Frager,1992-01-01 In the first half of the twentieth century many of Toronto s immigrant Jews eked out a living in the needle trade sweatshops of Spadina Avenue In response to their exploitation on the shop floor immigrant Jewish garment workers built one of the most advanced sections of the Canadian and American labour movements Much more than a collective bargaining agency Toronto s Jewish labour movement had a distinctly socialist orientation and grew out of a vibrant Jewish working class culture Ruth Frager examines the development of this unique movement its sources of strength and its limitations focusing particularly on the complex interplay of class ethnic and gender interests and identities in the history of the movement She examines the relationships between Jewish workers and Jewish manufacturers as well as relations between Jewish and non Jewish workers and male and female workers in the city s clothing industry In its prime Toronto s Jewish labour movement struggled not only to improve hard sweatshop conditions but also to bring about a fundamental socialist transformation It was an uphill battle Drastic economic downturns hard employer offensives and state repressions all worked against unionists workplace demands Ethnic gender and ideological divisions weakened the movement and were manipulated by employers and their allies Drawing on her knowledge of Yiddish Frager has been able to gain access to original records that shed new light on an important chapter in Canadian ethnic labour and women s history *International Communism and the Cult of the Individual* Kevin Morgan,2016-12-28

This book explores how the communist cult of the individual was not just a Soviet phenomenon but an international one. When Stalin died in 1953 the communists of all countries united in mourning the figure that was the incarnation of their cause. Though its international character was one of the distinguishing features of the communist cult of personality this is the first extended study to approach the phenomenon over the longer period of its development in a truly transnational and comparative perspective. Crucially it is concerned with the internationalisation of the Soviet cults of Lenin and Stalin. But it also ranges across different periods and national cases to consider a wider cast of bureaucrats, tribunes, heroes and martyrs who symbolised both resistance to oppression and the tyranny of the party state. Through studying the disparate ways in which the cults were manifested Kevin Morgan not only takes in many of the leading personalities of the communist movement but also some of the cultural luminaries like Picasso and Barbusse who sought to represent them. The cult of the individual was one of the most fascinating, troubling and revealing features of Stalinist communism and as reconstructed here it offers new insight into one of the defining political movements of the twentieth century. **Canadiana**, 1977
