Superintendent of Documents, 1987 **Naval Historical Publications in Print** Naval Historical Center (U.S.), 1992 *Military History* United States. Superintendent of Documents, 1990 *Stalking the U-Boat* Geoffrey L. Rossano, 2021-08-15 An exceptional piece of scholarship Rossano clearly points out that military organizations in general and a naval air force in particular are built from the ground up and not the other way around While we celebrate the exploits of the pilots Rossano reminds us that there were myriad mechanics constructors paymasters and even some ship drivers who played a vital role in naval aviation during WWI Craig C Felker U S Naval Academy A fine book that will stand for many years as the definitive study of U S naval aviation in Europe Well researched and written the book ranges widely from the high level planning in Washington for a naval air war to moving thousands of men and hundreds of aircraft across the ocean to the routine but dangerous training patrol and bombing flights that constituted the navy s air mission in World War I William F Trimble author of *Attack from the Sea* *Stalking the U Boat* is the first and only comprehensive study of U S naval aviation operations in Europe during WWI The navy s experiences in this conflict laid the foundations for the later emergence of aviation as a crucial sometimes dominant element of fleet operations yet those origins have been previously poorly understood and documented Begun as antisubmarine operations naval aviation posed enormous logistical administrative personnel and operational problems How the USN developed this capability on foreign soil in the midst of desperate conflict makes a fascinating tale sure to appeal to all military and naval historians **Aircraft, Airports, and Airways** United States.
