Sectarianism Analyses Of Religious And Non Religious Sects

Lynn LiDonnici, Andrea Lieber

Sectarianism Analyses Of Religious And Non Religious Sects:

Sectarianism Roy Wallis, 1975 One of the more extraordinary trends to have emerged in the West in the 1970s and one that has created considerable interest and curiosity particularly among sociologists is the proliferation of new religious sects Their followers are often young people disenchanted with the drug culture but seeking a new spirituality in an intensely materialistic society Sectarianism is a collection of essays studying this development Edited by Roy Wallis Lecturer in Sociology at the University of Stirling it is written by leading sociologists from Britain Canada and the USA and covers a wide range of sectarian movements in both the religious and the secular domains Included are case studies of The Aetherius Society a flying saucer cult the Hare Krishna movement the Jehovah s Witnesses and the United Family an investigation of societal reaction to Scientology and a fascinating study contrasting modern communitarian movements with the Shakers a once flourishing communitarian sect in the USA In the secular domain the book investigates organizations that though nonreligious exhibit characteristics of religious sects These include the Concept Houses one of the latest methods for rehabilitating drug addicts two contemporary left wing political groups and two ex patient therapeutic groups Neurotics Nomine and Recovery Inc Sectarianism will be indispensable to the sociologists of religion it should also prove of immense interest to the layman wishing to deepen his knowledge of this phenomenon beyond the superficial and often hysterical reporting in the press Publisher **Sects and Sectarianism in Jewish History** Sacha Stern, 2011-04-21 Several Jewish groups from Antiquity until today have been traditionally identified as sects or as sectarian most famously the Qumran community and the Qaraites This volume questions the appropriateness of this interpretation of social and religious movements in Jewish history **Sectarianism in Early Judaism** David J. Chalcraft, 2014-12-05 Sectarianism in Early Judaism applies recent developments in sociological analysis to sect formation and development in early Judaism The essays examine sectarianism in a wide range of different forms the many layers of redaction in religious texts the development arcs of sectarian groups the role of sectarianism across Jewish history as well as in the time of the Second Temple and the relations within and between sects and between sects and wider society The book aims to establish a conceptual framework for the analysis of sects and in doing so makes particular use of the work of Max Weber and Bryan Wilson exploring the limits of their typologies and sociological theories The Sociology of Religion Malcolm B. Hamilton, 2012-06-12 This clear introduction to the sociology of religion combines a discussion of key theorists with a modern emphasis on the diversity of religious beliefs and practices Malcolm Hamilton s expanded second edition brings the discussion fully up to date and extends its material on secularization and religious sects giving a broad comparative view Drawing on the insights of history anthropology and sociology he surveys classic and contemporary theory to give a full picture of the variety and scope of theoretical perspectives **American Sociology of Religion** , 2007-08-31 This is a collection of histories of various aspects of American sociology of religion The contributions range from descriptions of early dissertations accounts of changes in

theoretical conceptualization the evolution of studies of particular denominations to the rise of new areas of inquiry such as globalization feminism new religions and the study of the religious traditions of Latino Americans Taken as a whole the volume complements rather than duplicates commemorative issues of the relevant journals which focused on the scholarly organizations in the field It represents a first effort to develop an organized treatment of the fascinating history of the specialty in the U S A **Routledge Library Editions: Sociology of Religion** Various,2021-07-14 This set collects together in 19 volumes a wealth of texts on Sociology of Religion An invaluable reference resource it contains classic books on a wide range of topics including religion and violence religion and family life religion and society culture and class

