**Encounters with Islam in German Literature and Culture** James R. Hodkinson,Jeffrey Morrison,2009 German language writings about Islam not only reveal much about Islamic culture but also about the European home culture Islam has been a rich topic in German language literature since the middle ages and the writings about it not only reveal much about Islamic culture but also about the European home culture Many of the early essays in this chronologically arranged volume uncover fresh evidence of how German writers used images of Islam as other to define their individual subject positions as well as to define the German nation and the Christian religion The perspectives of many contemporary writers are however far removed from such a polar opposition of cultures Their experience of the German Islamic encounter is complicated by a crucial factor many of them emerge from Muslim migrant communities such as the German Turkish community The culturally hybrid origins of these writers and their expression of experiences and ideologies that cross boundaries of East and West Christendom and Islam strongly affect the findings of the essays as the volume moves toward the present The texts discussed include travelogues and other firsthand encounters with Islam reports for colonial authorities aesthetic treatises on Islamic art literary essayistic and theological writing on Islamic religious practice the incorporation of characters situations and settings from the Islamic world into fiction or drama and fictional and autobiographical writing by Muslims in German Contributors Cyril Edwards Silke Falkner James Hodkinson Timothy R Jackson Margaret Littler Rachel MagShamr in Frauke Matthes Yomb May Jeffrey Morrison Kate Roy Monika Shafi Edwin Wieringa W Daniel Wilson Karin E Yesilada James Hodkinson is Assistant Professor of German at Warwick University Jeffrey Morrison is Senior Lecturer at the National University of Ireland Maynooth      The World's Best Essays Francis Henry Pritchard,1929      *German Literature and the First World War: The Anti-War Tradition* Brian Murdoch,2016-03-09 The period immediately following the end of the First World War witnessed an outpouring of artistic and literary creativity as those that had lived through the war years sought to communicate their experiences and opinions In Germany this manifested itself broadly into two camps one condemning the war outright the other condemning the defeat Of the former Erich Maria Remarque s *All Quiet on the Western Front* remains the archetypal example of an anti war novel and one that has become synonymous with the Great War Yet the tremendous and enduring popularity of Remarque s work has to some extent eclipsed a plethora of other German anti war writers such as Hans Chlumberg Ernst Johannsen and Adrienne Thomas In order to provide a more rounded view of German anti war literature this volume offers a selection of essays published by Brian Murdoch over the past twenty years Beginning with a newly written introduction providing the context for the volume and surveying recent developments in the subject the essays that follow range broadly over the German anti war literary tradition telling us much about the shifting and contested nature of the war The volume also touches upon subjects such as responsibility victimhood the problem of

historical hiatus in the production and reception of novels drama poetry film and other literature written during the war in the Weimar Republic and in the Third Reich The collection also underlines the potential dangers of using novels as historical sources even when they look like diaries One essay was previously unpublished two have been augmented and three are translated into English for the first time Taken together they offer a fascinating insight into the cultural memory and literary legacy of the First World War and German anti war texts

**Women and Family Life in Early Modern German**

**Literature** Elisabeth Wåghäll Nivre, 2004 A study of the discourse of gender in 16th century German popular literature Writers of sixteenth century German popular literature took great interest in describing debating commenting on and prescribing gender roles and discourses of gender can be traced in texts of all kinds from this period This book focuses on popular works by Georg Wickram Jakob Frey Martin Montanus and Johann Fischart all of whom published novels joke books plays and or moral treatises on marriage and family life in Strasbourg in the sixteenth century Their works express not only their own ideas on women s roles as wives and mothers but also societal values at a time of religious political and cultural change The view of gender issues provided by these writers is not a simple one as they ascribed widely varying characteristics to woman and her relationship to man The book thus analyzes the social and cultural construction of the concept of woman as indicated not only by the narrators comments but also by the relationships and roles of men and women characters in the narratives Overall the focus is on the disparities that persisted in the sixteenth century discourse of gender confusing all attempts to arrive at definitive gender roles In the end the study argues for something that can best be described as a flowing continuity or a continuous flow in the discourses that form the sixteenth century concepts of woman and man Elisabeth Wåghäll Nivre is associate professor of German at Växjö University Sweden

**Trauma of Defeat** James Martin Skidmore, 2005 This is the first book length study to consider Ricarda Huch's historical political thought and assess Huch's place within the lively historiographical discourses of the 1920s One of the most famous writers of her day Huch 1864-1947 was known for her poetry fiction and histories of German Romanticism and the Thirty Years War Like many of her generation Huch was shaken by Germany's defeat in the First World War and this shock motivated her to use her historiography to address Germany's post war situation Convinced that the German nation possessed an identity best expressed by the ideals of Romanticism Huch attributed Germany's decline to the westernization of German political culture absolutism and centralization had replaced the theoretical perfection of the decentralized early Holy Roman Empire of the German Nation Her Weimar histories of medieval and nineteenth century Germany urged a defeated and traumatized nation to return to a path that had been abandoned during the Wilhelmine Empire Topics explored include Huch's use of Nietzschean monumentalism a comparison with popular historians of the period e.g. E. Kantorowicz the echoes of her political thought in her poetry and fiction and her complex relationship to German nationalism

I. Hoffmann Keller Nietzsche Rilke Kafka Hesse Brecht Thomas Mann Musil and some minor figures who have influenced the literary scene after 1800 and add significantly to both scholarship in and interpretation of modern German literature

**German Literature in a New Century** Katharina Gerstenberger, Patricia Herminhouse, 2008 While the first decade after the fall of the Berlin wall was marked by the challenges of unification and the often difficult process of reconciling East and West German experiences many Germans expected that the new century would achieve normalization The essays in this volume take a closer look at Germany's new normalcy and argue for a more nuanced picture that considers the ruptures as well as the continuities Germany's new generation of writers is more diverse than ever before and their texts often not only speak of a Germany that is multicultural but also take a more playful attitude toward notions of identity Written with an eye toward similar and dissimilar developments and traditions on both sides of the Atlantic this volume balances overviews of significant trends in present day cultural life with illustrative analyses of individual writers and texts
