letter grade of "D" or "F" for the most recent school year.

Criteria

1. A parent can request a transfer to a higher performing school (A, B, or C) for the next school year, **ONLY** if the requested school has capacity.
- Capacity is defined as the receiving school of choice **MUST** have an open seat for the student in the grade level requested based on the current teacher allocation provided by the district's Planning Department.
2. Students requesting school choice will be placed on a waiting list until home-based students register.
3. Students will be ranked by the following: The letter grade of their current school & their economically disadvantage status.
4. Louisiana School Choice transfer period will remain open until May 30, 2024. Parents will be notified by email and/or phone of their acceptance or denial between dates July 22 - 26, 2024. Parents must accept seats offered by July 29, 2024. Seats **WILL NOT** be held after July, 30, 2024.
-No transfer request will be accepted after the transfer period and parents **MUST** wait until next school year to apply.

5. Parents must complete the application online using the link along with a copy of a photo ID, current proof of residency (examples: utility bill, bank statement, etc.) and the child's birth certificate to the Student Services department.

6. Because enrollment is subject to limited availability based on capacity, it is possible that your child will not be accepted into your first choice. If this occurs, parents can request another school of choice where there is capacity.

7. According to ACT 853 Choice, school choice status is active for one school year and students **MUST** re-apply each year.

8. The Superintendent and staff shall be responsible for developing and managing a School Choice Plan, which shall determine the schools to which students may transfer, which students shall have priority in transferring, and all other regulations and procedures for supervising school choice within the school district.

NOTE: Any changes to SJBP Policy or Procedures, including zone changes could affect your child's placement. Please be aware that changes could be made.

Transportation

1. If a transfer request is approved to one of the designated schools in the student's zone, transportation will be provided.
2. If a transfer is approved to a school outside of the student's zone, the parent **MUST** provide transportation.

Edith Rasell, Richard Rothstein, 1993 *Creating Strong District School Choice Programs* U. S. Department Education, Office of Improvement, 2013-10-12 The Innovations in Education series publications identify concrete real world examples of innovations flourishing throughout this great land in six important areas public school choice supplemental educational services charter schools magnet schools alternative teacher certification and school leadership This first publication starts with what might be the most challenging aspect of No Child Left Behind but also an area of great opportunity implementation of the law s public school choice provisions For the past two years some critics have complained that these provisions are impossible to put into place Others have said that school districts will simply refuse to comply Yet this publication shows that superintendents and districts are indeed fulfilling their responsibilities and making public school choice work for their neediest students It has not been easy but the experiences of these districts can inform the work of others By taking lessons from these case studies districts can avoid starting from scratch To be sure none of these districts is doing everything 100 percent right And all of them had a head start since they had adopted some form of public school choice before the federal law was passed Surely the requirement to provide such choice while in line with America s principles and values can be difficult to implement logistically As we learn from this publication a strong public school choice program must be integrated into a district s overall strategy Communication to parents faculty and the community must be accurate consistent and energetic Transportation and scheduling challenges must be fully addressed This is no walk in the park But the message of this publication is loud and clear it can be done School Choice William H. Jeynes, 2014-04-25 Are public charter schools more effective than traditional public schools This book provides quantitative evidence to answer this question and considers a better way to undertake a policy of school choice School Choice A Balanced Approach is the most comprehensive examination of traditional public schools public charter schools and faith based schools that has ever been undertaken By considering and comparing the overall data on these three types of educational systems it provides insight on likely outcomes of school choice programs The author s objective is not to advance any particular agenda but rather to provide readers with an unbiased analysis of research that has been embraced by both the G W Bush and Obama administrations that will allow for fresh thinking and the betterment of American education as a whole Author William H Jeynes PhD asks vital questions regarding the school choice issue that are often overlooked Which specific programs of school choice are likely to work and which would likely fail Is school choice really a boon for the private sector How might the implementation of school choice programs increase or decrease the financial burden on government budget deficits This book carefully addresses a relevant topic that ultimately affects every American making it essential reading for everyone from government officials and educators

the many children who are largely deprived of choice today and they offer a variety of perspectives with some authors
enthusiastic others more skeptical The book begins with a discussion of the types and extent of school choice what is known
about its consequences and how politics has influenced its development It then focuses on three important public policy
issues how school choice can revolutionize the way schools are financed what policy interventions are necessary to increase
the supply of choice schools and how choice programs can be held accountable to parents and the state without undermining
institutional autonomy The book addresses legal issues including whether public and private choice schools will be required
to observe student and teacher rights generally recognized in traditional public schools how the religion and speech clauses
of the First Amendment may affect the participation of religious schools in school choice programs whether school choice will
enhance or aggravate opportunities for racial justice what the implications of school choice are for teacher unions and
