My First Seventy Five Years:

My First 75 Years of Medicine A. M. Cooke, 1994 *Oldsmobile; the First Seventy Five Years* Beverly Rae Kimes, Richard M. Langworth, 1972 Pursuing Truth Mary J. Oates, 2021-03-15 In *Pursuing Truth* Mary J Oates explores the roles that religious women played in teaching generations of college and university students amid slow societal change that brought the grudging acceptance of Catholics in public life Across the twentieth century Catholic women's colleges modeled themselves on and sometimes positioned themselves against elite secular colleges Oates describes these critical pedagogical practices by focusing on Notre Dame of Maryland University formerly known as the College of Notre Dame of Maryland the first Catholic college in the United States to award female students four year degrees The sisters and laywomen on the faculty and in the administration at Notre Dame of Maryland persevered in their work while facing challenges from the establishment of the Catholic Church mainline Protestant churches and secular institutions *Pursuing Truth* presents the stories of the institution's female founders administrators and professors whose labors led it through phases of diversification The pattern of institutional development regarding the place of religious identity gender and sexuality and race that Oates finds at Notre Dame of Maryland is a paradigmatic story of change in US higher education Similarly representative is her account of the school's effort from the late 1960s to the present to maintain its identity as a women's liberal arts college Thanks to generous funding from the Cushwa Center at the University of Notre Dame the ebook editions of this book are available as Open Access OA volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other Open Access repositories

The Professionalization of History in English Canada Donald A. Wright, 2015-05-27 The study of history in Canada has a history of its own and its development as an academic discipline is a multifaceted one The *Professionalization of History in English Canada* charts the transition of the study of history from a leisurely pastime to that of a full blown academic career for university trained scholars from the mid nineteenth to the late twentieth century Donald Wright argues that professionalization was not in fact a benign process nor was it inevitable It was deliberate Within two generations historians saw the creation of a professional association the Canadian Historical Association and rise of an academic journal the *Canadian Historical Review* Professionalization was also gendered In an effort to raise the status of the profession and protect the academic labour market for men male historians made a concerted effort to exclude women from the academy History's professionalization is best understood as a transition from one way of organizing intellectual life to another What came before professionalization was not necessarily inferior but rather a different perspective of history As well Wright argues convincingly that professionalization inadvertently led to a popular inverse the amateur historian whose work is often more widely received and appreciated by the general public *Toronto Sketches* 5 Mike Filey, 1997-10 These are collections of Mike Filey's best work from his popular and long running *Toronto Sun* column *The Way We Were*

Toward the Charter Christopher MacLennan, 2003 At the end of the Second World War a growing concern that

Canadians civil liberties were not adequately protected coupled with the international revival of the concept of universal human rights led to a long public campaign to adopt a national bill of rights While these initial efforts had been only partially successful by the 1960s they laid the foundation for the radical change in Canadian human rights achieved by Pierre Elliott Trudeau in the 1980s In *Toward the Charter* Christopher MacLennan explores the origins of this dramatic revolution in Canadian human rights from its beginnings in the Great Depression to the critical developments of the 1960s Drawing heavily on the experiences of a diverse range of human rights advocates the author provides a detailed account of the various efforts to resist the abuse of civil liberties at the hands of the federal government and provincial legislatures and the resulting campaign for a national bill of rights The important roles played by parliamentarians such as John Diefenbaker and academics such as F R Scott are placed alongside those of trade unionists women and a long list of individuals representing Canada s multicultural groups to reveal the diversity of the bill of rights movement At the same time MacLennan weaves Canadian made arguments for a bill of rights with ideas from the international human rights movement led by the United Nations to show that the Canadian experience can only be understood within a wider global context Church Association
