Securities For Bankers Advances His The Law And Practice Of Banking V :

An Analytical Digest of the Law and Practice of the Courts of Common Law, Divorce, Probate, Admiralty and Bankruptcy, and of the High Court of Justice and the Court of Appeal of England Ephraim Arnold Jacob, Robert Alexander Fisher, 1883

The Law of Ship Mortgages David Osborne, Charles Buss, Joanne Champkins, 2024-08-26 This fully updated and comprehensive 3rd edition of *The Law of Ship Mortgages* provides readers with a practical commercially based and definitive guide to the English law of ship mortgages. The authors, being seasoned practitioners, bring their extensive experience to bear on a number of difficult and developing areas of the law such as mortgagees' duties, liability to charterers, the conflict of laws, work outs, restructurings and cross border insolvency. The 3rd edition includes new chapters on pre-delivery security, security over shares and on the increasingly important topic of ship leasing as a method of finance. It is written against the background of and has regard to ever increasing sanctions affecting shipping and ship finance as well as the continued regulatory and industry driven push towards reduction of emissions IMO 2020 and IMO 2050. Written primarily with practitioners in mind, *The Law of Ship Mortgages* will continue to be extremely useful to legal professionals especially in common law jurisdictions involved in international ship finance or ship mortgage enforcement. It will also be a valuable resource for postgraduate students and academics especially those with an interest in shipping law or the law of personal property more generally.

Secured Finance Law in China and Hong Kong Mark Williams, Haitian Lu, Chin Aun Ong, 2010-10-14 This book examines systematically the current systems of secured lending in China and Hong Kong where companies or individuals offer personal property as security for credit advanced by a lender. Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower. However the Hong Kong system, being largely derived from English law, is highly complex and in need of root and branch reform. The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered. In China, on the other hand, a completely new system has been created in the last twenty years which, whilst it has various problems and defects, has some
