Now he's discovered she gave birth to a baby. Their baby. A marriage of convenience will keep the child and fiery irresistible Zara in his life. But does he truly know the woman he wants to wed? Because Zara's been hiding more from him than just their daughter **Learning from the Secret Past** Robert Dover, Michael S. Goodman, 2011-11-04 Identifying lessons learned is not new: the military has been doing it for decades. However, members of the worldwide intelligence community have been slow to extract wider lessons gathered from the past and apply them to contemporary challenges. *Learning from the Secret Past* is a collection of ten carefully selected cases from post World War II British intelligence history. Some of the cases include the Malayan Emergency, the Cuban Missile Crisis, Northern Ireland, and the lead up to the Iraq War. Each case is accompanied by authentic documents that illuminate important lessons that today's intelligence officers and policymakers in Britain and elsewhere should heed. Written by former and current intelligence officers, high-ranking government officials, and scholars, the case studies in this book detail intelligence successes and failures, discuss effective structuring of the intelligence community, examine the effective use of intelligence in counterinsurgency, explore the ethical dilemmas and practical gains of interrogation, and highlight the value of human intelligence and the dangers of the politicization of intelligence. The lessons learned from this book stress the value of past experience and point the way toward running effective intelligence agencies in a democratic society. Scholars and professionals worldwide who specialize in intelligence, defense and security studies, and international relations will find this book to be extremely valuable *Mitka's Secret* Steven W. Brallier, Joel N. Lohr, Lynn G. Beck, 2021-07-20 The remarkable life story of Mitka Kalinski, who survived seven years of enslavement while still a child to a Nazi officer during and after World War II. Mitka Kalinski had never revealed his past to anyone. Not even to his wife or his four children. But in 1981, three decades after it had all ended, Mitka finally broke his silence about the horrors he had endured during the Holocaust and in the years immediately afterward: not only German concentration camps and sadistic medical experiments, but also seven years of enslavement in the household of a Nazi officer, Iron Gustav Derr. Having been orphaned before the war, Mitka did not know his origins or even his name. Torture, slavery, and a false name stripped him of his identity entirely. Thus, when he immigrated to the United States in 1951, Mitka seized the opportunity to bury his past and forge a new life. He lived the American life in all its fullness and moved to Nevada with his beloved wife, Adrienne, and their children. But the secret he carried became an increasingly heavy burden, preventing wholeness and healing. This is Mitka's account of facing the past, confronting his captors, connecting with lost relatives, and finding peace in the rediscovery of his origins. For Mitka, this also

meant reclaiming his Jewish heritage a journey that gave him a new sense of purpose and freedom from the lingering effects of trauma that had filled his life to that point By the end Mitka's Secret is less a story of survival and more one of redemption and transformation from hidden suffering to abundant joy

Hollywood's Frontier Captives Barbara A. Mortimer, 2018-10-24 The captivity narrative the earliest genre of American popular literature continues to be of cultural significance in late 20th century Hollywood Many popular films of the last four decades incorporate the most common elements of the captivity narrative tradition including a politically contested frontier setting and a plot involving innocent family oriented white Americans held captive by hostile culturally alien natives At the same time these films offer something new to the narrative tradition they focus on the captive who resists rescue and the challenge this resistance poses to American cultural self confidence By focusing on the lost captive these films beginning with The Searchers 1956 deal with questions about American identity raised by a white American's cultural and potentially political transformation Films as diverse as Little Big Man Taxi Driver and The Deer Hunter adapted the captivity narrative's conventions to criticize aspects of contemporary American society and reject outworn models of male heroism at the same time however they retained the genre's traditional assumption of white superiority and its fear of female sexuality

Preparing Dinosaurs Caitlin Donahue Wylie, 2021-08-31 An investigation of the work and workers in fossil preparation labs reveals the often unacknowledged creativity and problem solving on which scientists rely Those awe inspiring dinosaur skeletons on display in museums do not spring fully assembled from the earth Technicians known as preparators have painstakingly removed the fossils from rock repaired broken bones and reconstructed missing pieces to create them These specimens are foundational evidence for paleontologists and yet the work and workers in fossil preparation labs go largely unacknowledged in publications and specimen records In this book Caitlin Wylie investigates the skilled labor of fossil preparators and argues for a new model of science that includes all research work and workers Drawing on ethnographic observations and interviews Wylie shows that the everyday work of

fossil preparation requires creativity problem solving and craft She finds that preparators privilege their own skills over technology and that scientists prefer to rely on these trusted technicians rather than new technologies Wylie examines how fossil preparators decide what fossils and therefore dinosaurs look like how labor relations between interdependent yet hierarchically unequal collaborators influence scientific practice how some museums display preparators at work behind glass as if they were another exhibit and how these workers learn their skills without formal training or scientific credentials The work of preparing specimens is a crucial component of scientific research although it leaves few written traces Wylie argues that the paleontology research community's social structure demonstrates how other sciences might incorporate non scientists into research work empowering and educating both scientists and nonscientists **Hidden Secrets, Hidden**
