Nature And Thy Name Is Love Wesleyan And Process Theologies In Dialogue:

Thy Nature and Thy Name is Love Bryan P. Stone, 2001 Thy Nature Thy Name is Love brings leading scholars into dialogue over points of convergence and divergence between Wesleyan and process theologies **The Negro's Church**

Benjamin E. Mays, 2015-08-04 Benjamin E Mays 1894 1984 was President and Professor Emeritus of Morehouse College

The Nature of Love Thomas Jay Oord, 2010-04-01 God is love Consequently shouldn't love exist at the center of Christian theology When love is at the center theology is understood differently than it has typically been understood Some theologians have placed faith at the center others God's sovereignty still others the Church but Dr Oord places the emphasis on love God's love for us revealed in Christ in the Church and in creation and our love for God and others as ourselves must be afforded its rightful place Beginning with the foundation of love is what differentiates the Christian faith from others a loving God Dr Oord defines love as To love is to act intentionally in sympathetic empathetic response to God and others to promote overall well being Is this not what has defined Christians throughout history **The Oxford Handbook of Methodist Studies**

William J. Abraham, James E. Kirby, 2009-09-24 With the decision to provide of a scholarly edition of the Works of John Wesley in the 1950s Methodist Studies emerged as a fresh academic venture Building on the foundation laid by Frank Baker Albert Outler and other pioneers of the discipline this handbook provides an overview of the best current scholarship in the field The forty two included essays are representative of the voices of a new generation of international scholars summarising and expanding on topical research and considering where their work may lead Methodist Studies in the future Thematically ordered the handbook provides new insights into the founders history structures and theology of Methodism and into ongoing developments in the practice and experience of the contemporary movement Key themes explored include worship forms mission ecumenism and engagement with contemporary ethical and political debate **Perfecting Grace** Mark H.

Mann, 2006-11-15 Mark Mann seeks to renew discussion of the doctrine of holiness in Christian theology by using the human sciences as a tool for theological reconstruction He identifies the anthropological presuppositions of the holiness tradition and explores the ways that those presuppositions have led to particular assertions regarding the nature of Christian holiness as that doctrine is affirmed by the holiness tradition He asks to what extent holiness is possible in this life How is holiness obtained and to what extent can people gain knowledge of having achieved holiness Mann uses the resources of the neurosciences the sociology of knowledge and psychology to help answer these questions and to provide constructive theological analysis of these questions **Creation Made Free** Thomas Jay Oord, 2010-01-01 Open Theology offers an

advantageous framework for engaging the sciences With its emphasis upon creaturely freedom relationality realist epistemology and love Open Theology makes a fruitful dialogue partner with leading fields and theories in contemporary science In Creation Made Free leading proponents of open theism explore natural and social scientific dimensions of reality as these dimensions both inform and are informed by Open Theology Important themes addressed include evolution creation

ex nihilo emergence theory biblical cosmology cognitive linguistics quantum theory and forgiveness Sanctifying Theology Jacob Lett, Jonathan M. Platter, 2023-10-30 Sanctification is not merely a practical and isolated doctrine but should permeate the whole horizon of theology dogmatics ethics practices as well as the sciences and the arts The essays are collected under the twin convictions that theology can be sanctified and sanctifying The whole of theology is inflected by holiness and so theology should aim to share in God's sanctifying work Sanctifying Theology contributes new possibilities in Wesleyan holiness theology and explores their contribution to various Christian doctrines and contemporary issues Written in honor of the work of Thomas Arthur Noble the essays in this book are attentive to the streams of theology that have most influenced him the fathers the Wesleys and the Torrances Both constructive and exploratory the topic of the essays cover among other things 1 consideration of how Wesleyan holiness theologies contribute to ecumenical theological discussions 2 readings of Wesleyan holiness theology through the lens of the church fathers and the Torrances and 3 explorations of how these conversations and sources might shape contemporary practical and ethical concerns The essays work both for the Wesleyan tradition and from the Wesleyan tradition for the church catholic showing how recent trajectories in Wesleyan holiness theology might contribute to broader discussions **A Living Tradition** Dr. Mary Elizabeth Mullino Moore, 2013-09-17 This book engages in a critical recovery and reconstruction of the Wesleyan theological legacy in relation to current theological concepts and Christian practices with the intent to present opportunities for future directions The contributors address urgent questions from the contexts in which people now live particularly questions regarding social holiness and Christian practices To that end the authors focus on historical figures John Wesley Susanna Wesley Harry Hoosier and Richard Allen historical developments such as the ways in which African Americans appropriated Methodism and theological themes such as holistic healing work and vocation and prophetic grace The purpose is not to provide a comprehensive historical and theological coverage of the tradition but to exemplify approaches to historical recovery and reconstruction that follow appropriately the mentorship of John Wesley and the living tradition that has emerged from his witness Contributors W Stephen Gunter Richard P Heitzenrater Diane Leclerc William B McClain Randy L Maddox Rebekah L Miles Mary Elizabeth Mullino Moore Amy G Oden and Elaine A Robinson A Modern Relation of Theology and Science Assisted by Emergence and Kenosis Bradford McCall, 2018-02-28 How should we attempt to understand the relationship between theology and science in the twenty first century In this book I will attempt to answer this question by examining several previous attempts to classify this relationship I also develop my personal view of the relation thereafter discussing some Catholic contributions to this project and then revisit some of my previously published material highlighting the role of panentheism therein and noting an emergent implication from the literature the resultant possibilities for God an implication that creates space for a broadly relational perspective of the process of emergence These movements allow me to argue that kenosis and emergence can add to the discussion of understanding the theology and science relationship Herein I advocate a monistic process based

view of the overlapping relationship between theology and science *Timetables of History for Students of Methodism* Rex D. Matthews, 2007-06-01 Winner of the 2007 Saddlebag Selection Award from the Historical Society of The United Methodist Church as the best book published during the year on the history biography polity or theology of United Methodism or its predecessors Understanding history rests largely on a grasp of two things sequence and context Know which events came earlier and which later and you've gone a long way toward understanding influence and causation Know what was going on in the wider world at the same time a historical event occurred and you'll better grasp the meaning and significance of that event for the people who experienced it Yet even with the best history textbooks students have difficulty in gaining an immediate sense of sequence and context Hence the purpose of this book To lay out the most important events in the history of the Wesleyan Methodist movement to show them in their proper order and to include the most important occurrences taking place on the national and international stages at the same time Matthews presents his material in an easy to comprehend and visually appealing layout enumerating the major trends and developments in Methodist history from 1700 to 2004 Rex D Matthews is Assistant Professor in the Practice of Historical Theology at Candler School of Theology Emory University Atlanta Georgia He currently serves as co chair of the Wesleyan Studies Group of the American Academy of Religion as General Editor of the Kingswood Books series and as Managing Editor of the new electronic academic journal Methodist Review An excerpt from the Circuit Rider review This is a book for college and seminary professors for high school teachers of religion for Sunday School teachers of children youth and adults It is a book for preachers and church musicians It should be in every church library This is a book for people who think history is boring as well as for those who delight in rich historical detail and story It is a book to be savored and returned to again and again And this is a book for all who love the church and yearn to be part of perfecting its mission and its life [Click here to read the entire review](#)
