## Naval Fast Strike Craft And Patrol Boats:

**Naval Fast Strike Craft and Patrol Boats** Roy McLeavy, 1979 *Iran's Military Forces and Warfighting Capabilities* Anthony H. Cordesman, Martin Kleiber, 2007-09-30 Nations around the world are uncertain and anxious about Iran's intentions in the Middle East and the wider global arena. Its current president Mahmoud Ahmadinejad has made no secret of his opposition to Western society, particularly Israel, and his desire to acquire nuclear weapons. However, as Anthony H. Cordesman and Martin Kleiber point out, Ahmadinejad does not necessarily speak for the Iranian clerical regime, who operate in a cloud of secrecy and also directly control Iran's military. Given the ambiguous nature of Iran's global objectives, this new study focuses on the tangible aspects of Iran's military forces and takes an objective look at the realistic threats that Iran poses to the region and the world. The authors systematically assess each aspect of Iranian military forces, from their conventional armies to their asymmetric threat via proxy wars in the region. Much attention in national security debates is paid to Iran's intentions without first understanding its capabilities. Lacking such a fundamental understanding, much of this speculation tends to be wasted and irrelevant to what could actually happen in the event of a conflict. Cordesman and Kleiber's study provides in meticulous detail a basis for understanding the realistic threat that Iran poses to the Northern Gulf.

**The Statesman's Year-Book 1986-87** J. Paxton, 2016-12-22 The classic reference work that provides annually updated information on the countries of the world. 1986-1987 John Paxton, 2021-06-21 No detailed description available for 1986-1987. *Selected Papers from the 1992 (59th Annual) Meeting of the Society for Military History Hosted by the Command and Staff College of the Marine Corps University* Society for Military History (U.S.). Meeting, 1994. The Indian Ocean Region Anthony H. Cordesman, Abdullah Toukan, 2014-09-11 The Indian Ocean Region (IOR) is one of the most areas of the world in human terms. This study provides a comprehensive overview of the subregions and countries in the IOR, drawing heavily on a new country risk assessment model developed by Abdullah Toukan, a senior associate with the Burke Chair at CSIS. It provides detailed graphs, tables, and maps covering the IOR as a whole, each major subregion, and each of the thirty-two countries in the region, as well as the impact of U.S. and Chinese military forces. Evolution of the Armed Forces of the United Arab Emirates Athol Yates, 2020-12-10 While today the military of the United Arab Emirates is described admiringly as a little Sparta, just 60 years ago the only security forces in the Emirates were the armed retainers of the Ruling Sheikhs and a small British-led locally raised Arab force. Through a combination of direct oversight by rulers, investment in its nationals, engagement of expatriates, and the purchase of cutting-edge military hardware, the UAE Armed Forces has become arguably the most capable Arab military. In the last decade, it has also gained considerable experience through its military operations in Afghanistan, Libya, Iraq, Syria, and Yemen. This book traces the little-known history of the country's military from 1951 to 2020. It provides unparalleled detail on the constituent forces that evolved into the UAE Armed Forces in 1976 and how that unified force has evolved to the present. It provides essential background information on how the country's geography

demographics and political system have shaped its military the enduring roles of the military and the history of each military service It also details the political and command structure governing the military and its manpower and materiel characteristics The book concludes with an explanation of how the UAE has been able to develop such a highly capable military for its size in a relatively short period of time

**After The Storm** Anthony H Cordesman, 2019-08-19 This comprehensive new analysis goes far beyond today's headlines and the basic facts and figures on the military forces in the region Tracing the origin of the military forces in each Middle East country Tony Cordesman discusses current security developments and provides a qualitative and quantitative analysis of the strength and effectiveness of

**The Encyclopedia of Middle East Wars** Spencer C. Tucker, 2010-10-08 This in depth study of U S involvement in the modern Middle East carefully weighs the interplay of domestic cultural religious diplomatic international and military events in one of the world's most troubled regions The monumental five volume *The Encyclopedia of Middle East Wars* The United States in the Persian Gulf Afghanistan and Iraq Conflicts is a must have resource for anyone seeking to comprehend U S actions in this volatile region Under the expert editorship of Spencer C Tucker the encyclopedia traces 20th and 21st century U S involvement in the Middle East and south central Asia concentrating on the last three decades Beginning with the 1980 1988 Iran Iraq War it covers the 1979 1989 Soviet occupation of Afghanistan the 1991 Persian Gulf War allied punitive actions against Iraq during the 1990s the Afghanistan War the Iraq War and the Global War on Terror Many smaller military actions against Iran Iraq Libya Afghanistan and other regimes that have been involved in international terrorism are also included Diplomacy religion as it pertains to Middle East conflict and social cultural developments are other key subjects of analysis as is the interplay of politics with military policy in the United States and other nations involved in the region

*Bases Abroad* Robert E. Harkavy, 1989 Analyzing the modern status of military bases and the diplomacy that defines their location and access this book explores the global basing networks of the world's major military powers their type location and the politics and economics of their acquisition It provides data on armaments intelligence communications research and space facilities tables and maps that display U S and Soviet global networks and the various military roles and nuclear deterrence capabilities for global power projection and support of client states in the Third World Harkavy also discusses emerging political and technological developments that could alter basing diplomacy
