Natural Instability Of Markets Expectations Increasing Returns And The Collapse Of Capitalism:

The Natural Instability of Markets Michael Perelman, 1999 As socialist states struggle to transform themselves into market economies and the United States privatizes everything from schooling to policing the current crises in Russia and east Asia suggest that something might be amiss In the rush to open societies to the benefits of competition economists have overlooked the fundamental instability of competitive markets What had seemed to be an invincible capitalist juggernaut may be reaching its apotheosis Michael Perelman argues that capitalism's victory is temporary based as it is on an unrealistic understanding of the system's inherent risks He analyzes the nature and causes of crisis within a market society and along the way he re-examines one of capitalism's most primary and unquestioned tenets that the more competition there is the better off society will be This book contains many examples and anecdotes and provides an understanding of a capitalist society

The Invention of Capitalism Michael Perelman, 2000-05-03 Rethinks the history of classical political economy by assessing the Marxian idea of primitive accumulation the process by which a propertyless working class is created

Capitalism and Disability Marta Russell, 2019-08-06 Spread out over many years and many different publications the late author and activist Marta Russell wrote a number of groundbreaking and insightful essays on the nature of disability and oppression under capitalism In this volume Russell's various essays are brought together in one place in order to provide a useful and expansive resource to those interested in better understanding the ways in which the modern phenomenon of disability is shaped by capitalist economic and social relations The essays range in analysis from the theoretical to the topical including but not limited to the emergence of disability as a human category rooted in the rise of industrial capitalism and the transformation of the conditions of work family and society corresponding thereto a critique of the shortcomings of a purely civil rights approach to addressing the persistence of disability oppression in the economic sphere with a particular focus on the legacy of the Americans with Disabilities Act of 1990 an examination of the changing position of disabled people within the overall system of capitalist production utilizing the Marxist economic concepts of the reserve army of the unemployed the labor theory of value and the exploitation of wage labor the effects of neoliberal capitalist policies on the living conditions and social position

of disabled people as it pertains to welfare income assistance health care and other social security programs imperialism and war as a factor in the further oppression and immiseration of disabled people within the United States and globally and the need to build unity against the divisive tendencies which hide the common economic interest shared between disabled people and the often highly exploited direct care workers who provide services to the former
