Seeing And Consciousness Women Class And Representation:

Seeing and Consciousness Gen Doy, 1995-04-06 Through its provocative examination of feminist and Marxist approaches to women's art and female representations this book challenges the widespread belief that Marxism has nothing valuable to contribute to women's studies The author argues that from the French Revolution through to the present gender and class have shaped visual imagery She shows how Marxist theory can function to question some of the premises of feminist art histories and to provide a more accurate understanding of the meanings of visual imagery

Art and the Academy in the Nineteenth Century Rafael Cardoso Denis, Colin Trodd, 2000 Throughout the nineteenth century academies functioned as the main venues for the teaching promotion and display of art Contemporary

scholars have for the most part denigrated academic art calling it formulaic unoriginal and repetitious The contributors to Art and the Academy in the Nineteenth Century challenge this entrenched notion and consider how academies worldwide have represented an important system of artistic preservation and transmission Their essays eschew easy binaries that have reigned in academia for more than half a century and that simply oppose the avant garde to academicism Gender, Space, and the Gaze in Post-Haussmann Visual Culture Temma Balducci,2017-03-27 Relying on a range of visual and written sources Gender Space and the Gaze offers fresh ways of considering how masculinity and femininity were lived in late nineteenth century Paris The book moves beyond shopworn dichotomies rooted in Baudelaire s The Painter of Modern Life 1863 that have shaped scholarship on this period The Gender of Photography Nicole Hudgins,2020-09-02 It would be unthinkable now to omit early female pioneers from any survey of photography s history in the Western world Yet for many years the gendered language of American British and French photographic literature made it appear that women s interactions with early photography did not count as significant contributions Using French and English photo journals cartoons art criticism novels and early career guides aimed at women this volume will show why and how early photographic clubs journals exhibitions and studios insisted on masculine values and authority and how Victorian women engaged with photography despite that dominant trend Focusing on the period before 1890 when women were yet to develop the self assurance that would lead to broader recognition of the value of their work this study probes the mechanisms by which exclusion took place and explores how women practiced photography anyway both as amateurs and professionals Challenging the marginalization of women s work in the early history of photography this is essential reading for students and scholars of photography history and gender studies Professional Women Painters in Nineteenth-Century Scotland Janice Helland,2019-06-11 This title was first published in 2000 Women in the 19th century have long been presented as the angel in the house The author rewrites this history by investigating the life and working conditions of a number of middle class women who sought to establish themselves as professional artists in Scotland Contrary to the orthodox view preoccupied with oppression and difficulty the author demonstrates that women artists of the period were independent producers teachers and travellers alert to changes in taste and fashion They derived great pleasure from their work and enjoyed the benefits of women working together forming their own and joining existing professional associations The book is not biographical but elaborates on the life and working conditions of middle class artists by discussing their work in terms of economic and social history

Gender Space Architecture Iain Borden,Barbara Penner,Jane Rendell,2002-09-11 This significant reader brings together for the first time the most important essays concerning the intersecting subjects of gender space and architecture Carefully structured and with numerous introductory essays it guides the reader through theoretical and multi disciplinary texts to direct considerations of gender in relation to particular architectural sites projects and ideas This collection marks a seminal point in gender and architecture both summarizing core debates and pointing toward new directions and discussions

