Roman Women's Dress Jan Radicke,2022-11-07 The book concerns female dress in Roman life and literature The main focus is on female Roman dress as it may have been worn in daily life in Rome and in a social environment influenced by Roman culture in the time from the beginnings of the Republic until the end of the 2nd century AD There is however a certain surplus as to its contents because many Latin texts also talk about mythical Greek dress and the largely fictional early Roman dress Altogether large parts of the history of Roman dress are only known to us through what scholars thought about it in Classical and Late Antiquity For this reason this book is not only about real female Roman dress but also about the ancient pseudo discourse on early female Roman dress which has been taken too seriously by modern scholarship This pseudo discourse has been mixed together with real facts to produce an ahistorical fabric It

therefore appeared necessary to break with this old tradition and to take a completely new path The detailed analysis of many texts on female Roman dress is the basis of this new handbook meant for philologists historians and archaeologists alike

Beyond the Edge M. Pax,2013-09-30 Some truths are better left unfound In the far future humanity settles the stars bioengineering its descendants to survive in a harsh universe This is the fourth book in the science fiction series The Backworlds A space opera adventure For two years Craze s dear friend Lepsi has been missing The murmurings of a haunted spaceship might be a message and may mean his old pal isn t dead The possibility spurs Craze and Captain Talos into space to uncharted worlds Searching an unfamiliar region of the galaxy beyond the Backworlds they stumble upon a terrible truth Meanwhile Rainly remains on Pardeep Station as acting planetlord dealing with the discovery of her man s dark and brutal past Alone and questioning her judgment her introspection unlocks more than heartache Latent protocols in her cybernetics activate forcing her to face a sinister secret of her own

Cannabis Robert C. Clarke,Mark D. Merlin,2013-09-01 Cannabis Evolution and Ethnobotany is a comprehensive interdisciplinary exploration of the natural origins and early evolution of this famous plant highlighting its historic role in the development of human societies Cannabis has long been prized for the strong and durable fiber in its stalks its edible and oil rich seeds and the psychoactive and medicinal compounds produced by its female flowers The culturally valuable and often irreplaceable goods derived from cannabis deeply influenced the commercial medical ritual and religious practices of cultures throughout the ages and human desire for these commodities directed the evolution of the plant toward its contemporary varieties As interest in cannabis grows and public debate over its many uses rises this book will help us understand why humanity continues to rely on this plant and adapts it to suit our needs
