Rebooting Justice Benjamin H. Barton,Stephanos Bibas,2017-08-01 America is a nation founded on justice and the rule of law But our laws are too complex and legal advice too expensive for poor and even middle class Americans to get help and vindicate their rights Criminal defendants facing jail time may receive an appointed lawyer who is juggling hundreds of cases and immediately urges them to plead guilty Civil litigants are even worse off usually they get no help at all navigating the maze of technical procedures and rules The same is true of those seeking legal advice like planning a will or negotiating an employment contract Rebooting Justice presents a novel response to longstanding problems The answer is to use technology and procedural innovation to simplify and change the process itself In the civil and criminal courts where ordinary Americans appear the most we should streamline complex procedures and assume that parties will not have a lawyer rather than the other way around We need a cheaper simpler faster justice system to control costs We cannot untie the Gordian knot by

adding more strands of rope we need to cut it to simplify it Amatory Pleasures Julie Peakman,2016-10-06 Encompassing the long 18th century *Amatory Pleasures* examines a broad and enticing variety of topics in the history of sexuality in Georgian times It includes discussion of sexual perversion criminal conversation erotic gardens gentlemen s homosocial societies flagellation pornography writings of courtesans and the world of female friendship revealing the secret or hidden meanings circulating between mainstream and covert activities of the 18th century Julie Peakman draws connections between these pieces and situates them within current debates and examines how Georgian sexual activity was integrated from low life and high places from brothels to palaces Aimed at anyone interested in gender history of sexuality sex literature and 18th century history *Amatory Pleasures* is an invaluable collection of the work of a key scholar in the field *Criminal Convictions in U.S. Tribal Law* Andrew Novak,2024-08-02 This book is the first comparative law study of collateral consequences of criminal conviction in all federally recognized Indian tribes in the lower 48 U S states and the mechanisms for restoring civil rights in tribal law Surveying the constitutions codes and ordinances of tribal jurisdictions reveals a broad range of consequences the impact of which has not been comprehensively and critically examined Like state and federal jurisdictions tribal law attaches thousands of legal disabilities to tribal offices business licenses and permits social services and civil rights for persons with criminal convictions This is especially true in economically important industries such as gaming and resource extraction additionally rapidly changing areas such as marijuana regulation and sex offender registries expand the scope still further This book catalogues restoration of rights procedures in tribal law to include pardons expungements and record sealing Collateral consequences have proliferated in tribal law because of the limitations of tribal criminal jurisdiction including over non tribal members However tribal collateral consequences risk contributing to overcriminalization and social exclusion for persons with previous criminal convictions especially as Native Americans are already disproportionately impacted by the U S criminal justice system This book will appeal to legal academics scholars and practitioners working in tribal criminal law as well as to others with interests in Indigenous legal issues The Metamorphoses of Kinship Maurice Godelier,2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is bringing us closer to
