

The book cover features a dark, atmospheric photograph of a city at night. In the background, several tall, illuminated skyscrapers rise against a deep blue sky. In the foreground, a bridge or highway is visible, with blurred streaks of red and white light from moving vehicles, suggesting a long-exposure shot. The overall mood is urban and contemplative.

Utopias and Architecture Nathaniel Coleman, 2007-05-07 Utopian thought though commonly characterized as projecting a future without a past depends on golden models for re invention of what is Through a detailed and innovative re assessment of the work of three architects who sought to represent a utopian content in their work and a consideration of the thoughts of a range of leading writers Coleman offers the reader a unique perspective of idealism in architectural design With unparalleled depth and focus of vision on the work of Le Corbusier Louis I Kahn and Aldo van Eyck this book persuasively challenges predominant assumptions in current architectural discourse forging a new approach to the invention of welcoming built environments and transcending the limitations of both the postmodern and hyper modern stance and orthodox modernist architecture Siena Fabrizio Nevola, 2007-01-01 Weaving together social political economic and architectural history this book explores the role of key patrons in Siena s urban projects including Pope Pius II Piccolomini and his family and the quasi despot Pandolfo Petrucci Blueprint for Reconstruction Vincent Frank Bedogne, 2010-04-14 Inspired by a vision of soaring towers high speed transit cars pristine skies and blossoming gardens we move beyond today s automobile based urban model and embrace a design where the freedom of the individual is paramount and the human energy that defines city life flows unimpeded within an urban matrix engineered to allow for its highest expression Author Vincent Frank Bedogne drafts a blueprint for what humanity s Evolution of Consciousness and adoption of Economics of Fulfillment make it possible to achieve perfection of life on earth We draw a plan for reconstruction of the earth s urban and ecological infrastructure the city of tomorrow the countryside of tomorrow how we will get around and communicate We embrace a new environmentalism explore future sources of energy reveal the solution to humanity s present energy crisis and look at how we will build to withstand the climatic rigors imposed by a biosphere in evolution **Discourse and Crisis**

Antoon De Rycker,Zuraidah Mohd Don,2013-12-15 Discourse and Crisis Critical perspectives brings together an exciting collection of studies into crisis as text and context as unfolding process and unresolved problem Crisis is viewed as a complex phenomenon that in its prevalence disruptiveness and appearance of inevitability is both socially produced and discursively constituted The book offers multiple critical perspectives in depth linguistically informed analyses of the discourses of power and collaboration implicated in crisis construal and recovery detailed examination of the critical role that language plays during the crisis life cycle and further problematization of the semiotic material complexity of crisis and its usefulness as an analytical concept The research focus is on the discursive and interactive mediation of crisis in organizational political and media texts The volume contains contributions from across the world offering a polyphonic overview of discourse and crisis research This impressive volume will be useful to researchers and academics working on the intersection of crisis language and communication It is also of interest to practitioners in organizational management politics and policy and media

Cities in the World: 1500-2000: v. 3 Adrian Green,2018-12-13 Papers presented at the Cities in the World conference held at Southampton University and organised through the Society for Post Medieval Archaeology challenged the commonly held perception that cities are about the present and the future not about the past All cities have an innate sense of the past and this volume encompassing as it does

Tragic Views of the Human Condition Lourens Minnema,2013-06-06 Can tragic views of the human condition as known to Westerners through Greek and Shakespearean tragedy be identified outside European culture in the Indian culture of Hindu epic drama In what respects can the Mahabharata epic s and the Bhagavadgita s views of the human condition be called tragic in the Greek and Shakespearean senses of the word Tragic views of the human condition are primarily embedded in stories Only afterwards are these views expounded in theories of tragedy and in philosophical anthropologies Minnema identifies these embedded views of human nature by discussing the ways in which tragic stories raise a variety of anthropological issues issues such as coping with evil suffering war death values power sacrifice ritual communication gender honour injustice knowledge fate freedom Each chapter represents one cluster of tragic issues that are explored in terms of their particular Greek English Indian settings before being compared cross culturally In the end the underlying question is are Indian views of the human condition very different from Western views

Utopia(s) - Worlds and Frontiers of the Imaginary Maria do Rosário Monteiro,Mário S. Ming Kong,Maria João Pereira Neto,2016-11-03 The idea of Utopia springs from a natural desire of transformation of evolution pertaining to humankind and therefore one can find expressions of utopian desire in every civilization Having to do explicitly with human condition Utopia accompanies closely cultural evolution almost as a symbiotic organism Maintaining its roots deeply attached to ancient myths utopian expression followed and sometimes preceded cultural transformation Through the next almost five hundred pages virtually one for each year since Utopia was published researchers in the fields of Architecture and Urbanism Arts and Humanities present the results of their studies within the different areas of expertise under the umbrella of Utopia

Past present and future come together in one book They do not offer their readers any golden key Many questions will remain unanswered as they should The texts presented in *Proportion Harmonies and Identities UTOPIA S WORLDS AND FRONTIERS OF THE IMAGINARY* were compiled with the intent to establish a platform for the presentation interaction and dissemination of researches It aims also to foster the awareness and discussion on the topics of Harmony and Proportion with a focus on different utopian visions and readings relevant to the arts sciences and humanities and their importance and benefits for the community at large

The Patina of Place Kingston Wm Heath,2001 In the late nineteenth and early twentieth centuries the booming textile industry turned many New England towns and villages into industrialized urban centers This rapid urbanization transformed not only the economic base but the regional identity of communities such as New Bedford as new housing forms emerged to accommodate the largely immigrant workforce of the mills

