Public Works Student Writing As Public Text:

Public Works Emily J. Isaacs, Phoebe Jackson, 2001 The contributors explore the range of what constitutes public writing and then theorize and reflect on the issues that such practices raise Upsetting Composition Commonplaces Ian Barnard, 2014-07-15 In *Upsetting Composition Commonplaces* Ian Barnard argues that composition still retains the bulk of instructional practices that were used in the decades before poststructuralist theory discredited them While acknowledging that some of the foundational insights of poststructuralist theory can be difficult to translate to the classroom Barnard upends several especially intransigent tenets that continue to influence the teaching of writing and how students are encouraged to understand writing Using six major principles of writing classrooms and textbooks clarity intent voice ethnography audience and objectivity Barnard looks at the implications of poststructuralist theory for pedagogy While suggesting some evocative poststructuralist pedagogical practices the author focuses on diagnosing the fault lines of composition's refusal of poststructuralism rather than on providing solutions in the form of teaching templates *Upsetting Composition Commonplaces* addresses the need to more effectively engage in poststructuralist concepts in composition in an accessible and engaging voice that will advance the conversation about relations between the theory and teaching of writing

Crip Theory Robert McRuer, Michael Bérubé, 2023-11-21 A bold and contemporary discourse of the intersection of disability studies and queer studies *Crip Theory* attends to the contemporary cultures of disability and queerness that are coming out all over Both disability studies and queer theory are centrally concerned with how bodies pleasures and identities are represented as normal or as abject but *Crip Theory* is the first book to analyze thoroughly the ways in which these interdisciplinary fields inform each other Drawing on feminist theory African American and Latino cultural theories composition studies film and television studies and theories of globalization and counter globalization Robert McRuer articulates the central concerns of crip theory and considers how such a critical perspective might impact cultural and historical inquiry in the humanities *Crip Theory* puts forward readings of the Sharon Kowalski story the performance art of Bob Flanagan and the journals of Gary Fisher as well as critiques of the domesticated queerness and disability marketed by the Millennium March or Bravo TV's *Queer Eye for the Straight Guy* McRuer examines how dominant and marginal bodily and sexual identities are composed and considers the vibrant ways that disability and queerness unsettle and re write those identities in order to insist that another world is possible The WPA Outcomes Statement—A Decade Later Nicholas N. Behm, Gregory R. Glau, 2014-09-12 *The WPA Outcomes Statement A Decade Later* examines the ways that the Council of Writing Program Administrators Outcomes Statement for First Year Composition has informed curricula generated programmatic institutional and disciplinary change and affected a disciplinary understanding of best practices in first year composition *WPA, Writing Program Administration*, 2001 **Geniuses, Addicts, and Scribbling Women** Cynthia Cravens, 2023-01-15 Through a critical discussion of an array of written and visual texts that feature a writer as a main

character Geniuses Addicts and Scribbling Women Portraits of the Writer in Popular Culture argues for a more nuanced conception of the role of writers in society their relationships with their reading publics the portrayals and realities of their labor and the construction of a writing identity Expounding upon the critical genre of authorship studies the contributors take on complex issues such as economics professionalization gender politics and writing pedagogy to shape the dialogue around the nature of representation and the practice of narrative Ultimately contributors consider the ways in which debates over art craft authorial celebrity and the literary marketplace define the parameters of culture in a given period and influence the work of culture producers The implications of such an analysis reveal much about the status and value of creative writers and their work This collection covers a wide range of historical periods offering a complex understanding of representations of writers from the medieval period to the Netflix era Such an evolution challenges the perception of the writer as a monolithic presence in society and highlights its multiplicity diversity and its transformations through cultural and political movements

The Promise and Perils of Writing Program Administration Theresa Enos, Shane Borrowman, 2008-01-26 Combining formal quantitative research with narrative based scholarship THE PROMISE AND PERILS OF WRITING PROGRAM ADMINISTRATION represents multiple voices from faculty balancing between the demands of teaching writing and administering writing programs in professional ethical ways often under circumstances that can be defined at best as difficult In these pages junior faculty tell their stories of triumph and trauma while more firmly established composition scholars reflect upon the changing and challenging profession we all share

After the Public Turn Frank Farmer, 2013-04-15 In After the Public Turn author Frank Farmer argues that counterpublics and the people who make counterpublics citizen bricoleurs deserve a more prominent role in our scholarship and in our classrooms Encouraging students to understand and consider resistant or oppositional discourse is a viable route toward mature participation as citizens in a democracy Farmer examines two very different kinds of publics cultural and disciplinary and discusses two counterpublics within those broad categories zine discourses and certain academic discourses By juxtaposing these two significantly different kinds of publics Farmer suggests that each discursive world can be seen in its own distinct way as a counterpublic an oppositional social formation that has a stake in widening or altering public life as we know it Drawing on major figures in rhetoric and cultural theory Farmer builds his argument about composition teaching and its relation to the public sphere leading to a more sophisticated understanding of public life and a deeper sense of what democratic citizenship means for our time

Writing at the State U Emily Isaacs, 2018-02-21 Writing at the State U presents a comprehensive empirical examination of writing programs at 106 universities Rather than using open survey calls and self reporting Emily Isaacs uses statistical analysis to show the extent to which established principles of writing instruction and administration have been implemented at state comprehensive universities the ways in which writing at those institutions has differed from writing at other institutions over time and how state institutions have responded to major scholarly debates concerning first

year composition and writing program administration Isaacs's findings are surprising state university writing programs give lip service to important principles of writing research but many still emphasize grammar instruction and a skills based approach classes continue to be outsized faculty development is optional and orientation toward basic writing is generally remedial As such she considers where a closer match between writing research and writing instruction might help to expose and remedy these difficulties and identifies strategies and areas where faculty or writing program administrators are empowered to enact change Unique in its wide scope and methodology Writing at the State U sheds much needed light on the true state of the writing discipline at state universities and demonstrates the advantages of more frequent and rigorous quantitative studies of the field Radical Writing Center Praxis Laura Greenfield, 2019-04-15 In Radical Writing Center Praxis Laura Greenfield calls for a paradigm change in writing centers imagining a field whose very reason for being is to facilitate justice and peace The book calls on readers to more critically examine power and agency in writing centers and to imagine new possibilities for the field's theories and practices Large intersecting systems of oppression manifest in the everyday practices of institutions classrooms and writing centers Local practices in turn influence the surrounding world Radical Writing Center Praxis therefore challenges the writing center field to resist assumptions of political neutrality and instead to redefine itself in terms of more explicit ethical commitments In this paradigm it is clear that to engage in anti oppression work is not merely a special interest but rather a vital interest to all Introducing the concepts and vocabulary of radical politics Radical Writing Center Praxis examines the tensions between the field's professed beliefs and everyday practices and offers a process by which the writing center discipline as a whole might rebuild itself anew It will be invaluable to writing center directors tutors scholars and students as well as to administrators and compositionists
