**How to Fix Exploding Brains?** Ram Arora, 2009-11-11 All living organisms are like biological robots Their physical actions organic capabilities and senses are firmly and very narrowly limited and so programmed in the DNA Brain the master controller of the living system is as susceptible to external and internal stresses as all other bodily components The brain is also abode of the mind and the mind is the embodiment of thoughts The scientific observation that brain and mind die simultaneously is irrefutable Wherein the brain the mind parks itself is a mystery The brain is more intricate than the universe and the mind exceeds the brain in complexity Billions of neurons and trillions of synapses keep on firing acting reacting storing and communicating to and from sensory organs as long as the structure of the brain is not damaged diseased or dead Brain when overloaded with its electric charge due to intense mental activity can explode like a bomb Five people are known to have died when their brains blew up because of the condition called Hyper Cerebral Electrosis HCE The most recent death occurred when psychic Barbara Nicole's skull burst Chess Champion Nikolai Titov's head suddenly blew apart when he was concentrating on his move The brain endures many mini explosions without shattering HCE kills rarely but sickens very often All evil emotions cause stronger HCE than pleasant thoughts do

Reid, 2019-07-31 Go and visit Hell s dark door Without intention like the most A part you ve never seen before Alas Twas I who was the host     **We Are One** Helen Vandeman, 2002-03-29 People have sought Truth in many places and in every way imaginable Yet despite and because of all our external searching we have not learned the obvious that We are the Truth we are seeking and that the memory of who we are will satisfy all our other needs and desires We Are One Using Intuition to Awaken to Truth appeals to all people who have found that the achievement of health romance and success are not enough to inspire meaning in their lives and to health practitioners who now have very little time to know their patients The book s simple four step template can be used as effortlessly for making a decision as for experiencing God The reader will learn how to find their own truth within themselves check the veracity other people s information heal themselves and remove any blocks to living a fully authentic and spiritual life Written by Helen D Vandeman M Ed a dynamic speaker who has presented at conferences in the United States and abroad We Are One combines the wisdom of mystics with the evidence of scientists to give intuition its rightful place in our lives     Searching for the Self Adrian T. Smith, 2018-01-22 Who am I If you are unsure of your personal identity you are not alone Our postmodern culture multiplies identity crisis Identity comes from story the better our story the healthier our identity and our behavior Searching for the Self helps you discover your own story and discern how cultural narratives shape your behavior Channeling the ancient wisdom of classic stories including Christian Scripture viewed as true story this book offers hope to anyone searching for a better story to live by Searching for the Self provides a groundbreaking synthesis of narrative psychology cultural analysis biblical studies and English Literature 101 all written in an engaging style and interwoven with revealing personal anecdotes     Sex, Love and Abuse Sharon Hayes, 2014-05-15 This book explores the morality of love and sex and how distortions of these sometimes develop into abuse Hayes argues that there are strong similarities between different kinds of abusive relationships and that these similarities arise out of the common narratives surrounding romantic love and the logic of intimate relationships     **The Flanders Road** Claude Simon, 2022-07-12 By the winner of the 1985 Nobel Prize in Literature a riveting stylistically audacious modernist epic about the French cavalry s bloody face off against German Panzer tanks during WWII On a sunny day in May 1940 the French army sent out the cavalry against the invading German army s panzer tanks Unsurprisingly the French were routed Twenty six year old Claude Simon was among the French forces As they retreated he saw his captain shot off his horse by a German sniper This is the primal scene to which Simon returns repeatedly in his fiction and nowhere so powerfully as in his most famous novel The Flanders Road Here Simon s own memories overlap with those of his central character Georges whose captain a distant relative dies a similar death Georges

reviews the circumstances and sense or senselessness of that death first in the company of a fellow prisoner in a POW camp and then some years later in the course of an ever more erotically charged visit to the captain's widow Corinne As he does other stories emerge Corinne's prewar affair with the jockey Iglisia who would become the captain's orderly the possible suicide of an eighteenth century ancestor whose grim portrait loomed large in Georges's childhood home Georges's learned father whose books are no help against barbarism The great question throughout the question that must be urgently asked even as it remains unanswerable is whether fiction can confront and respond to the trauma of history

*Losing Your Faith, Finding Your Soul* David Robert Anderson, 2013-09-17 *Losing Your Faith Finding Your Soul* is for those of us who have come to the end of traditional beliefs and wonder if we have reached the end of faith as well It is for the day when assumptions about God and the religious teachings we trusted in the past no longer apply to life When your old beliefs die is it possible to hold onto faith David Robert Anderson answers this question with a resounding yes With Anderson as friend and guide we discover that what once seemed an ending is actually a promising beginning an invitation into a more authentic and very different spiritual experience

*The Path to Love is the Practice of Love* Carol Riddell, 1995 The book explains the meaning of a spiritual life and provides a way for people to get together with like minded friends to practice its principles Through understanding and practice the book promotes the chance to transform daily life to give meaning to its experiences and to find happiness in the service of others The teachings can apply equally to Christians Buddhists Moslems Hindus or Humanists as long as it is accepted that the essential principle of the cosmos is love a love both detached and personal all pervasive and specific wisdom that can be learned first third of the book The exercises have been tested out over a period of four years in workshops in several European countries and at the Findhorn Foundation

*Finding Philosophers in Global Fiction* Anway Mukhopadhyay, Saptarshi Mallick, Debashree Dattaray, 2024-09-05 A cross cultural study that explores and redefines what philosophy philosophizing and philosophers are through the lens of literature The academic discipline of philosophy may tell us too rigidly what a philosopher is or should be but fictional narration often upholds the core conundrums of humankind in which philosophy germinates This collection of essays explores whether a study of philosophers at a planetary scale or at least on a broad cross cultural spectrum can decouple philosophy from its academic aspect and lend it a more inclusive domain Contributors to this volume play with three conceptual poles making them interact with each other and get modified through this interaction fiction narrative and philosopher How do these three terms get semantically modified and broadened in scope when we speak of the figures of philosophers in imaginative writing How do these terms assume different connotations in different cultural contexts interacting with the multiplicity of not just thought but also the media and tools of thought Do we always think only rationally Or do we also think with and through emotively powerful images symbols and tropes In the end *Finding Philosophers in Global Fiction* insists on the need to de-elitize and democratize the concept of a philosopher by reflecting on the possibility of seeing a philosopher as one who sees things clearly from any
