## **Secularism Art And Freedom:**

**Secularism, Art and Freedom** David S. Nash, 1992      How Secular Is Art? Tapati Guha-Thakurta, Vazira Zamindar, 2024-05-31 As an invitation to interrogate the secular modality of art the book unsettles both the categories of art and secular in their theoretical and historical implications It questions the temporal spatial and cultural binaries between the sacred and the secular that have shaped art historical scholarship as well as artistic practice Thinking from the south all the essays here are anchored in a conception of a region one fissured by histories of partition state formations and religious nationalisms but still offering a collective site from which to speak to the disciplines of art and the knowledge worlds in which they are embedded The book asks How do we complicate the religious designations of pre modern art and architecture and the new forms of their resurgence in contemporary iconographies and monuments How do we re conceptualize the public and the political as fiery contestations and new curatorial practices reconfigure the meaning of art in the proliferating spaces of museums galleries biennales and festivals How do we understand South Asian art s deep entanglements with the politics of the present      **Religious Freedom in Secular States** Md. Jahid Hossain Bhuiyan, Ann Black, 2022-08-29 What constitutes the core values tenets cultural historic and ideological parameters of secularism in international contexts In twelve chapters this edited work examines current tensions in liberal secular states where myriad rights and freedoms compete regarding education healthcare end of life choices clothing sexual orientation reproduction and minority interests It explores the legal complexity of defining a religion through judicial decisions and scrutinises Christianity Hinduism and Islam s relative success in accommodating religious pluralism Part One explores the religious practice and persecution nexus COVID 19 s effect on religious freedom religious education burqas headscarves and religious culture in civil law Part Two explores the constitutional principle of secularism in Member States of the Council of Europe US Religious Clauses and religious freedom in South Africa UK Australia and India      *Empire and Progress in the Victorian Secularist Movement* Patrick J. Corbeil, 2021-12-01 This book is the first extensive historical analysis of the relationship between empire and the Victorian secularist movement Historians have paid little attention to the role of empire in the development of organized free thought Secularism as it developed in Britain and its settler colonies was an overtly outward looking global ideology in a period marked by the rise of scientific rationalism and belief in the logic of a European civilizing mission Recent scholarship has focused on how the empire influenced British and American atheists on the question of race What is missing is an in depth examination of the formation of secularist ideas about universal progress ethics and secular morality Through an examination of the secularist periodical and pamphlet press this book argues that the religious diversity of the British Empire helped to shape the ethical worldview of the secularists providing ammunition for their critiques of Christian morality and the church and justification for their policy reform proposals both in Britain and the colonies      *Morality and Citizenship in English Schools* Susannah Wright, 2016-12-08 This book sheds new light on early twentieth century secularism by examining

campaigns to challenge dominant Christian approaches to the teaching of morality and citizenship in English schools and to offer superior alternatives It brings together for the first time the activities of different educators and pressure groups operating locally nationally and internationally over a period of 47 years Who were these activists What ideological and organisational resources did they draw on What proposals did they make And how did others respond to their views Secularist activists represented a minority but offered a recurrent challenge to majority views and shaped ongoing educational debates They achieved some albeit limited influence on policy and practice They were divided among themselves and by 1944 had failed to supplant majority views But with the place of religious and secular ideals in schools remaining a subject of debate this analysis has resonance today *Regulating Freedom of Religion* Hans G. Kippenberg, 2021-06-17 Freedom of Religion declared in Art 18 of the Universal Declaration of Human Rights 1948 concerned not only individuals but included the moral right of religious communities to manifest religion in public The International Covenant on Political and Civil Rights 1966 1976 made it a legal right and added an article that allowed states to restrict that freedom provided it violates national laws and public order This article resulted in an ongoing process of legal proceedings The Human Rights Committee of the UN and the European Court of Human Rights have made judgments that allowed a plurality of religions in public even in cases where there is a state religion A declaration of the UN against intolerance and discrimination empowered religious communities to establish charitable institutions to disseminate internationally relevant publications and to receive financial contributions and made them powerful social and political actors The same declaration defended the principles of free choice of a religion and of tolerance among citizens of different faiths This book investigates the most relevant rulings concerning the religious rights of individuals and communities It fills a gap in the study of religious communities in the globalized world and will be of interest to anyone involved in historical social legal and religious studies It will help the reader to understand the paradox of the power of religious communities in a secular and globalizing world