Researching New Religious Movements Elisabeth Arweck,2006 This cutting edge analysis of American and European new religious movements explores the controversies between religious groups and the majority interests which oppose them It asks how modern societies can best respond to new religious movements **Religious and Spiritual Groups in Modern America** Robert Ellwood,Harry Partin,2016-11-03 This text explores the major new or unconventional religions and spiritual movements in America that exist outside the Judeo Christian tradition **Introduction to New and Alternative Religions in America** William M. Ashcraft,Eugene V. Gallagher,2006-10-30 Most new or alternative religious are gravely misunderstood by members of the religious mainstream Labeled cults or sects groups and their members are often ridiculed or otherwise disregarded as weird and potentially dangerous by the populace at large Despite their efforts at educating the general public the various anti and counter cult activists have in fact promoted much more mis understanding than accurate understanding of the religious lives of some of their fellow citizens Consequently they have helped to create a very hostile environment for anyone whose religious practices do not fit within a so called mainstream This set rectifies the situation by presenting accurate comprehensive authoritative and accessible accounts of various new and alternative religious movements that have been and are active in American society and it addresses ways of understanding new and alternative religions within a broader context Determining what actually constitutes a new or alternative religion is a subject of constant debate Questions arise as to a new faith s legitimacy beliefs methods of conversion and other facets of a religious movement s viability and place in a given culture How a religion gains recognition by the mainstream which often labels such new movements as cults is fraught with difficulty tension and fear Here experts delineate the boundaries and examine the various groups beliefs movements and other issues related to new faiths and alternative beliefs Readers will come away with a fuller understanding of the religious landscape in America today Volume 1 History and Controversies discusses the foundations of new and alternative religions in the United States and addresses the controversies that surround them This volume helps readers better understand what makes a new or alternative belief system a religion and the issues involved Volume 2 Jewish and Christian Traditions explores the various new religions that have grown out of these two Abrahamic faiths Groups such as the Shakers the People s Temple the Branch Davidians Jehovah s Witnesses and others are examined Volume 3

Metaphysical New Age and Neopagan Movements looks at Shamanism Spiritualism Wicca and Paganism among other movements as they have developed and grown in the U S These faiths have found new and devoted followers yet are often misunderstood Volume 4 Asian Traditions focuses on those new and alternative religions that have been inspired by Asian religious traditions From Baha i to Soka Gakkai from Adidam to the Vedanta Society contributors look at a full range of groups practicing and worshiping in the U S today Volume 5 African Diaspora Traditions and Other American Innovations examines the various traditions linked to the African diaspora such as Rastafarianism Santeria and the Nation of Islam alongside traditions that are truly American incarnations like Scientology UFO religions and Heaven s Gate Some of the new and alternative religions covered in these pages include Shamanism Wicca Black Israelites Santeria Scientology Elan Vital Hare Krishna Soka Gakkai and many more

A Social History of Christian Origins Simon J. Joseph, 2022-12-30 A Social History of Christian Origins explores how the theme of the Jewish rejection of Jesus embedded in Paul s letters and the New Testament Gospels represents the ethnic social cultural and theological conflicts that facilitated the construction of Christian identity Readers of this book will gain a thorough understanding of how a central theme of early Christianity the Jewish rejection of Jesus facilitated the emergence of Christian anti Judaism as well as the complex and multi faceted representations of Jesus in the Gospels of the New Testament This study systematically analyzes the theme of social rejection in the Jesus tradition by surveying its historical and chronological development Employing the social psychological study of social rejection social identity theory and social memory theory Joseph sheds new light on the inter relationships between myth history and memory in the study of Christian origins and the contemporary re construction of the historical Jesus A Social History of Christian Origins is primarily intended for academic specialists and students in ancient history biblical studies New Testament studies Religious Studies Classics as well as the general reader interested in the beginnings of Christianity

The Emerging Network Michael York, 1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena

Religion in the Contemporary World Alan Aldridge, 2013-04-12 In the new edition of this widely praised text Alan Aldridge examines the complex realities of religious belief practice and institutions Religion is a powerful and controversial force in the contemporary world even in supposedly secular societies Almost all societies seek to cultivate religions and faith communities as sources of social stability and engines of social progress They also try to combat real and imagined abuses and excess regulating cults that brainwash vulnerable people containing fundamentalism that threatens democracy and the progress of science and identifying terrorists who threaten atrocities in the name of religion The third edition has been carefully revised to make sure it is fully up to date

