Building the Caliphate Jennifer A. Pruitt,2020-01-01 A riveting exploration of how the Fatimid dynasty carefully orchestrated an architectural program that proclaimed their legitimacy This groundbreaking study investigates the early architecture of the Fatimids an Ismaili Shi i Muslim dynasty that dominated the Mediterranean world from the 10th to the 12th century This period considered a golden age of multicultural and interfaith tolerance witnessed the construction of iconic structures including Cairo s al Azhar and al Hakim mosques and crucial renovations to Jerusalem s Dome of the Rock and Aqsa Mosque However it also featured large scale destruction of churches under the notorious reign of al Hakim bi Amr

Allah most notably the Church of the Holy Sepulcher in Jerusalem Jennifer A Pruitt offers a new interpretation of these and other key moments in the history of Islamic architecture using newly available medieval primary sources by Ismaili writers and rarely considered Arabic Christian sources Building the Caliphate contextualizes early Fatimid architecture within the wider Mediterranean and Islamic world and demonstrates how rulers manipulated architectural form and urban topographies to express political legitimacy on a global stage

See MIPS Run Dominic Sweetman,2010-07-08 See MIPS Run Second Edition is not only a thorough update of the first edition it is also a marriage of the best known RISC architecture MIPS with the best known open source OS Linux The first part of the book begins with MIPS design principles and then describes the MIPS instruction set and programmers resources It uses the MIPS32 standard as a baseline the 1st edition used the R3000 from which to compare all other versions of the architecture and assumes that MIPS64 is the main option The second part is a significant change from the first edition It provides concrete examples of operating system low level code by using Linux as the example operating system It describes how Linux is built on the foundations the MIPS hardware provides and summarizes the Linux application environment describing the libraries kernel device drivers and CPU specific code It then digs deep into application code and library support protection and memory management interrupts in the Linux kernel and multiprocessor Linux Sweetman has revised his best selling MIPS bible for MIPS programmers embedded systems designers developers and programmers who need an in depth understanding of the MIPS architecture and specific guidance for writing software for MIPS based systems which are increasingly Linux based Completely new material offers the best explanation available on how Linux runs on real hardware Provides a complete updated and easy to use guide to the MIPS instruction set using the MIPS32 standard as the baseline architecture with the MIPS64 as the main option Retains the same engaging writing style that made the first edition so readable reflecting the authors 20 years experience in designing systems based on the MIPS architecture

The Function of Theory in Composition Studies Raul Sanchez,2012-02-01 How can theory improve our knowledge of writing Ra l S nchez answers this question by examining dominant theoretical trends in composition studies over the last fifteen years citing their common origins in a narrow representational metatheory of writing He argues that this adherence actually leads the field away from its objects of study writing and the writing subject Through this extended critique he elaborates an alternative metatheory one that restores writing to the conceptual center of composition studies by emphasizing its generative rather than its representational characteristics particularly in increasingly networked and textualized cultures
