SECOND EDITION

Nature In Trust The History Of Nature Conservation In Britain

Miriam Rothschild, Peter Marren

Nature In Trust The History Of Nature Conservation In Britain:

A History of Nature Conservation in Britain David Evans, 2002-11-01 Our attitudes towards nature and the countryside are fickle The conservation movement despite enjoying its highest membership ever has achieved only limited success over the last one hundred years of campaigning Can conservationists now shake off their insular disunited and negative image so as to gain the influence that the size of their movement warrants A History of Nature Conservation in Britain traces the rise of the conservation movement from its beginnings in Victorian coffee houses to today's societies with their membership numbering in the millions The first complete history of the British and oldest branch of the movement David Evans's book offers invaluable insights into the campaigns for countryside protection and access from battles against the use of pesticides against pollution and genetic engineering through to legislation for the protection of our wildlife and the freedom to walk the mountains The 2nd Edition has been fully revised and updated Topical issues are considered afresh and new chapters reflect the rapid changes throughout the 1990s both in social attitudes conservation practices legislation funding and within conservation organizations themselves In the light of recent developments Evans also looks at some difficult choices to be made in years ahead and asks how the conservation movement will fare on the new global stage

Nature in Trust John Sheail, 1976 A History of Nature Conservation in Britain David Evans, 2002-11 This 2nd and fully revised edition offers insights into the campaign for countryside access and protection and considers topical concerns afresh It examines unwelcome choices for the future and Britain's role in the global conservation debate *An Environmental History of the UK Defence Estate, 1945 to the Present* Marianna Dudley, 2012-05-03 A history of the military use of the landscape and the rise of military environmentalism through the twentieth century **Rothschild's Reserves: Time and**

Fragile Nature Miriam Rothschild, Peter Marren, 2023-08-14 The somewhat enigmatic title of this book by one of Britain's most distinguished scientists in collaboration with a highly respected natural history writer belies the arresting nature of its content Eighty years ago Miriam Rothschild's father Charles Rothschild said by some to have been the inventor of nature conservation in Britain first proposed the establishment of a network of 280 national nature reserves throughout the country to preserve the cream of its wildlife habitats a monumental task In this book she and her co-author discuss the efforts that went into the selection of these reserves and compare the state then and now of 182 of the English sites and their wildlife depressing reading in many cases The authors hope to spur everyone interested in the survival of the British countryside to take remedial action to safeguard it before it is too late Published by Balaban in association with Harley Books now Apollo Books who are sole UK and European distributors **A Bibliography of British History, 1914-1989** Keith

Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive

index *Against Extinction* William Mark Adams, 2013 Conservation in the 21st century needs to be different and this book is a good indicator of why Bulletin of British Ecological Society *Against Extinction* tells the history of wildlife conservation from its roots in the 19th century through the foundation of the Society for the Preservation of the Wild Fauna of the Empire in London in 1903 to the huge and diverse international movement of the present day It vividly portrays conservation's legacy of big game hunting the battles for the establishment of national parks the global importance of species conservation and debates over the sustainable use of and trade in wildlife Bill Adams addresses the big questions and ideas that have driven conservation for the last 100 years How can the diversity of life be maintained as human demands on the Earth expand seemingly without limit How can preservation be reconciled with human rights and the development needs of the poor Is conservation something that can be imposed by a knowledgeable elite or is it something that should emerge naturally from people's free choices These have never been easy questions and they are as important in the 21st century as at any time in the past The author takes us on a lively historical journey in search of the answers *Nature's End* S. Sörlin, P. Warde, 2009-07-23 Environmental History as a distinct discipline is now over a generation old with a large and diverse group of practitioners around the globe This book provides a reflection on the achievements diversity and direction of environmental history in its varied national international and continental contexts *Histories of Technology, the Environment and Modern Britain* Jon Agar, Jacob Ward, 2018-04-09 Histories of Technology the Environment and Modern Britain brings together historians with a wide range of interests to take a uniquely wide lens view of how technology and the environment have been intimately and irreversibly entangled in Britain over the last 300 years It combines for the first time two perspectives with much to say about Britain since the industrial revolution the history of technology and environmental history Technologies are modified environments just as nature is to varying extents engineered Furthermore technologies and our living and non living environment are both predominant material forms of organisation and self organisation that surround and make us Both have changed over time in intersecting ways Technologies discussed in the collection include bulldozers submarine cables automobiles flood barriers medical devices museum displays and biotechnologies Environments investigated include bogs cities farms places of natural beauty and pollution land and sea The book explores this diversity but also offers an integrated framework for understanding these intersections *Victorian Britain (Routledge Revivals)* Sally Mitchell, 2012-08-06 First published in 1988 this encyclopedia serves as an overview and point of entry to the complex interdisciplinary field of Victorian studies The signed articles which cover persons events institutions topics groups and artefacts in Great Britain between 1837 and 1901 have been written by authorities in the field and contain bibliographies to provide guidelines for further research The work is intended for undergraduates and the general reader and also as a starting point for graduates who wish to explore new fields