with recent developments and debates Major themes in the revised edition include the recently erupted culture war between progressive secularists and conservative believers the diverse manifestations of fundamentalism and their impact on the wider society new individual forms of religious expression in opposition to traditional structures of authority and the backlash against multiculturalism with its controversial implications for the social integration of ethnic and religious minority communities Impressive in its scholarly analysis of a vibrant and challenging aspect of human societies the third edition will appeal strongly to students taking courses in the sociology of religion and religious studies as well as to everyone interested in the place of religion in the contemporary world The Oxford Handbook of the Dead Sea Scrolls Timothy H. Lim, John J. Collins, 2012-10-11 In 1946 the first of the Dead Sea Scroll discoveries was made near the site of Qumran at the northern end of the Dead Sea Despite the much publicized delays in the publication and editing of the Scrolls practically all of them had been made public by the time of the fiftieth anniversary of the first discovery That occasion was marked by a spate of major publications that attempted to sum up the state of scholarship at the end of the twentieth century including The Encyclopedia of the Dead Sea Scrolls OUP 2000 These publications produced an authoritative synthesis to which the majority of scholars in the field subscribed granted disagreements in detail A decade or so later The Oxford Handbook of the Dead Sea Scrolls has a different objective and character It seeks to probe the main disputed issues in the study of the Scrolls Lively debate continues over the archaeology and history of the site the nature and identity of the sect and its relation to the broader world of Second Temple Judaism and to later Jewish and Christian tradition It is the Handbook's intention here to reflect on diverse opinions and viewpoints highlight the points of disagreement and point to promising directions for future research

Houses built on sand Simon Mabon, 2020-02-28 This electronic version has been made available under a Creative Commons BY NC ND open access license The events of the Arab Uprisings posed an existential challenge to sovereign power across the Middle East Whilst popular movements resulted in the toppling of authoritarian rule in Tunisia Egypt and Yemen other regimes were able to withstand these pressures This book questions why some regimes fell whilst others were able to survive Drawing on the work of political theorists such as Agamben and Arendt Mabon explores the ways in which sovereign power is contested resulting in the fragmentation of political projects across the region Combining an innovative theoretical approach with interviews with people across the region and beyond Mabon paints a picture of Middle Eastern politics dominated by elites seeking to maintain power and wealth seemingly at whatever cost This for Mabon is a consequence of the emergence and development of particular visions of political projects that harness or marginalise identities communities ideologies and faiths as mechanisms designed to ensure their survival This book is essential reading for those interested in understanding why the uprisings took place their geopolitical consequences and why they are likely to happen again

Living in the Children of God David E. Van Zandt, 2014-07-14 At the height of the religious ferment of the 1970s David Van Zandt studied firsthand the most vilified of the new radical religious movements the Children of God or the Family of

Love First feigning membership and later gaining the permission of the Family the author lived full time in COG colonies in England and the Netherlands From that experience he has produced an informed insightful and humane report on how COG members function in what seems at first to be a completely bizarre setting The COG an offshoot of the Jesus People movement of the late 1960s was one of the first radical religious groups to be accused of brainwashing Led by the charismatic David Berg known as Moses David the group demands total commitment from its full time members and proselytizes continuously Until recently the COG used sex as a proselytizing tool and it continues to encourage full sexual sharing among group members Instead of examining the COG s ideology in the abstract Van Zandt analyzes how its ideas are understood and used by ordinary members in their daily lives For them the Family is its practical day to day and all consuming activities such as litnessing the street sale of COG literature This is a vivid eyewitness account that will fascinate anyone interested in life in modern radical communal religions such as the Unification Church and the Hare Krishnas as well as in other radical Christian based total commitment groups Van Zandt s frank reflections on his near conversion experience and on the ethics of his covert observation enrich our knowledge of doing research with such groups Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Origins of the Bahá'í Community of Canada, 1898-1948 Will C. van den Hoonaard, 2010-10-30 What binds together Louis Riel s former secretary a railroad inventor a Montreal comedienne an early proponent of Canada s juvenile system and a prominent Canadian architect Socialists suffragists musicians artists from 1898 to 1948 these and some 550 other individual Canadian Bah s helped create a movement described as the second most widespread religion in the world Using diaries memoirs official reports private correspondence newspapers archives and interviews Will C van den Hoonaard has created the first historical account of Bah s in Canada In addition The Origins of the Bah Community of Canada 1898 1948 clearly depicts the dynamics and the struggles of a new religion in a new country This is a story of modern spiritual heroes people who changed the lives of others through their devotion to the Bah ideals in particular to the belief that the earth is one country and all of humankind are its citizens Thirty nine original photographs effectively depict persons and events influencing the growth of the Bah movement in Canada The Origins of the Bah Community of Canada 1898 1948 makes an original contribution to religious history in Canada and provides a major sociological reference tool as well as a narrative history that can be used by scholars and Bah s alike for many years to come

