This book is the first truly interdisciplinary intervention into the burgeoning field of Irish ecological criticism Providing original and nuanced readings of Irish cultural texts and personalities in terms of contemporary ecological criticism Flannery's readings of Irish literary fiction poetry travel writing non fiction and essay writing are ground breaking in their depth and scope Explorations of figures and texts from Irish cultural and political history including John McGahern Derek Mahon Roger Casement and Tim Robinson among many others enable and invigorate the discipline of Irish cultural studies and international ecocriticism on the whole This book addresses the need to impress the urgency of lateral ecological awareness

and responsibility among Irish cultural and political commentators to highlight continuities and disparities between Irish ecological thought writing and praxis and those of differential international writers critics and activists and to establish both the singularity and contiguity of Irish ecological criticism to the wider international field of ecological criticism With the introduction of concepts such as ecocosmopolitanism deep history ethics of proximity Gaia Theory urban ecology and postcolonial environmentalism to Irish cultural studies it takes Irish cultural studies in bracing new directions Flannery furnishes working examples of the necessary interdisciplinarity of ecological criticism and impresses the relevance of the Irish context to the broader debates within international ecological criticism Crucially the volume imports ecological critical paradigms into the field of Irish studies and demonstrates the value of such conceptual dialogue for the future of Irish cultural and political criticism This pioneering intervention exhibits the complexity of different Irish cultural and historical responses to ecological exploitation degradation and social justice

Irish Poetry: Politics, History, Negotiation S.

Matthews,1997-04-12 The award of the 1995 Nobel Prize for Literature to Seamus Heaney recognized not only the aesthetic achievement of his work but also its political urgency Here Steven Matthews presents a genealogy of Irish poetry which centres upon Heaney's recent preoccupation with the relations between poetry politics and history Writing from the perspective of Irish critical responses to the poetry he discusses a wide range of work from John Hewitt through Heaney himself to Paul Muldoon All of these poets have been inspired directly or indirectly by the situation in the North of Ireland Placing the poems in their historical context the author also analyses how these poets have reacted to the influence of W B Yeats This important book offers a new approach to Irish poetry linking it for the first time to the crucial political and historical events which lie at its centre

The Whispering Gallery William

Logan,2005-09-27 The poems here delve into what William Logan calls the ill lit kingdom of the past The book is haunted by the dead but equally penitent toward the rich insinuations of the living the lost floral paradise of the Florida outlands the steamy Gatsby summers of a Long Island childhood the frozen stones of a colonial burying ground This new collection of seventy two poems will allow readers to delight in the richness of Logan's language and the boldness of his vision

Farming in Modern Irish Literature Nicholas Grene,2021-08-05 This innovative study analyzes the range of representation of farming in Irish literature in the period since independence partition in 1922 as Ireland moved from a largely agricultural to a developed urban society In many different forms including poetry drama fiction and autobiography writers have made literary capital by looking back at their rural backgrounds even where those may be a generation back The first five chapters examine some of the key themes the impact of inheritance on family in the patriarchal system where

there could only be one male heir the struggles for survival in the poorest regions of the West of Ireland the uses of childhood farming memories whether idyllic or traumatic and the representation of communities challenging the homogeneous idealizing images of the Literary Revival the impact of modernization on successive generations into the twenty first century The final three chapters are devoted to three major writers in whose work farming is central Patrick Kavanagh the small farmer who had to find an individual voice to express his own unique experience John McGahern in whose fiction the life of the farm is always posited as alternative to a rootless urban milieu and Seamus Heaney who re imagined his farming childhood in so many different modes throughout his career Farming in Modern Irish Literature yields original insights into the literary iconography of rural Ireland and its interplay with social and cultural history opening up fresh vistas on the achievements of Irish writers in different genres styles and historical eras The Leonard L. Milberg Collection of Irish Poetry Princeton University. Library, 1998 *An Irish Literature Reader* Maureen O'Rourke Murphy, James MacKillop, 2006-07-10 In a volume that has become a standard text in Irish studies and serves as a course friendly alternative to the Field Day anthology editors Maureen O'Rourke Murphy and James MacKillop survey thirteen centuries of Irish literature including Old Irish epic and lyric poetry Irish folksongs and drama For each author the editors provide a biographical sketch a brief discussion of how his or her selections relate to a larger body of work and a selected bibliography In addition this new volume includes a larger sampling of women writers The Poetry of Derek Mahon Hugh Haughton, 2010-10-21 Derek Mahon is one of the leading poets of his time both in Ireland and beyond famously offering a perspective that is displaced from as much as grounded in his native country From prodigious beginnings to prolific maturity he has been through thick and thin through troubled times and other a writer profoundly committed to the art of poetry and the craft of making verse He has also been no less a committed reviser of his work believing the poem to be more than a record in verse but a work of art never finished This virtuoso study by Hugh Haughton provides the most comprehensive account imaginable of Mahon's oeuvre Haughton's brilliant writing always serves and illuminates the poetry yielding extraordinary insights on almost every page The poetry its revisions and reception are the subject here but so thorough is the approach that what is offered also amounts indirectly to an intellectual biography of the poet and with it an account of Northern Irish poetry vital to our understanding of the times Literature of Nature Patrick D. Murphy, Terry Gifford, Katsunori Yamazato, 1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informal company

