Securing Borders Detention And Deportation In Canada:

Securing Borders Anna Pratt, 2005 Anna Pratt takes a close look at the laws policies and practices of detention and deportation in Canada since the Second World War She demonstrates that although the desire to fortify the border against risky outsiders has long been prominent in Canadian immigration penalty the degree to which concerns about security crime and fraud have come to govern the process is unprecedented Securing Borders traces the connections between seemingly disparate concerns detention deportation liberalism law discretion welfare criminal justice refugees security and risk to consider them in relation to the changing modes of Canadian governance **Policy Change, Courts, and the Canadian**

Multidisciplinary in its approach to examining policy issues this book focuses on specific cases or policy issues through a wide ranging set of approaches including the use of interview data policy analysis historical and interpretive analysis and jurisprudential analysis Canadian Liberalism and the Politics of Border Control, 1867-1967 Christopher G.

Anderson, 2012-11-10 With restrictive immigration policies increased interdiction and the detention of asylum seekers it is clear that Canada's approach to border control has shifted in recent years Yet such practices are just the latest in a long and complex national history Canadian Liberalism and the Politics of Border Control sheds light on the first century of Canada's efforts to control its borders framing pivotal moments within a long standing but often overlooked debate over the rights of non citizens Anderson provides valuable insights into contemporary liberal democratic control by demonstrating that today's more restrictive approach reflects traditions deeply embedded within liberal democracies *Detaining the Immigrant Other*

Globalisation and Migration Ronaldo Munck,2013-09-13 This book critically examines the new issues and new politics regarding migration in the era of globalisation from a majority world perspective It examines the current shifts in the global political economy and the effects it has for example in relation to rural displacement When and how does this lead to national and or transnational migration We need to examine the ways in which migration is cut across and impacts on the generation of racism and xenophobia in the west The issue of remittances by migrants to the developing nations needs careful study as does the controversial issue of brain drain versus brain gain through migration The growing importance of trafficking for forced labour has now been taken up by various international bodies but is it the new normality or simply an unfortunate side effect of globalisation to be overcome through legislation Migration is becoming increasingly gendered in its composition and flows but also in the receiving countries where men and women do very different jobs We can predict the increasing racialization and gendering of migration but how will the state and society respond to these shifts This book was published as a special issue of Third World Quarterly
