APPALACHIAN LEAGUE BASEBALL Allen LaMountain,2014-07 Baseball the very word brings to mind summer days a feeling of youthful exuberance and rebirth Baseball is nostalgic in its essence and I hope that I have captured that feeling in this book the stories of the rise of many young hopeful ballplayers who had the talent and drive to make it to the big leagues and in some cases rise to the very pinnacle of success is what prompted me to write their stories Over the years of my stint covering the Appalachian League I witnessed a great many players make it to The Show If you are a fan of baseball as I am you will enjoy discovering the history of this talent rich league as well as the biographies of the players and managers who passed through the Appy League on their way up the ladder I hope you enjoy reading this book as much as I did writing it

I Have Seen the Future Peter Hartshorn,2012-01-10 At the dawn of the twentieth century Lincoln Steffens an internationally known and respected political insider went rogue to work for McClure s Magazine Credited as the proverbial father of muckraking reporting Steffens quickly rose to the top of McClure s team of investigative journalists earning him the attention of many powerful politicians who utilized his knack for tireless probing to battle government corruption and greedy politicians A mentor of Walter Lippmann friend of Theodore Roosevelt and advisor of Woodrow Wilson Steffens is best known for bringing to light the Mexican Revolution the 1910 bombing of the Los Angeles Times and the Versailles peace talks Now with print journalism and investigative reporters on the decline Lincoln Steffens biography serves as a necessary call to arms for the newspaper industry Hartshorn s extensive research captures each detail of Steffens life from his private letters to friends to his long and colorful career and delves into the ongoing internal struggle between his personal life and his overpowering devotion to the cause *International Stereotypers' and Electrotypers' Union Journal* ,1927 Reinventing Local and Regional Economies Gerald L. Gordon,2011-09-28 Recent US economic history is rife with examples of cities and regions that have experienced significant decline Many of those localities began to slide after decades even generations of feeling immune to economic disaster Boeing and Kodak the steel industry in Pittsburg and the automotive industry in Detroit all expected to make it golden in *After the Factory* James J. Connolly,2010-10-14 The most pressing question facing the small and mid sized cities of America s industrial heartland is how to reinvent themselves Once thriving communities in the Northeastern and Midwestern U S have decayed sharply as the high wage manufacturing jobs that provided the foundation for their prosperity disappeared A few larger cities had the resources to adjust but most smaller places that relied on factory work have struggled to do so Unless and until they find new economic roles for themselves the small cities will continue to decline Reinventing these smaller cities is a tall order A few might still function as nodes of industrial production But landing a foreign owned auto manufacturer or a green energy plant hardly solves every problem The new jobs will not be unionized and thus will not pay nearly as much as the positions lost The competition among localities for high tech and knowledge economy firms is intense Decaying towns with poor schools and few amenities are hardly in a good position to attract the creative class workers they need Getting to the point where they can lure such companies will require extensive retooling not

just economically but in terms of their built environment cultural character political economy and demographic mix Such changes often run counter to the historical currents that defined these places as factory towns After the Factory examines the fate of industrial small cities from a variety of angles It includes essays from a variety of disciplines that consider the sources and character of economic growth in small cities They delve into the history of industrial small cities explore the strategies that some have adopted and propose new tacks for these communities as they struggle to move forward in the twenty first century Together they constitute a unique look at an important and understudied dimension of urban studies and globalization Seeing Pittsburgh Seeing Pittsburgh (Project),Rivers of Steel National Heritage Area (Pa.),2008-07-01