Secularism and Freedom of Religion in Italy Maria Cristina Ivaldi, 2025-02-11 The display of religious symbols in the public space has been the subject of much debate This book provides an overview of the presence of religious symbols in Italian public institutions from a legal standpoint The situation is analysed from the perspective of the principles of laicity secularism as defined by the Constitutional Court and freedom of religion It is argued that while the display of religious symbols in public institutions has been widely investigated doctrinally the wearing of religious symbols in Italy has generally been neglected Key cases are examined in light of national jurisprudence as well as intervention by the European Court of Human Rights and relevant judgments from foreign courts regarding this issue Finally the work considers the presence of religious symbols that transcend national borders as in the case of arts sport and advertising A comparison is made with the French system which takes a very different approach The book outlines possible ways forward in light of the growing interculturality of European societies It will be a valuable resource for academics researchers and policy makers working in

the areas of law and religion and comparative law      **Grace and Freedom in a Secular Age** Philip J. Rossi, 2022-12-27 In the course of a long and distinguished academic and civic career the Canadian philosopher Charles Taylor has been for articulate atheists and learned believers alike an incisive insightful gracious and challenging conversation partner on issues that arise at the intersection and interaction of religion society and culture *Grace and Freedom in a Secular Age* offers a concise exposition of key ideas contingency otherness freedom vulnerability and mutuality that inform his probing analyses of the dynamics of religious belief and religious denial in the pervasive contemporary culture he calls a secular age within which religious belief and practice have for many become just an option Those ideas provide the basis from which Rossi argues that despite a clear eyed recognition of the deep fractures of meaning and the pervasive fragmentation of once stable societal connections that a secular age has brought in its wake Taylor also sees and affirms strong grounds for hope in a healing of our broken and fractured world and for the possibilities and the importance of active human participation in that healing Taylor points to signs indicative of potent recompositions and renewals taking place in religious belief and practice from its interaction with the dynamics of secular culture particularly ones that make possible radical enactments of deeper human solidarity and mutuality of which the one most often potent is the reconciliation of enemies In pointing out these signs Taylor suggests a richly expansive reading of the Christian doctrine of Creation as it marks the radical contingency of all that is upon a freely bestowed divine self giving Creation is the ongoing enactment of the divine hospitality of the Triune God

**The Spirit of Secular Art** Robert Nelson, 2007 *THE SPIRIT OF SECULAR ART* explains the spiritual prestige of art Various theorists have discussed how art has an aura or indefinable magic This book explains how when and why it gained its spiritual properties The idea that all art is somehow spiritual even though not religious is often assumed this book while narrating the historical trajectory of art in the most accessible language reveals how the mysteries of religious practice are abstracted and saved through all stages of secularisation in European culture *THE SPIRIT OF SECULAR ART* presents a coherent theory defining the sacred basis of Western aesthetics It evocatively describes the afterlife of the holy from Ancient Greece to the present and outlines how the mysterious institution of art can be explained in material terms Unlike other books in the genre *THE SPIRIT OF SECULAR ART* radically deconstructs traditional art history in terms of prestige and the value of the non material The book functions as an alternative critical history of art integrated with the histories of literature and belief a philosophical essay on the fundamental values of art and religion and a critique of the spiritual conceits of contemporary aesthetics and art appreciation      **Freedom of Religion, Secularism, and Human Rights** Nehal

Bhuta, 2019-01-24 This interdisciplinary volume examines the relationship between secularism freedom of religion and human rights in legal theoretical historical and political perspective It brings together chapters from leading scholars of human rights law and religion political theory religious studies and history and provides insights into the state of the debate about the relationship between these concepts Comparative in orientation its chapters draw on constitutional and political

discourses and experience not only from Western Europe and the United States but also from India the Arab world and Malaysia

**Religious Rules, State Law, and Normative Pluralism - A Comparative Overview** Rossella Bottoni, Rinaldo Cristofori, Silvio Ferrari, 2016-07-07 This book is devoted to the study of the interplay between religious rules and State law It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law The first part of the book contains a few contributions that place this discussion within the wider debate on legal pluralism While State law and religious rules are two normative systems among many others the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world

**The Old and the New: Churching a Secular Age from Solovyóv to Bulgakov** Michael Lee Miller, 2025-03-25 In the midst of exile from his native Russia in the mid 1930s Fr Sergii Bulgakov identified his basic aspiration as an Orthodox theologian to be a positive overcoming of Modernity in fact a continuation of the efforts of his great 19th century inspiration Vladimir Solovyov to reconstruct Christian thought and culture in the face of the unprecedented challenges posed by the Enlightenment and the era of revolutionary upheaval But Bulgakov's theological vision also involves a distinctive revision of Solovyov's programme whose residual Hegelianism continually threatens to level out speculative reason and mystagogical faith progress in history and the Kingdom not of this World Bulgakov refuses any such levelling instead he consummates the apocalyptic turn Solovyov had already commenced in the years immediately preceding his premature death in 1900 The resulting preference for the paradox of antinomy over the closure of dialectic comes to light in relation to four themes running through Bulgakov's thinking in the decades falling between his rejection of Marxism and the commencement of his mature systematic theological work in the 1930s history work knowledge and power

