Puppets and Automata Max von Boehn,1952 Puppets and Automata Max von Boehn,1972 Bernard Shaw, Automata, Robots, and Artificial Intelligence Kay Li,2024-01-03 This project is the first to explore how Bernard Shaw intersects constructively with automata robots and artificial intelligence AI Shaw was born in the golden age of the automaton His Bible on the Life Force and Creative Evolution Back to Methuselah was written when Karel and Josef apek coined the word robot Shaw s life ran in parallel with the rise of AI and the big names in AI were his contemporaries Moreover empirical analyses of Shavian texts and images using AI uncovers possibilities for new interpretations demonstrating how future renditions of his works may make use of these advanced technologies to broaden Shaw s audience readership and scholarship **Victorian Automata** Suzy Anger,Thomas Vranken,2024-03-28 Bringing together a multidisciplinary group of scholars this collection examines the Victorians profound fascination with automata **The Image of the Puppet in Italian Theater, Literature and Film** Federico Pacchioni,2022-07-21 With the advancement of cybernetics avatars animation and virtual reality a thorough understanding of how the puppet metaphor originates from specific theatrical practices and media is especially relevant today This book identifies and interprets the aesthetic and cultural significance of the different traditions of the Italian puppet theater in the broader Italian culture and beyond Grounded in the often overlooked history of the evolution of several Italian puppetry traditions the central and northern Italian stringed marionettes the Sicilian pupi the glove puppets of the Po Valley and the Neapolitan Pulcinella this study examines a broad spectrum of visual cinematic literary and digital texts representative of the functions and themes of the puppet A systematic analysis of the meanings ascribed to the idea and image of the puppet provides a unique vantage point to observe the perseverance and transformation of its deeper associations linking premodern modern and contemporary contexts **Romantic Education in Nineteenth-Century American Literature** Monika Elbert,Lesley Ginsberg,2014-12-05 American publishing in the long nineteenth century was flooded with readers primers teaching training manuals children s literature and popular periodicals aimed at families These publications attest to an abiding faith in the power of pedagogy that has its roots in transatlantic Romantic conceptions of pedagogy and literacy The essays in this collection examine the on going influence of Romanticism in the long nineteenth century on American thinking about education as depicted in literary texts in historical accounts of classroom dynamics or in pedagogical treatises They also point out that though this influence was generally progressive the benefits of this social change did not reach many parts of American society This book is therefore an important reference for scholars of Romantic studies American studies historical pedagogy and education *Performance: pt. 1. Identity and the self* Philip Auslander,2003 This collection reflects not only the multidisciplinary nature of current thinking about performance but also the complex and contested nature of the concept itself *Reading the Puppet Stage* Claudia Orenstein,2023-08-21 Drawing on the author s two decades of seeing writing on

and teaching about puppetry from a critical perspective this book offers a collection of insights into how we watch understand and appreciate puppetry Reading the Puppet Stage uses examples from a broad range of puppetry genres from Broadway shows and the Muppets to the rich field of international contemporary performing object experimentation to the wealth of Asian puppet traditions as it illustrates the ways performing objects can create and structure meaning and the dramaturgical interplay between puppets performers and language onstage An introductory approach for students critics and artists this book underlines where significant artistic concerns lie in puppetry and outlines the supportive networks and resources that shape the community of those who make watch and love this ever developing art **Puppets and automata**

Personhood and Social Robotics Raya A Jones,2015-12-14 An exponentially growing industry human robot interaction HRI research has drawn predominantly upon psychologists descriptions of mechanisms of face to face dyadic interactions This book considers how social robotics is beginning unwittingly to confront an impasse that has been a perennial dilemma for psychology associated with the historical science vs art debate Raya Jones examines these paradigmatic tensions and in tandem considers ways in which the technology centred discourse both reflects and impacts upon understanding our relational nature Chapters in the book explore not only how the technology centred discourse constructs machines as us but also how humans feature in this discourse Focusing on how the social interaction is conceptualised when the human robot interaction is discussed this book addresses issues such as the long term impact on persons and society authenticity of relationships and challenges to notions of personhood By leaving aside terminological issues Jones attempts to transcend ritual of pitching theories against each other in order to comprehensively analyse terms such as subjectivity self and personhood and their fluid interplay in the world that we inhabit Personhood and Social Robotics will be a key text for postgraduate students researchers and scholars interested in the connection between technology and human psychology including psychologists science and technology studies scholars media studies scholars and humanists The book will also be of interest to roboticists and HRI researchers as well as those studying or working in areas of artificial intelligence and interactive technologies more generally
