Erk, Lawrence M. Anderson, 2013-09-13 The paradox of federalism is about whether self rule accommodates or exacerbates ethnic divisions A federal arrangement which formally recognizes ethno linguistic diversity to help manage divisions can also pave the way for eventual disintegration The case studies in this book cover a wide geographical basis Canada Scotland Spain Belgium Bosnia Kosovo Russia India and Iraq and seek to outline under what conditions federalism can deliver its promise of resolving ethnic conflict The book aims to bridge those who study federalism and decentralization in the developed world and those who study the politics of ethnic divisions in the developing world We also wanted to bridge the scholarship from the two sides of the Atlantic as well as the subfields of Comparative Politics International Relations and Constitutional Politics Furthermore the volume has a number of high profile senior scholars with name recognition from both sides of the Atlantic The scope of the volume is wide historically methodologically and geographically and has relevance for the applied side as well as the theoretical literature Consequently we believe this is a timely collection on the high profile topic of Ethnic Conflict Conflict Resolution This book was based on a special issue of Regional and Federal Studies **The**

workshop held at Mussorie from 15 16 March 2007 Rise of the Plebeians? Christophe Jaffrelot, Sanjay Kumar, 2012-05-04 For decades India has been a conservative democracy governed by the upper caste notables coming from the urban bourgeoisie the landowning aristocracy and the intelligentsia The democratisation of the world s largest democracy started with the rise of peasants parties and the politicisation of the lower castes who voted their own representatives to power as soon as they emancipated themselves from the elite s domination In Indian state politics caste plays a major role and this book successfully studies how this caste based social diversity gets translated into politics This is the first comprehensive study of the sociological profile of Indian political personnel at the state level It examines the individual trajectory of 16 states from the 1950s to 2000s according to one dominant parameter the evolution of the caste background of their elected representatives known as Members of the Legislative Assembly or MLAs The study also takes into account other variables like occupation gender age and education *Indian Books in Print* , 2002 **Geography in India : Selected Themes**
