The Great European Stage Directors Volume 6 Clare Finburgh Delijani, Peter M. Boenisch, 2021-10-07 This volume examines the work of Joan Littlewood Giorgio Strehler and Roger Planchon demonstrating how these three directors take up key aesthetic prompts from earlier innovators Stanislavski the modernist avant garde and not least Brecht and thereby prepare the ground for contemporary politically engaged directors theatre It argues that in creating their major productions in the prosperous glorious decades that followed the devastation of the Second World War they represent a first expressly European generation of theatre directors Revisiting works from the

classical dramatic canon by drawing on popular theatre traditions and reaching out to spectators beyond the educated middle class elite they put theatre in the service of uniting a traumatized continent This study posits that for Littlewood Strehler and Planchon theatre has the capacity to create communities

Volume 6, Tome II: Kierkegaard and His German Contemporaries - Theology Jon Stewart, 2017-03-02 This volume explores in detail Kierkegaard's various relations to his German contemporaries Kierkegaard read German fluently and made extensive use of the writings of German speaking authors Apart from his contemporary Danish sources the German sources were probably the most important in the development of his thought generally This volume represents source work research dedicated to tracing Kierkegaard's readings and use of the various German speaking authors in the different fields in a way that is as clearly documented as possible The volume has been divided into three tomes reflecting Kierkegaard's main areas of interest with regard to the German speaking sources namely philosophy theology and a more loosely conceived category which has here been designated literature and aesthetics This second tome of the present volume is dedicated to Kierkegaard's main theological influences In theology the German and the Danish traditions had long been closely connected via their common source Luther In Kierkegaard's time the main influence on theology was probably German philosophy and specifically Hegelianism Most of the German theologians were in some way in a critical dialogue with this movement Another important influence was Schleiermacher who visited Copenhagen in 1833 and was important for several Golden Age thinkers From his student days Kierkegaard kept abreast of the German theological literature from which he drew much inspiration

Naturalizing Heidegger David E. Storey, 2015-02-10 Explores the evolution of Heidegger's thinking about nature and its relevance for environmental ethics In *Naturalizing Heidegger* David E Storey proposes a new interpretation of Heidegger's importance for environmental philosophy finding in the development of his thought from the early 1920s to his later work in the 1940s the groundwork for a naturalistic ontology of life Primarily drawing on Heidegger's engagement with Nietzsche but also on his readings of Aristotle and the biologist Jakob von Uexküll Storey focuses on his critique of the nihilism at the heart of modernity and his conception of the intentionality of organisms and their relation to their environments From these ideas a vision of nature emerges that recognizes the intrinsic value of all living things and their kinship with one another and which anticipates later approaches in the philosophy of nature such as Hans Jonas's phenomenology of life and Evan Thompson's contemporary attempt to naturalize phenomenology
