Matisse Rebecca A. Rabinow,Dorthe Aagesen,Metropolitan Museum of Art (New York, N.Y.),2012 Throughout his long career Henri Matisse 1869 1954 continually expanded the boundaries of his art By repeating images in pairs trios and series he conducted an ongoing dialogue with his earlier works in order to as he put it push further and deeper into true painting In this fresh approach to a much studied artist prominent scholars from the United States and Europe examine more than sixty

works in concise chapters that focus on this aspect of Matisse's working process. From early pairs such as *Young Sailor I* and *II* 1906 and *Le Lexe I* and *II* 1907-8 through a series of late studio scenes from Vence 1946-48, Matisse is shown revisiting a given theme with the aim of devising innovative, often radical solutions to such problems as how to portray light, handle paint, select colors, and manipulate perspective. New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse's complex evolution. In numerous excerpts from letters and interviews, he is revealed as an artist who regularly questioned himself and his methods, a man of powerful intellect who regarded each new painting as an adventure. A significant addition to art historical literature. *Matisse: In Search of True Painting* is a revelatory study of a seminal figure in 20th-century modernism.
