The "Greek Crisis" in Europe Yiannis Mylonas, 2019-07-22 The Greek Crisis in Europe Race Class and Politics critically analyses the publicity of the Greek debt crisis by studying Greek Danish and German mainstream media during the crisis early years 2009 2015 Mass media everywhere reproduced a sensualistic Greek crisis spectacle while iterating neoliberal and occidentalist ideological myths Overall the Greek people were deemed guilty of a systemic crisis supposedly enjoying lavish lifestyles on the EU's expense Using concrete examples the study foregrounds neoorientalist neoracist and classist stereotypes deployed in the construction and media coverage of the Greek crisis These media practices are connected to the soft politics of the crisis which produce public consensus over neoliberal reforms such as austerity and privatizations and secure debt repayment from democratic interventions Media and Cultural Studies Meenakshi Gigi Durham, Douglas M. Kellner, 2009-02-09 Bringing together a range of core texts into one volume this acclaimed anthology offers the definitive resource in culture media and communication A fully revised new edition of the bestselling anthology in this dynamic and multidisciplinary field New contributions include essays from Althusser through to Henry Jenkins and a completely new section on Globalization and Social Movements Retains important emphasis on the giant thinkers and makers of the field Gramsci on hegemony Althusser on ideology Horkheimer and Adorno on the culture industry Raymond Williams on Marxist cultural theory Habermas on the public sphere McLuhan on media Chomsky on propaganda hooks and Mulvey on the subjects of visual pleasure and oppositional gazes Features a substantial critical introduction short section introductions and full bibliographic citations **Blog Theory** Jodi Dean, 2013-04-17 Blog Theory offers a critical theory of contemporary media Furthering her account of communicative capitalism Jodi Dean explores the ways new media practices like blogging and texting capture their users in intensive networks of enjoyment production and surveillance Her wide ranging and theoretically rich analysis extends from her personal experiences as a blogger through media histories to newly emerging social network platforms and applications Set against the background of the economic crisis wrought by neoliberalism the

book engages with recent work in contemporary media theory as well as with thinkers such as Giorgio Agamben Jean Baudrillard Guy Debord Jacques Lacan and Slavoj Žižek Through these engagements Dean defends the provocative thesis that reflexivity in complex networks is best understood via the psychoanalytic notion of the drives She contends moreover that reading networks in terms of the drives enables us to grasp their real human dimension that is the feelings and affects that embed us in the system In remarkably clear and lucid prose Dean links seemingly trivial and transitory updates from the new mass culture of the internet to more fundamental changes in subjectivity and politics Everyday communicative exchanges from blog posts to text messages have widespread effects effects that not only undermine capacities for democracy but also entrap us in circuits of domination

Caught on Tape Casey Ryan Kelly, 2023 In a surveillance culture the ubiquity of audio visual recording devices has enabled the unprecedented documentation of private indiscretions scandalous conversations and obscene behaviors performed by both ordinary and high profile people From former President Donald J Trump's lewd banter on the infamous Access Hollywood video and leaked audio of celebrity racist tirades to outburst of violent hate speech posted daily to YouTube contemporary media culture is awash in obscene performances of transgressive white masculinity Such exposés are screened and viewed under the assumption that revealing secret prejudices will necessarily realize the promises of democracy and bring about a postracial and postfeminist future This book addresses why the culture of public revelations has failed to hold the perpetrators accountable Caught on Tape illustrates how public revelations constitute a symbolic and imaginary world for the public that is preoccupied with the obscene enjoyment of transgressive white masculinity a compulsively repetitive experience of ecstatic and excessive pleasure in pain that arises from encounters with that which disturbs traumatizes and interrupts illusory notions of our coherent selves and reality Caught on Tape argues that addressing race and gender inequality with the promise of scandalous hot mics and obscene private videos transforms antiracism and gender justice into disempowering forms of spectatorship that ultimately conceal the structural nature of whiteness white supremacy and patriarchy The central argument of this book is that the spectators are the ones really caught on tape

Aesthetics and Political Culture in Modern Society Henrik Kaare Nielsen, 2018-03-09 Do aesthetic appeals to senses and emotions in political debate necessarily marginalise political reason and reduce citizens to consumers thus dangerously undermining democracy Or is sensuous emotional engagement on the contrary a basic fact of the political process and a crucial precondition for revitalising democracy Aesthetics and Political Culture in Modern Society investigates the current interrelationship between aesthetic practice and political practice in Western democracies focusing on its impact on democratic political culture Henrik Kaare Nielsen argues that aesthetic interventions in the political process do not by definition undermine politics content of reason Instead a differentiation must be made between a multiplicity of aesthetic forms of intervention some of which tend to weaken the political judgement of citizens while other forms tend to stimulate competent judgement This book will be of interest to scholars in the fields of political science sociology media studies and

cultural studies **Territory, Authority, Rights** Saskia Sassen, 2008-07-01 Where does the nation state end and globalization begin In *Territory Authority Rights* one of the world's leading authorities on globalization shows how the national state made today's global era possible Saskia Sassen argues that even while globalization is best understood as denationalization it continues to be shaped channeled and enabled by institutions and networks originally developed with nations in mind such as the rule of law and respect for private authority This process of state making produced some of the capabilities enabling the global era The difference is that these capabilities have become part of new organizing logics actors other than nation states deploy them for new purposes Sassen builds her case by examining how three components of any society in any age territory authority and rights have changed in themselves and in their interrelationships across three major historical assemblages the medieval the national and the global The book consists of three parts The first *Assembling the National* traces the emergence of territoriality in the Middle Ages and considers monarchical divinity as a precursor to sovereign secular authority The second part *Disassembling the National* analyzes economic legal technological and political conditions and projects that are shaping new organizing logics The third part *Assemblages of a Global Digital Age* examines particular intersections of the new digital technologies with territory authority and rights Sweeping in scope rich in detail and highly readable *Territory Authority Rights* is a definitive new statement on globalization that will resonate throughout the social sciences
