Being Text of a Keynote Address Delivered by HE Dr Kayode Fayemi, CON, at the Conference on Redesigning Democracy Held at the University of Oxford on Thursday 20 October, 2022.

## **Protocols**

Let me first and foremost thank the organisers of this conference for the kind invitation extended to me to be part of the proceedings. In effect, this will be my first substantive engagement in the few days since I handed over the baton of leadership in Ekiti State and the Nigeria Governors' Forum. Although much more time is needed for me to process the totality of my experience for the purpose of informing our collective understanding of power and politics in contemporary Nigeria, and despite my urgent personal need for a quality holiday, I welcomed your invitation as an early opportunity to contribute to ongoing reflections about the need to rethink democracy generally and, more specifically, our framing of alternatives in the administration of public affairs in Nigeria and, indeed, around the world.

My point of departure is to suggest that while there is no doubt that alternatives are a necessary, and even an inevitable component, of any living political system, it is important that as scholars and practitioners, we strive also at all times to demystify them from the excessive air of drama and circumstance in which they tend to be wrapped in scholarly discourses. This is for the simple reason that alternatives exist and are mobilised everyday and at all levels as part of our experiences of governance. In other words, alternatives, understood generally as encompassing forward-looking vision and practice that depart from a dominant but problematic and/or contested norm, are an integral part of everyday politics - and, indeed, all spheres of human endeavour.

Although they are fired by an admixture of vision, passion, and necessity, and, in highly repressive political contexts, would require to be pursued with courage and sacrifice, alternatives are also played out simultaneously at multiple levels - micro, meso, and macro. Additionally, they are carried by different actors - big and small, formal and informal, and domestic and external. Alternatives also manifest and are

Bauman, 2009-11-18 Rather than contributing to the long standing discussion about the characteristics of the society that  
socialism proposes to establish this Routledge Revival initially published in 1976 aims to explore the impact of the living  
utopia of socialism on the development of modern society It begins with an analysis of the role of utopia in general and of the  
socialist utopia in particular Bauman considers the opposition between utopian and scientific social thought He presents  
socialism as the counter culture of capitalist society The book finally examines the reasons for the failure of socialism in its  
application to the peasant revolution in Russia It then explores some possible forms that the socialist utopia might take in the  
industrial societies of the late twentieth century Professor Bauman writes for those who want to understand the logic of the  
historical fate of socialism in the present century who are concerned about the validity and vitality of socialist ideas on the

Keynesian policies while others did not At a time of growing interest in comparative public policy making they examine the central issue of how and why particular ideas acquire influence over policy and politics Based on three years of collaborative research for the Social Science Research Council the volume takes up central themes in contemporary economics political science and history The contributors are Christopher S Allen Marcello de Cecco Peter Alexis Gourevitch Eleanor M Hadley Peter A Hall Albert O Hirschman Harold James Bradford A Lee Jukka Pekkarinen Pierre Rosanvallon Walter S Salant Margaret Weir and Donald Winch

**Alternative Leadership Strategies in the Prehispanic Southwest** Barbara J. Mills, 2015-09-01 In considerations of societal change the application of classic evolutionary schemes to prehistoric southwestern peoples has always been problematic for scholars Because recent theoretical developments point toward more variation in the scale hierarchy and degree of centralization of complex societies this book takes a fresh look at southwestern prehistory with these new ideas in mind This is the first book length work to apply new theories of social organization and leadership strategies to the prehispanic Southwest It examines leadership strategies in a number of archaeological contexts from Chaco Canyon to Casas Grandes from Hohokam to Zuni to show striking differences in the way that leadership was constructed across the region These case studies provide ample evidence

for alternative models of leadership in middle range societies By illustrating complementary approaches in the study of political organization they offer new insight into power and inequality They also provide important models of how today s archaeologists are linking data to theory providing a basis for comparative analysis with other regions

Challenging the Politics of Early Intervention Gillies, Val, Edwards, Rosalind, Nicola Horsley, 2017-08-23

So often the ills of society are blamed on negligent parenting leading to the development of social service policies built around the concept of early intervention Interrogating this concept this book explores the history of our understanding of children family and parenting and its implications for society With a particular focus on the intersection of brain science and social policy the authors challenge our long held consensus on early intervention Accessibly written and highly topical Challenging the Politics of Early Intervention is a comprehensive and critical essay of our contemporary belief that so called bad parents raise substandard future citizens unfit for the new capitalism

**Alternative Media and Politics of Resistance** Joshua D. Atkinson, 2010 Scholars of journalism and media studies have illustrated the production of alternative media as a means for activists to generate dissent while communication scholars have examined activists performances and image events as challenges to dominant power structures The approaches of both fields have contributed to academic understanding of social movements in modern society but until now their findings have emerged separate from one another This book brings together both lines of research and demonstrates the role of alternative media in the performance of resistance against power structures by contemporary activists Specifically the book explores the role of alternative media in the establishment of activist networks in local communities the role of alternative media in the construction of strategies of resistance by networked activists and the role of interactivity between local and global networks in production of alternative media content The book is suitable for undergraduate and graduate courses concerning social movements within the fields of communication media and journalism