The Sites of Rome David H. J. Larmour,Diana Spencer,2007-11-01 Rome was a building site for much of its history a city continually reshaped and reconstituted in line with political and cultural change In later times the conjunction of ruins and rebuilding lent the cityscape a particularly fascinating character much exploited by artists and writers This layering and changing of vistas also finds expression in the literary tradition from classical times right up to the twenty first century This collection of essays offers glimpses sideways glances and unexpected angles that open up Rome in its widest possible sense and explores how the visible components of Rome the hills the Tiber the temples the Forums the Colosseum the statues and monuments operate as or become the sites sights of Rome The analyses are informed by contemporary critical thinking and draw on ancient historical narrative Roman poetry Renaissance literature and cartography art of the Grand Tour era Russian and Soviet interpretations and twentieth century cinema

The Form of Cities Alexander R. Cuthbert,2008-04-15 The Form of Cities offers readers a considered theoretical introduction to the art of designing cities Demonstrates that cities are replete with symbolic values collective memory association and conflict Proposes a new theoretical understanding of urban design based in political economy Demonstrates different ways of conceptualising the city whether through aesthetics or the prism of gender for example Written in an engaging and jargon free style but retains a sophisticated interpretative edge Complements *Designing Cities* by the same author Blackwell 2003

The Great Inversion and the Future of the American City Alan Ehrenhalt,2013-01-22 Eye opening and thoroughly engaging this is an indispensable look at American urban suburban society and its future In *The Great Inversion* Alan Ehrenhalt one of our leading urbanologists reveals how the roles of America s

cities and suburbs are changing places young adults and affluent retirees moving in while immigrants and the less affluent are moving out and addresses the implications of these shifts for the future of our society Ehrenhalt shows us how the commercial canyons of lower Manhattan are becoming residential neighborhoods and how mass transit has revitalized inner city communities in Chicago and Brooklyn He explains why car dominated cities like Phoenix and Charlotte have sought to build twenty first century downtowns from scratch while sprawling postwar suburbs are seeking to attract young people with their own form of urbanized experience

Twenty-First Century Urbanism Rob Sullivan,2017-09-04 This volume argues that the city cannot be captured by any one mode of analysis but instead is composed of the mobile relational efficient sentient and the phenomenological with all of them cast in new theoretical configurations and combined into one methodological entity Rather than focusing on any one city or abstract analytical model this book instead takes a multipronged theoretical and methodological approach to present the city as an intelligent affective organism a sentient being It proposes that cities operate on a relational mobile and phenomenological basis through the mode of efficiency calibrated by a profoundly complicated division of labor Its starting point is that the city is a mobile unit of analysis from its economic status to its demographic makeup from its cultural configuration to its environmental conditions and therefore easily evades our quantitative and qualitative methods of computation and comprehension Twenty First Century Urbanism provides planning and urban design academics and students with a multifaceted approach to understanding the development of cities encouraging the examination of cities through a myriad non linear approach

Visualizing the City Alan Marcus,Dietrich Neumann,2024-11-01 This anthology presents a range of interdisciplinary explorations into the urban environment through film photography digital imagery maps and signage Contributors examine our fascination with the city through the history of art and architecture urban studies environmental studies cultural geography and screen studies Bringing together a wide spectrum of urban contexts Visualizing the City s diverse essays explore visual representations of urbanism and modernity reflected through the prism of global cultures using an engaging variety of methods and texts

Big Plans Kenneth Kolson,2021-04-27 Similar in spirit to Lewis Mumford s The City in History and Jane Jacobs The Death and Life of Great American Cities wonderful funny idiosyncratic Frederick R Steiner author of The Living Landscape Big Plans The Allure and Folly of Urban Design springs from the idea that human aspirations for the city tend to overstate the role of rationality in public life Inspired by the architectural and urban criticism of such writers as Lewis Mumford Jane Jacobs and John Brinckerhoff Jackson Kolson adopts a user s perspective on issues of urban design an approach that highlights both the futility of social engineering and the resilience of the human spirit A book that should be read by all those people and there seem to be more of them as week chases week who are thinking about the fate of lower Manhattan right now Bloomberg News Kenneth Kolson has lots of material Some of what s been built in cities lately is astonishing and not in a good way The Boston Globe Kolson is a passionate critic of urban schemes with well founded skepticism about the role

rationality has played in designing them Journal of the Society of Architectural Historians A fascinating read about the utopian goal of Big Plans and the dystopian reality of lived experience Design Issues

A Short History of British Architecture Simon Jenkins, 2024-11-07 Provocative elegant intriguing Jenkins is a bold imaginative writer brilliant at challenging old assumptions and encouraging you to look at British architecture in a new light Rory Stewart The story of Britain is revealed through its buildings and yet the language of architecture is a mystery to all but a few In this enlightening history spanning castles and cathedrals to factories and railway stations Jenkins translates the hidden narratives infused in the facades we walk past every day Britain's history has been formed by its politics religion and society and these influences can be seen in the architectural styles that have shaped its landscape From pre Roman and the Middle Ages to the Renaissance and the Industrial Revolution Classical and Gothic styles surged and retreated from favour only to then be challenged by a new player Modernism a style that reflected the stunning technological advances of the second half of the twentieth century In this narrative history Simon Jenkins the bestselling champion of our national heritage introduces us to the singular eccentric and sometimes rather ordinary characters who shaped Britain Jenkins teaches readers to see the world anew demystifying the elitist language of architecture so that we can all appreciate the buildings around us