Versions Of Ireland Eóin Flannery, 2021-03-04 Versions of Ireland brings a refined postcolonial theoretical optic to bear on many of the most urgent questions within contemporary Irish cultural studies Drawing on and extending the most advanced critical work within the discipline the book offers a subtle critical genealogy of the development of Ireland's diverse postcolonial projects Furthermore it reflects on the relevance and the effectiveness of postcolonial and subaltern historiographical methodologies in an Irish context interrogating the ethical and political problematics of such discursive

importation Flannery's work highlights the operative dynamics of imperial modernity together with its representational agents in Ireland and also divines moments of explicit and implicit resistance to modernity's rationalising and accumulative urges The book is pioneering in the facility and ease with which it navigates the interdisciplinary terrain of Irish studies Flannery provides enabling and challenging new readings of the poetry of the bi-lingual poet Michael Hartnett the politically imaginative vistas of the republican mural tradition in the North of Ireland the gothic anxieties inherent in the fiction of Eugene McCabe and the semi-fictional writing of Seamus Deane and the differential codes of visual surveillance apparent in Irish tourist posters and late nineteenth century photography in Ireland Versions of Ireland does not dwell on the exclusively theoretical but offers rich critical analyses of a range of Irish cultural artefacts in terms of Ireland's protracted colonial history and contested postcolonial condition

Out of What Began Gregory A. Schirmer, 2019-05-15 The first book of its kind Out of What Began traces the development of a distinctive tradition of Irish poetry over the course of three centuries Beginning with Jonathan Swift in the early eighteenth century and concluding with such contemporary poets as Seamus Heaney and Eavan Boland Gregory A Schirmer looks at the work of nearly a hundred poets Considering the evolving political and social environments in which they lived and wrote Schirmer shows how Irish poetry and culture have come to be shaped by the struggle to define Irish identity Schirmer includes a large number of accomplished poets who have been unjustly neglected in standard accounts of Irish literature many of these writers are women whose work has been kept in the shadows cast by that of well known male poets He also emphasizes the importance of political poetry in a country that continues to be torn by sectarian violence With its rich selection of poetic voices Out of What Began reveals the political social and religious diversity of Irish culture

Irish Writing in the Twentieth Century David Pierce, 2000 Arranged chronologically by decade from the 1890s to the 1990s each decade is divided into two different types of writing critical documentary and imaginative writing and is accompanied by a headnote which situates it thematically and chronologically The Reader is also structured for thematic study by listing all the pieces included under a series of topic headings The wide range of material encompasses writings of well known figures in the Irish canon and neglected writers alike This will appeal to the general reader but also makes Irish Writing in the Twentieth Century ideal as a core text providing a unique focus for detailed study in a single volume

Marsden Hartley's Maine Donna M. Cassidy, Elizabeth Finch, Randall R. Griffey, 2017-03-13 Marsden Hartley had a lifelong personal and aesthetic engagement with Maine where he was born in 1877 and where he died at age sixty six As an important member of the artistic circle promoted by Alfred Stieglitz Hartley began his career by painting the mountains of western Maine He subsequently led a peripatetic life traveling throughout Europe and North America and only occasionally visiting his native state By midlife however his itinerant existence had taken an emotional toll and he confided to Stieglitz that he wanted so earnestly a place to be Finally returning to the state in his later years he transformed his identity from urbane sophisticate to the painter from Maine But while Maine has played a

clear and defining role in Hartley's art not until now has this relationship been studied with the breadth and richness it warrants. p 1 margin 0 0px 0 0px 0 0px font 14 0px Verdana Marsden Hartley's Maine is the first in-depth discussion of Hartley's complex and shifting relationship to his native state. Illustrated with works from throughout the painter's career, it provides a nuanced understanding of Hartley's artistic range from the exhilarating Post-Impressionist landscapes of his early years to the late, roughly rendered paintings of Maine and its people. The absorbing essays examine Hartley's view of Maine as a place of light and darkness whose spirit imbued his art, which encompassed buoyant coastal views, mournful mountain vistas, and portraits of Mainers. An illustrated chronology provides an overview of Hartley's life, juxtaposing major personal incidents with concurrent events in Maine's history. For Hartley, who was strongly influenced by such artists as Paul Cézanne, Winslow Homer, and Albert Pinkham Ryder, Maine was an enduring source of inspiration, one powerfully intertwined with his past, his cultural milieu, and his desire to create a regional expression of American modernism. *Heart Mysteries* Marie Heaney, 2003 Marie Heaney draws on a thousand years of Irish writing to bring together 50 poems on the universal themes of love and loss. The selection comprises songs, ballads, and poetry taken from early to contemporary Irish literature.

Dolan's seminal work has established its pre-eminent position as the leading reference authority on the form of English spoken in Ireland.
