Willing Seduction Barbara Kosta, 2012 This fascinating cultural history of The blue angel provides a new interpretive framework with which to approach this classic Weimar film and suggests that discourses on mass and high culture are integral to the film's thematic and narrative structure These discourses surface in the relationship between the two main characters the cabaret entertainer Lola Lola Marlene Dietrich and the high school teacher Immanuel Rath one time Oscar winner Emil Jannings In addition to offering insight into some of the major debates that informed the Weimar Republic this book also demonstrates how similar issues continue to shape the contemporary cultural landscape of Germany where Dietrich serves as a cultural icon whose symbolic value has contributed significantly to nation building since German unification rear cover

Haunted Texts William Evan Fredeman, 2003-01-01 Begun by young rebels committed to revolutionizing the creative arts Pre Raphaelitism has moved from the margins of nineteenth century art and literature to the vanguard of interdisciplinary studies The term is now used to denote the Pre Raphaelite Aesthetic and Decadent movements in art culture and literature but it has remained as difficult to define as ever *Haunted Texts* attempts to meet the challenge of defining and illustrating the full spectrum of Pre Raphaelitism Working with a diverse range of Pre Raphaelite poetry painting decorative arts book illustration and political prose the ten contributors to *Haunted Texts* pursue the critical

strategies of such leading figures as Christina Rossetti and Dante Rossetti William Morris and Oscar Wilde Walter Pater and Aubrey Beardsley The essays consider the bibliocritical issues of archival research concerning the personal letters and diaries of the Rossetti family the technological issues that challenge conventional methods of scholarship the gender issues concerning constructions of identity derived from the changing conceptions of love desire anxiety and brotherhood and the interdisciplinary cultural issues that transgress the borders of high art and popular culture Haunted Texts pays tribute to the scholarship of Professor William Fredeman who devoted much of his career since the 1950s to establishing a critical foundation that would enable future scholars to define their understanding of the complexity of Pre Raphaelitism *The Reformation of the Image* Joseph Leo Koerner, 2004-05-03 With his 95 Theses Martin Luther advanced the radical notion that all Christians could enjoy a direct personal relationship with God shattering years of Catholic tradition and obviating the need for intermediaries like priests and saints between the individual believer and God The text of the Bible the Word of God itself Luther argued revealed the only true path to salvation not priestly ritual and saintly iconography But if words not iconic images showed the way to salvation why didn't religious imagery during the Reformation disappear along with indulgences The answer according to Joseph Leo Koerner lies in the paradoxical nature of Protestant religious imagery itself which is at once both iconic and iconoclastic Koerner masterfully demonstrates this point not only with a multitude of Lutheran images many never before published but also with a close reading of a single pivotal work Lucas Cranach the Elder's altarpiece for the City Church in Wittenberg Luther's parish As Koerner shows Cranach breaking all the conventions of traditional Catholic iconography created an entirely new aesthetic for the new Protestant ethos In the Crucifixion scene of the altarpiece for instance Christ is alone and stripped of all his usual attendants no Virgin Mary no John the Baptist no Mary Magdalene with nothing separating him from Luther preaching the Word and his parishioners And while the Holy Spirit is nowhere to be seen representation of the divine being impossible it is nonetheless dramatically present as the force animating Christ's drapery According to Koerner it is this iconoclasm that animates the best Reformation art Insightful and breathtakingly original *The Reformation of the Image* compellingly shows how visual art became indispensable to a religious movement built on words

Imagining Jewish Authenticity Ken Koltun-Fromm, 2015-01-28 Exploring how visual media presents claims to Jewish authenticity *Imagining Jewish Authenticity* argues that Jews imagine themselves and their place within America by appealing to a graphic sensibility Ken Koltun-Fromm traces how American Jewish thinkers capture Jewish authenticity and lingering fears of inauthenticity in and through visual discourse and opens up the subtle connections between visual expectations cultural knowledge racial belonging embodied identity and the ways images and texts work together **AIDS Narratives** Steven F. Kruger, 2013-10-28 This is the first book length study of the rich fiction that has emerged from the AIDS crisis Examining first the ways in which scientific discourse on AIDS has reflected ideologies of gender and sexuality such as the construction of AIDS as a disease of gay men part of a battle over masculinity and thus largely excluding women with AIDS

from public attention the book considers how such discourses have shaped narrative understandings of AIDS On the one hand AIDS is seen as an invariably fatal weakening of an individual's bodily defenses a depiction often used to reconfirm an identification between disease and a weak and vulnerable gayness On the other hand AIDS is understood in terms of an epidemic attributable to gay immorality or unnaturalness The fiction of AIDS depends upon these two narratives with one major subgenre of AIDS novel presenting narratives of personal illness decline and death and a second focusing on epidemic spread These novels also question the narrative structures upon which they depend intervening particularly against the homophobia of those structures though also sometimes reinforcing it

Raj Rhapsodies: Tourism, Heritage and the Seduction of History Maxine Weisgrau, Carol Henderson, 2016-03-23 Heritage is a prized cultural commodity in the marketing of tourism destinations Particular aspects of heritage are often more actively

promoted with others played down The representation of heritage in tourism as static and timeless derived since time immemorial from a distant past is seductive In Asia a major part of the tourism market lies in the sale and consumption of highly orientalized images and versions of culture and history In India s marketing discourse the state of Rajasthan symbolizes the nation in its heritage laden traditional and most authentic form These images draw heavily on the British period in India the Raj In one sense this vision of Rajasthan is ennobling highlighting moments of cultural pride In another sense it demeans by omitting and obscuring salient features of contemporary life This fascinating book explores the cultural politics of tourism through interdisciplinary perspectives Carol E Henderson and Maxine Weisgrau demonstrate that tourism heritage privileges elite histories that recapitulate colonial relationships compelling non elites to collude in these narratives of subordination even as they advance their own alternative visions of history