for the future **Drapery** Gen Doy, 2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud's Gravidia Clerambault's writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo's wrapped Reichstag to the impact of the modern women's movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery's connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death New Literature on Women, 1995 Visual Culture John A. Walker, Sarah Chaplin, 1997-12-15 This book is about the expanding realm of visual culture in architecture art design advertising photography film television video theatre performance computer imagery and virtual reality It is also about Visual Culture Studies a relatively new academic discipline or rather range of disciplines that scholars employ to analyse visual artefacts Unlike many other texts on the same subject it foregrounds the visual and is systematic and accessible Visual culture provides an overview of the subject that pays heed to the achievements of both traditional and new theory whilst directing the reader to a large body of literature via references and an extensive bibliography Walker and Chaplin discuss the concepts of the visual and of culture as well as the field and origins of Visual Culture Studies coping with theory models of production and consumption institutions pleasure the canon and concepts of value visual literacy and poetics modes of analysis culture and commerce and new technologies This book is designed for those studying the history and theory of fine arts design and the mass media The Neoliberal Undead Marc James Léger, 2013-05-31 The Neoliberal Undead describes the frightening world of class restoration neoliberal austerity ecological meltdown and neo imperialism a disaster capitalism that breeds mutant ideological justifications for itself and the inevitability of disorder poverty and suffering What role does culture play in this world of markets and how do new contestatory forms enable a leftist solidarity that can move cultural radicalism beyond the postmodern obsession with new subjectivities Rather than become the symptoms of democratic materialism signing up for endless culture wars The Neoliberal Undead argues for a rethinking of radical cultural leftism against the terms of the dominant global situation The relentless reduction of art criticism and art production under capitalist relations requires that the living separate themselves from the abstractions of globalization and reconnect with revolutionary theory **Women and Visual Culture in Nineteenth-century France, 1800-1852** Gen Doy, 1998 This book examines the relationship of class gender and race to visual culture in early nineteenth century France Drawing extensively on contemporary sources the author looks at the work of women artists women art critics and writers to demonstrate that many of the assumptions about female invisibility and objectification in bourgeois culture and society need serious reconsideration The first half of the nineteenth century was a complex and contradictory period in the formation and contestation of bourgeois ideologies of the feminine Women though at a serious disadvantage became visible as artists critics and patrons and were not merely invisible domesticated or constructed by forces outside their control Women artists such as

Angelique Mongez painted heroic neo classical nudes while many named and anonymous women wrote art criticism articulating their views as female spectators Doy also examines notions of appropriate work for women in relation to landscape genre sculpture and the emergence of Realism Of particular interest is the discussion of the representation of black women during this period when Fren *Men Who Believe in Feminism* Amanda Goldrick-Jones,2002-11-30 Despite popular misconceptions some men do believe in feminism and support the feminist movement Since the 1970s supportive men in North America Britain and Australia have published magazines formed anti sexism organizations and worked on a variety of feminist inspired projects IMen Who Believe in Feminism R examines and recounts the motives and strategies the successes and failures and the challenges and triumphs of those men who have worked to support the feminist movement combat sexism and convey profeminist messages to different audiences This timely and unique book invites readers interested in the future of gender relations to learn more about men s involvement and activism in redressing gender based inequality Profeminist men s groups have been responsible for many successful anti sexist campaigns and have often gained the support of feminist women But they have also faced a number of challenges from various constituencies The author describes reactions from anti feminists radical gay men skeptical feminists and others who question the profeminists motives and accountability Still while profeminist organizations struggle and sometimes fail to overcome the challenges they face the author contends that many men continue to believe in and support feminism and that it is the role of feminist groups and other interested women s programs to encourage profeminist activism support men in their efforts to convey their profeminist message and advocate the ongoing participation of men in the crusade for gender equality **Women Watching Television** Andrea L. Press,1991-03 Women s inclinations to identify with television characters varies with their assessment of the realism of these characters and their social world **Making Globalization Work for Women** Valentine M. Moghadam,Suzanne Franzway,Mary Margaret Fonow,2011-11-01 Explores the potential for trade unions to defend the socioeconomic rights of women Making Globalization Work for Women explores the potential for trade unions to defend the socioeconomic rights of women in a global context Looking at labor policies and interviews with people in unions and nongovernmental organizations the essays diagnose the problems faced by women workers across the world and assess the progress that unions in various countries have made in responding to those problems Some concerns addressed include the masculine culture of many unions and the challenges of female leadership within them laissez faire governance and the limited success of organizations working on these issues globally Making Globalization Work for Women brings together in a synthetic and fruitful conversation the work and ideas of feminists unions NGOs and other human rights workers Making Globalization Work for Women is an illuminating timely and original collaboration among three prominent scholars that fills an important and missing niche in studies of transnational activism global employment policy and women s work Dorothy Sue Cobble author of *The Other Women s Movement Workplace Justice and Social Rights in Modern America* *Work, Women*