**Historicizing Secular-Religious Demarcations** Monika Wohlrab-Sahr, Daniel Witte, Christoph Kleine, 2024-07-01 This volume aims to revitalize the exchange between sociological differentiation theory and the sociology of religion which previously held center stage among the sociological classics It brings together contributions from different disciplines as well as various forms of regional and historical expertise which are indispensable in forming a globally oriented sociological perspective today Secularization is understood as a process of boundary demarcation that is as the enactment of semantic practical and institutional distinctions between religion and other spheres of activity and knowledge These distinctions may emerge from within the religious field itself or may be absorbed into the field having originally emerged elsewhere They may even be directly imposed upon religion by external forces The volume is therefore based on the premise that societal differentiation and secularity as a specific expression of it is a widespread structural feature that nonetheless takes on various forms depending on its historical and cultural context In order to make

this diversity visible the volume adopts a global comparative perspective and examines historical distinctions and differentiations in the West and beyond By examining different forms and modes of secularity in statu nascendi the volume contributes to developing a better understanding of the diversity of secularities even of those found in the present day in terms of their historicity and their specific path dependencies With this shift in perspective this special volume initiates a global and historical turn in the theory of differentiation as well as in the study of secularity

**Religious Freedom in a Secular Age** Michael F. Bird, 2022-05-03 Discover how to responsibly defend religious freedom for all without compromising your personal beliefs Religious freedom is a bitterly contested issue that spills over into political public and online spheres It is an issue that is becoming ever more heated and neither of the global political polarities is interested in protecting it While the political left is openly hostile toward traditional religion the political right seeks to weaponize it How can we ensure that religious freedom is truly about freedom of one's religion rather than serving an ethno nationalist agenda In *Religious Freedom in a Secular Age* Michael Bird New Testament scholar and author of *Evangelical Theology* has four main goals To explain the true nature of secularism and help us to see it as one of the best ways of promoting liberty and mutual respect in a multifaith world To dismantle the arguments for limiting religious freedom To outline a biblical strategy for maintaining a Christian witness in a post Christian society To encourage Christians to participate in a new age of apologetics by being prepared to defend not only their own beliefs but also the freedom of all faiths While Bird does address the recent political administrations in the US his focus is global Bird who lives in Melbourne Australia freely admits to his anxiety of the militant secularism surrounding him but he also strongly critiques the marriage of national and religious identities that has gained ground in countries like Hungary and Poland The fact is that religion has a lot to contribute to the common good *Religious Freedom in a Secular Age* will challenge readers of all backgrounds and beliefs not only to make room for peaceable difference but also to find common ground on the values of justice mercy and equality

**Religion and Secular Modernity in Russian Christianity, Judaism, and Atheism** Ana Siljak, 2024-11-15 *Religion and Secular Modernity in Russian Christianity Judaism and Atheism* is a multifaceted account of the engagement between religion and the secular in Russia's Christian Jewish and atheist traditions Ana Siljak brings together an interdisciplinary group of leading scholars to present unique perspectives on the secularization dynamic in Russia and the Soviet Union telling stories about theologians sects churches poets and artists From the Jewish Christian priest Alexander Men to the cross dressing poet Zinaida Gippius to the Soviet promoter of Yiddish theater Solomon Mikhoels *Religion and Secular Modernity in Russian Christianity Judaism and Atheism* gives a voice to a variety of actors who have grappled with the possibilities of faith and unbelief in an industrialized modern and seemingly secular world Now more than ever as one narrative of Russia's religious history dominates official Russian accounts alternative perspectives of the relationship between Russian religion and secularism should be highlighted and emphasized

**Law, State and Religion in the New Europe** Lorenzo Zucca, Camil Ungureanu, 2012-01-19 The return

of religion to the public sphere raises various dilemmas Rights and values pluralism and identity justice and efficacy autonomy and tradition and integration and toleration cannot always be balanced without the loss of something valuable This volume of essays tackles such dilemmas from two perspectives To begin major contemporary theorists rethink the place of religion in the public sphere from republican liberal and critical theoretical viewpoints Contributors then bring together theory and practice to better conceptualize and assess the latest developments in European jurisprudence with respect to religion