Altruism in the Context of Economic Rationalistic Idologies and Systems of Healthcare and Welfare Delivery. A Multi-Disciplinary Approach Donald Gates, 2006-03 This work examines the two apparently contradictory concepts of

Altruism and Economic Rationalism in the context of Health and Welfare Delivery It is multi disciplinary and employs a number of disciplines including Sociology Economics Theology Religion Ecclesiology History and Political Science

Controversial New Religions James R. Lewis, Jesper Aa. Petersen, 2014-07-16 In terms of public opinion new religious movements are considered controversial for a variety of reasons Their social organization often runs counter to popular expectations by experimenting with communal living alternative leadership roles unusual economic dispositions and new political and ethical values As a result the general public views new religions with a mixture of curiosity amusement and anxiety sustained by lavish media emphasis on oddness and tragedy rather than familiarity and lived experience This updated and revised second edition of Controversial New Religions offers a scholarly dispassionate look at those groups that have generated the most attention including some very well known classical groups like The Family Unification Church Scientology and Jim Jones's People's Temple some relative newcomers such as the Kabbalah Centre the Order of the Solar Temple Branch Davidians Heaven's Gate and the Falun Gong and some interesting cases like contemporary Satanism the Raelians Black nationalism and various Pagan groups Each essay combines an overview of the history and beliefs of each organization or movement with original and insightful analysis By presenting decades of scholarly work on new religious movements written in an accessible form by established scholars as well as younger experts in the field this book will be an invaluable resource for all those who seek a view of new religions that is deeper than what can be found in sensationalistic media stories

We the People, Servants of Deception Christopher M. Dawson, 2012-05-14 Using the principles and tools of sociology presented in his university course Chris Dawson challenges the reader to reconsider the social reality of our society This book exposes inconsistencies and deceptions in the conventional portrayal of America's experiment in democracy His provocative social commentary explores the role of our military the culture of fear strategies in the war on terror the excesses of corporate power and our misconceptions about crime He speaks of social inequality social and racial group divisions and offers unconventional views about education medicine universal healthcare and the origins of religion The doubts he raises will merit your serious reflection

Come Out from among Them, and Be Ye Separate, Saith the Lord William H. Brackney, Evan L. Colford, 2020-01-01 Believers Churches have their origin in the Radical Reformation of the sixteenth century Over the past 450 years the movement has included the Brethren Mennonites Hutterites various types of Baptists and the Restoration Movement While never a unified denominational structure the Believers Churches together have been characterized by a strong personal faith in Christ a call to discipleship and Christian activism a high view of the authority of Scripture and profession of faith in believers baptism The Believers Churches have represented their beliefs in various ecumenical settings missionary gatherings and theological conversations In the late 1950s representatives of the several Believers Churches began to meet in a series of conferences to explore their common views on doctrine history and ethics Topics at the conferences have included baptism Lord's Supper the nature of the church and religious voluntarism In

2016 the 17th Believers Church Conference was held at Acadia University and sponsored by Acadia Divinity College The theme was The Tendency Toward Separationism Among the Believers Churches a key recurring characteristic This volume includes the papers presented at the conference and examines the theme from an immediate post Reformation perspective including Baptists Black Baptists Restorationists including the Churches of Christ the Hutterites Pentecostals the role of women and significantly the separationist tendency as it occurs in New Religious Movements Typologies and analyses are provided by leading historians theologians and social science specialists

Recognizing the showing off ways to get this ebook **Sectarianism Analyses Of Religious And Non Religious Sects** is additionally useful.