*Performing Piety* Karin van Nieuwkerk, 2013-10-01 In the 1980s Egypt witnessed a growing revival of religiosity among large sectors of the population including artists Many pious stars retired from art repented from sinful activities and dedicated themselves to worship preaching and charity Their public conversions were influential in spreading piety to the Egyptian upper class during the 1990s which in turn enabled the development of pious markets for leisure and art thus facilitating the return of artists as veiled actresses or religiously committed performers Revisiting the story she began in *A Trade like Any Other* Female Singers and Dancers in Egypt Karin van Nieuwkerk draws on extensive fieldwork among performers to offer a unique history of the religious revival in Egypt through the lens of the performing arts She highlights the narratives of celebrities who retired in the 1980s and early 1990s including their spiritual journeys and their influence on the pietization of their fans among whom are the wealthy relatively secular strata of Egyptian society Van Nieuwkerk then turns to the emergence of a polemic public sphere in which secularists and Islamists debated Islam art and gender in the 1990s Finally she analyzes the Islamist project of art with a mission and the development of Islamic aesthetics questioning whether the outcome has been to Islamize popular art or rather to popularize Islam The result is an intimate thirty year history of two spheres that have tremendous importance for Egypt art production and piety

**Follow Me to Freedom** Shane Claiborne, 2010-10 Followers of Christ yearn to see the world changed in compassionate positive effective ways As prophetic voices Shane Claiborne and John Perkins lead the way in this move to be the hands feet and heart of Jesus One is young the other is decades older One is a self proclaimed reformed redneck who grew up in the hills of Tennessee and now lives in inner city Philadelphia the other is an African American civil rights leader who was almost beaten to death by police in Mississippi and went on to found a reconciliation movement and counsel three American presidents Claiborne and Perkins draw on more than a century of combined following and learning activating and leading Together they craft a timely message for ordinary people willing to take radical steps to see real change happen They start with Moses as a model and proceed to re imagine the roles of leading and following in a world desperate for freedom

*Rethinking Secularism* Craig Calhoun, Mark Juergensmeyer, Jonathan VanAntwerpen, 2011-08-12 This collection of essays presents groundbreaking work from an interdisciplinary group of leading theorists and scholars representing the fields of history philosophy political science sociology and anthropology The volume will introduce readers to some of the most compelling new conceptual and theoretical understandings of secularism and the secular while also examining socio political trends involving the

relationship between the religious and the secular from a variety of locations across the globe In recent decades the public has become increasingly aware of the important role religious commitments play in the cultural social and political dynamics of domestic and world affairs This so called resurgence of religion in the public sphere has elicited a wide array of responses including vehement opposition to the very idea that religious reasons should ever have a right to expression in public political debate The current global landscape forces scholars to reconsider not only once predominant understandings of secularization but also the definition and implications of secular assumptions and secularist positions The notion that there is no singular secularism but rather a range of multiple secularisms is one of many emerging efforts to reconceptualize the meanings of religion and the secular Rethinking Secularism surveys these efforts and helps to reframe discussions of religion in the social sciences by drawing attention to the central issue of how the secular is constituted and understood It provides valuable insight into how new understandings of secularism and religion shape analytic perspectives in the social sciences politics and international affairs

**India, Europe and the Question of Cultural Difference** D. Venkat Rao, 2021-07-29

This volume critically engages with the question of cultural difference and the idea of living with diversity in the context of India and Europe It looks at certain essential European categories of learning such as art nature the human literature relation philosophy and the humanities and analyses texts from Sanskrit language through Telugu resources to argue that categories like prakriti loka jati dharma karma sahitya kala etc cannot be conflated with conceptual formations such as nature world caste religion sanctioned action literature and art respectively The book questions and unravels the efficacy of European concepts theories and interpretive frames in understanding Indian reflective traditions and cultural forms It also lays the groundwork for reorienting teaching and research in universities in the humanities on the basis of key cultural differences By focusing on major themes in the humanities discourse and their limitations the work engages with the writings of Heidegger Derrida and Agamben among others from radically new vantage points of Sanskrit Indian reflective traditions and challenges prevailing ideas about Indian art literature and culture Part of the Critical Humanities Across Cultures series this book will be an essential read for scholars and researchers of Indian languages and literature comparative literature art and aesthetics postcolonial studies cultural and heritage studies philosophy political philosophy comparative philosophy Sanskrit studies India studies South Asian studies Global South studies and for those working on education in the humanities human sciences
